**Godspeed and Guideposts for Your Journey** Bob Mahr, 2018-06-26 This book can be a resource during a hinge point or at the intersection of two or more paths in your life. It can be words of guidance between where/who you are and where/who you will be. This book has taken a lifetime in creation. It began several years ago as a high school graduation gift of random thoughts and sayings for my oldest daughter, as she was preparing for a significant life change. Then over the course of two more daughter's graduations, it grew into a deeper and more holistic document. Through this progression, the Holy Spirit gained a greater foothold in my consciousness and guided my words. Inside are lessons learned, guideposts, that are outcomes of wisdom gained from my past thirty plus years of experience in business, athletics, family life, and the unifying glue of faith and Scripture. I have come to an understanding that thriving in life is kind of like sitting on a stool. A stool has a firm seat as a foundation, supported by legs. The pieces of the stool all work together and are required to make a stool complete as well as sturdy. Life is a sum total of many pieces all working together.

**The Lombardi Rules** Vince Lombardi, 2004-09-09 Provides more than two dozen guidelines that the football coach used to drive himself and others to success.

**The Innovator's Spirit** Chuck Swoboda, 2020-05-05 2021 Axiom Business Book Award Winner in Business

Intelligence/Innovation Innovation isn't optional—it's imperative Everyone wants to create new products and services, find new customers and markets, stay ahead of the competition, and work smarter instead of harder. Yet with all the focus and attention on innovation, the term has become an overused buzzword rather than a real, tangible concept. If you want to seriously pursue innovation—you need to strip away the hype. Real innovators need to transcend the existing ideas, rules, and patterns to discover exciting new outcomes. They must step outside the best practice box and get their hands dirty. The spirit of a true innovator is rooted in wanting to do something that has never been done before, to solve problems that have never been solved, and to run through walls and leap over tall buildings to get there. In *The Innovator's Spirit*, author Chuck Swoboda—retired chairman and CEO of Cree, a company that fundamentally changed the way people experience light and drove the obsolescence of the Edison light bulb—explains that innovation is fundamentally about people and shows his readers how to develop a mindset of creativity, risk-taking, and hard work. He also instills in them a belief that there is always a better way.

**It Has Taken a Lifetime** Gene D. Lord, 2021-06-16 Writing this book has been in my bucket list for about twenty-five years. I wanted to share my experiences growing up in the country along with my wonderful family. Marrying my wife Marsha and having our two boys and our four grandchildren have been some of the best blessings a man could have. Sharing my Christian testimony of how God has been with me throughout my life has been so satisfying. God was working on me long before I even realized it. Spending time with my beautiful friends and having experiences with them while hunting, camping, and enjoying the outdoors have been a significant part of who I am. Spending almost fifty years working with Flowers Foods was a wonderful experience that allowed me to meet so many people and share my story with each of them. God has been so good. Some would say I had been successful in life; and as the world may see it, I suppose I have been. However, I believe my most significant success has been “Being right smack dab in the middle of where God wanted me to be.”

The Letter Ed Munson, 2021-06-14 The Letter By: Ed Munson United States Supreme Court Justice Bailey Stewart, well known for her honesty, fairness, and consistency in interpreting the Constitution, becomes privy to some startling revelations, ones that will test her curiosity to know more and determine what might the public have a right to know. Befriended by an unknown, but seemingly well-versed source identified as Ivanhoe, she becomes entrenched in what has been purported to be the truths, half-truths and outright fabricated mysteries of history. The fact vs. fiction debate could lead to revisionist history, but at what cost? Her legal mind races to put the pieces of the giant jigsaw together. She calls on her former college mentor, Dr. Mathew Brumfield, solicits the help of federal judge, Deputy Attorney General and special prosecutor Spencer Crockett and leans on her husband Dr. Zach Longfellow to guide her through a maze of information and potential landmines. Initial Ivanhoe caches of information whet the appetite: The Kennedy Assassinations, curse for cancer, alternative fuel sources, Pearl Harbor, even alien visits. On face value, the 16 Ivanhoe letters are a good read, leading to detailed facts that delves into who knew what and when and did the government know any or all of this and keep it from the public's eye? The inquiries lead to searching for records from the FBI, National Archives, the U.S. Congress, known and unknown governmental agencies and more. Stop signs abound. Threats become real. As Ivanhoe has attested, all of the information since shared with Justice Stewart is true, and there is more. As for those who would stand to win or lose with such information, there will be a day of reckoning. Legal remedies have worked their way up the ladder to reach the Supreme Court. At issue is what does the public have a right to know? You be the judge.
