All Of Me Claire Richards,2012-07-05 Claire Richards is loved by women everywhere for her warm and genuine personality. Now she writes honestly about her life, taking us from the bullied schoolgirl who dreamed of performing at Wembley to finding stardom with Steps. She reveals the secrets of the music industry and what it's really like to be in a band at the top of their career, from the unhealthy pressure to stay thin to the backstage rows. She describes how the stress of her affair caused her to starve herself, and explains why she and fellow bandmate H controversially resigned. Claire also opens us about why her first marriage to Steps dancer Mark didn't last, her dramatic weight gain and years of yo-yo dieting as she battled low self-esteem, and how she found happiness with second husband Reece and their two children Charlie and Daisy. And she takes us behind the scenes of the Steps reunion tour as old issues rose to the surface. Entertaining, touching and funny, this is sure to appeal to Claire's many fans.

The Story of Fake Books Barry Kernfeld,2006-08-24 Fake books-anthologies of songs notated in a musical shorthand-have been used by countless pop and jazz musicians in both professional and amateur settings for more than half a century. The Story of Fake Books: Bootlegging Songs to Musicians traces the entertaining and previously unknown account of the origins of pop song fake books, which evolved through the bootlegging of a now obscure musical subscription service, the

Tune-Dex. The book follows the history of fake books through their increased popularity among musicians to their prosecution by the government and the music industry, resulting in America's first full-blown federal trial for criminal copyright infringement. Through accounts given by jazz musicians Steve Swallow and Pat Metheny, *The Story of Fake Books* also reveals the definitive history of the most popular fake book, one that has acquired a legendary status among jazz musicians: an anthology of jazz tunes called *The Real Book*. Drawing from information in FBI files, entertainment trade papers, and federal court records, author Barry Kernfeld presents pioneering research, which brings together aspects of pop music history and copyright law to disclose this predecessor of current-day battles over pop song piracy.

Tales From My First 90 Years Alpha C Chiang, 2021-01-28 Alpha C Chiang, a renowned economist, and Professor Emeritus of Economics at the University of Connecticut, is best-known for his classic textbook — *Fundamental Methods of Mathematical Economics*. In this memoir, he tells the entertaining, scary, embarrassing, glorifying and surreal tales that colored his life. On the academic side, Alpha describes in detail his scholastic journey, including why and how he created one of the most popular books on mathematical methods in economics, as well as the experiences of his teaching career. On the nonacademic side, he describes his ventures into his many hobbies, the spices of his life, including Chinese opera, ballroom dancing, painting and calligraphy, photography, piano, music composition, playwriting, and even magic. Such tales round out the depiction of a colorful life. What's behind his unusual name, Alpha? What schooling disaster tripped him at a young age? What surreal occurrence did he experience at a cliff at age 8? What major miracle changed his family? How did he become a loan shark when he was a graduate student at Columbia University? What Hollywood glamour star mysteriously materialized within inches of him when he was working on a TV show in his student days? How did he conquer a serious phobia and eventually become an acclaimed professor? What motivated his writing of his celebrated book? And what funny, embarrassing, and memorable events occurred in his teaching career? This book is a unique story about a unique life.
