Geoff Hiscock

India's Store Wars Geoff Hiscock, 2012-11-30 As India's middle class grows and disposable incomes rise, modern retail is becoming the next hot sector of the Indian economy. Hundreds of millions of new consumers will join this retail revolution, venturing into supermarkets, department stores and air-conditioned shopping malls for the first time. But instead of just window shopping, many of them will be serious buyers with money to spend. To cater for their needs, established players in the modern retail sector such as Biyani, Raheja and Goenka are being joined by the big names of Indian business - Reliance, Birla, Bharti, Tata etc - who plan to spend billions over the next few years rolling out supermarkets, big-box outlets and specialty stores. At the same time, property developers are getting on with the malling of India, and looking for high profile anchor tenants to lure customers. On the sidelines of this Indian retail revolution are big overseas players such as Wal-Mart, which already has a tie-up with Bharti to provide much-needed "back office" support. But what Wal-Mart really wants is the right to set up its own stores in India. The same goes for Tesco, Carrefour, Metro and other international players. While the macro outlook appears bright, the problems are astronomical for India retail industry. There is no reliable cold chain, transport logistics are appalling, there is a huge lack of managerial talent, there is no consistency for quality and quantity of supply, there is political opposition from groups such as market middlemen, the mom and pop kirana corner stores have to be catered for, as do the farmers who grow the produce that is integral to a successful retail revolution. How well will these disparate players cope with the various pressures of a dynamic and fast-moving industry?

The Power of Purpose in Life Krishna Ganesh, 2013-05-08 The book is written to emphasize the importance of having a purpose in one's life. Life, after all, must be led happily and having a purposeful life ensures happiness. The current unrest and gloom in the society are because of the fact that people do not have definite goals in life. The mind, by nature, is negative and requires conscious effort to turn positive. A strong purpose in life engages the mind constructively and turns it positive, thus bringing plenty of joy and happiness. However, finding purpose in one's life is not easy. It involves serious introspection, as questioning oneself is the only way to find it. But it is worth making an attempt as our self-esteem and happiness in life are directly linked to it. The book brings out the information about one's natural abilities and explains how they have connections with one's passion. So discovering either natural abilities or passion or both would eventually lead to the purpose of life. This book gives more insight into the relationship between them and describes how a strong purpose in life has the ability to make

life joyful. The examples given in the book can help serious readers to find theirs. All the people who made it big in life have used their inherent abilities and passion to bring success to themselves. This book captures their inspiring stories to make the readers aware of the potential of having a strong purpose in life.

Brand New Justice Simon Anholt, 2006-08-11 Recently vilified as the prime dynamic driving home the breach between poor and rich nations, here the branding process is rehabilitated as a potential saviour of the economically underprivileged. Brand New Justice, now in a revised paperback edition, systematically analyses the success stories of the Top Thirteen nations, demonstrating that their wealth is based on the 'last mile' of the commercial process: buying raw materials and manufacturing cheaply in third world countries, these countries realise their lucrative profits by adding value through finishing, packaging and marketing and then selling the branded product on to the end-user at a hugely inflated price. The use of sophisticated global media techniques alongside a range of creative marketing activities are the lynchpins of this process. Applying his observations on economic history and the development and impact of global marketing, Anholt presents a cogent plan for developing nations to benefit from globalization. So long the helpless victim of capitalist trading systems, he shows that they can cross the divide and graduate from supplier nation to producer nation. Branding native produce on a global scale, making a commercial virtue out of perceived authenticity and otherness and fully capitalising on the 'last mile' benefits are key to this graduation and fundamental to forging a new global economic balance. Anholt argues with a forceful logic, but also backs his hypothesis with enticing glimpses of this process actually beginning to take place. Examining activities in India, Thailand, Russia and Africa among others, he shows the risks, challenges and pressures inherent in 'turning the tide', but above all he demonstrates the very real possibility of enlightened capitalism working as a force for good in global terms.

India After Gandhi: The History of the World's Largest Democracy Ramachandra Guha, 2017-07-13 Ramachandra Guha's *India after Gandhi* is a magisterial account of the pains, struggles, humiliations and glories of the world's largest and least likely democracy. A riveting chronicle of the often brutal conflicts that have rocked a giant nation, and of the extraordinary individuals and institutions who held it together, it established itself as a classic when it was first published in 2007. In the last decade, India has witnessed, among other things, two general elections; the fall of the Congress and the rise of Narendra Modi; a major anti-corruption movement; more violence against women, Dalits, and religious minorities; a wave of prosperity for some but the persistence of poverty for others; comparative peace in Nagaland but greater discontent in Kashmir than ever before. This tenth anniversary edition, updated and expanded, brings the narrative up to the present. Published to coincide with seventy years of the country's independence, this definitive history of modern India is the work of one of the world's finest scholars at the height of his powers.

CONSUMER BEHAVIOUR MAJUMDAR, RAMANUJ, 2010 Consumer Behaviour has always fascinated marketers all over the world. Rightly so, because it offers interesting insights into the working of the human mind in making purchasing

decisions. For instance, why do consumers repeatedly purchase a particular brand or, in some cases, why do they switch from one product to another? In this compact, concise and profusely illustrated text, Professor Majumdar, with his rich and varied experience in Marketing, tries to provide interesting insights into some of these and other interesting questions about consumer behaviour. He gives a masterly analysis of the theory and practice of consumer behaviour and decision making and the factors that influence it. Divided into six parts, Part I of the text shows the importance of understanding consumer behaviour; Part II highlights different aspects of consumer psychology and covers such topics as consumer motivation, consumer perception, and consumer personality. Part III demonstrates how consumers behave in their social and cultural settings, the effect of personal factors, and the influence of reference groups on consumer behaviour. Part IV dealing with consumer decision making describes the various stages involved in brand choice, the post-purchase behaviour and, importantly, the six well-established models proposed by scholars on consumer behaviour. Part V analyzes the diversity of the Indian market and about the emerging patterns of consumer behaviour. Cases in the Environment of Business David W. Conklin,2006 The Ivey Casebooks Series is a co-publishing partnership between SAGE Publications and the Richard Ivey School of Business at The University of Western Ontario. Due to their popularity in more than 60 countries, approximately 200 new cases are added to the Ivey School of Business library each year. Each of the casebooks comes equipped with instructor's resources on CD-ROM. These affordable collections will not only help students connect to real-world situations, but will benefit corporations seeking continued education in the field as well. Broadening the scope of environmental forces to a global rather than a domestic context leads to cross-country comparisons that add complexity to the subject matter, enrich analytical theories, and heighten the interest of students. Students gain an appreciation for the many ways in which environmental forces interact, creating a set of risks and opportunities that is unique in each country and that must be evaluated in formulating trade and investment decisions. Cases in the Environment of Business offers an outstanding collection of relevant, classroom-tested cases. In discussing the cases, students will participate in managerial decisions in an international context. Most cases deal with a variety of environmental forces, but generally a single set of forces plays a predominant role. The instructor's resources on CD-ROM includes detailed 6-10 page casenotes for each case, preparation questions for students to review before class, discussion questions, and suggested further readings. INTERNATIONAL BUSINESS SANJAY MISRA, P. K. YADAV, 2009-01-30 Today, with the pervasive impact of globalization and liberalization sweeping across the globe, exerting its influence on both the developed and the developing nations, business is no more confined to the national borders of a country. More and more companies are spreading their business to markets abroad (for example, Tata Consultancy Services and Infosys Technologies spreading their business to USA and elsewhere) or acquiring new companies (for instance, Tata acquiring the Corus and the Land Rover and Jaguar, or reversely, Vodafone acquiring Hutch). International business, therefore, has become such an important area of study for students of management and commerce. This comprehensive and easy-to-read text tries to lay bare the ramifications and complexities of international business. Divided into six sections, the book provides a harmonious blend of concepts and applications of

international business. What distinguishes the text is the emphasis it lays on the Indian cases and the Indian scenario through the provision of many cases and illustrative examples. However, the book goes beyond the Indian context by giving international cases, thus imbuing the text with a global business flavour. Key Features □ The case studies discussed include the cases such as Tata Motors, Hindustan Unilever, Ranbaxy, McDonald, Nokia, Microsoft and Walt Disney. □ The opening case in each chapter introduces the students to a real-life example, followed by the text which provides the theoretical knowledge on the subject. The concluding case study correlates the theoretical knowledge with the real-life situation. □ Review questions are cited after every case study to check students' comprehension of the subject. Primarily intended as a text for undergraduate and postgraduate students of Business Administration, MBA, MIB and postgraduate students of Commerce, the book would be of great value also to practising managers.

Corporate Social Responsibility C. V. Baxi, Ajit Prasad, 2005 In the contemporary debate on the modern corporation and its impact on the economy, society and nation, the focus has shifted from growth with only profitability to growth with sustainable development, which includes the stakeholders. While there is considerable debate on the corporations' obligations to civil society in the Western world, in the developing countries the debate is sporadic; the present publication is an effort to initiate a nationwide discourse on the concepts and practices of corporate social action in India. The book is divided in two sections; section one contains papers, which analyze the conceptual framework of Corporate Social Responsibility. The unique feature of this book is the case studies on different aspects of CSR presented in section Two. The cases focus on such segments as education, healthcare and environment, among others. It is for the first time that under the aegis of UNDP-CII-AICTE-MDI the business schools in the country participated in preparing cases from various industries focusing on the process and decision making content implicit in the introduction, implementation, and evaluation of various facets of Corporate Social Responsibility. The cases are illustrative and they will help in identifying further areas of research. The teaching notes have been developed by the individual authors, and will be available on request.
