Research Methods in Vocabulary Studies Philip Durrant, Anna Siyanova-Chanturia, Benjamin Kremmel, Suhad Sonbul, 2022-09-15 Understanding vocabulary and its role in language learning is one of the central tasks of applied linguistic research. It is also an area that has seen, and continues to see, huge progress in terms of the complexity and diversity of work being done. While this makes for a rich and exciting research scene, it can also make the task of developing vocabulary research skills a daunting one as specialist subfields develop ever more sophisticated concepts and methods. This book aims to give readers an understanding of the area that is both detailed and rounded by introducing them to understanding and

doing vocabulary research from four key perspectives: corpus linguistics, psycholinguistics, language testing, and teaching and learning. Within each area, a state-of-the-art review describes fundamental concepts and commonly used methods, evaluates ongoing methodological debates, and points to areas for future development. It aims both to give readers a solid grounding in the specialized methods and debates associated with each area and to build connections across these specializations, considering points of contact and ways in which they can work together.

Chinese-Speaking Learners of English Ryan Damerow, Kathleen Bailey, 2019-12-05 A compendium of the latest developments in research regarding English language education for Chinese-speaking learners, this volume combines cutting-edge research from multiple internationally-known scholars. The chapters offer unique insights into some of the most salient issues related to this broad topic. The seventh volume in the Global Research on Teaching and Learning English series, co-published with The International Research Foundation for English Language Education (TIRF), this book features chapters with original research written by TIRF Doctoral Dissertation Grant awardees. The volume addresses the crucial and growing need for research-based conversations on the contexts, environments, goals, and measures of success for Chinese-speaking learners of English. It includes sections on language assessment, perceptions in university contexts, and technology, especially in relation to young learners, in order to promote in-depth discussion of the teaching and learning of English for native speakers of Chinese. The volume's 13 research-based chapters discuss topics such as the impact and implications of using emerging assessment tools; the increase in English for Specific Purposes (ESP) courses; academic

speaking and writing; and teaching in an online or hybrid environment. Throughout the book the authors draw on their knowledge of their multiple contexts, as well as their learners' needs and goals. This volume brings together innovative research for TESOL and TEFL students, language teacher educators, language policy specialists, language assessment scholars, and language teachers. Readers will become familiar with how these issues related to Chinese-speaking learners of English are being addressed in academic circles around the world.

Second Language Speech Fluency Parvaneh Tavakoli, Clare Wright, 2020-12-17 Second language (L2) fluency is an exciting and fast-moving field of research, with clear practical applications in language teaching. This book provides a lively overview of the current advances in the field of L2 fluency, and connects the theory to practice, presenting a hands-on approach to using fluency research across a range of different language-related professions. The authors introduce an innovative multidisciplinary perspective, which brings together research into cognitive and social factors, to understand fluency as a dynamic variable in language performance, connecting learner-internal factors such as speech processing and automaticity, to external factors such as task demands, language testing, and pragmatic interactional demands in communication. Bringing a much-needed multidisciplinary and novel approach to understanding the complex nature of L2 speech fluency, this book provides researchers, students and language professionals with both the theoretical insights and practical tools required to understand and research how fluency in a second language develops.

Revisiting the Assessment of Second Language Abilities: From Theory to Practice Sahbi Hidri, 2018-01-12 This book presents an overview of revisiting the assessment of language abilities. It also showcases how the measurement of such constructs can result in negative or positive washback and how outcomes might be conducive to repercussions that decide on the future of many stakeholders. The 23 chapters were selected among tens of chapters received from different contexts that addressed the issue of revisiting the assessment of language abilities, such as Tunisia, Ukraine, Algeria, Russia, KSA, Sudan,

Egypt, Canada, Kurdistan, UK, USA, Iran, Turkey, etc. These contexts have highlighted the necessity to revisit the different constructs which should be assessed with a clear and straightforward foundation on students' learning objectives and their actual language ability. To do so, most of the chapters present hands-on use of relevant statistical tests that might serve in revisiting the construct definition both theoretically and operationally. Perhaps the sole and intricate question that the authors of these contributions ask is what it means to revisit the assessment of the construct of individualized language ability and how. In addition, the book accentuates the momentousness and significance of reflecting on test fairness and validation as the mainspring and backbone for democratization of assessment. This book appeals to a broad readership, such as English Language Teaching (ELT) practitioners, language teachers, students, testing organizations, policy-makers, test designers, writers of test specifications, testing experts, researchers, program evaluators, especially in the Middle East and North Africa (MENA) as well as other international contexts.

Análisis de correspondencia de la competencia lingüística en el logro de la competencia traductora. Caso: Facultad de Idiomas Tijuana, UABC Lázaro Gabriel Márquez Escudero, 2023-11-09 En esta obra, se plantea la evaluación del impacto que ejerce la competencia lingüística en el logro de la competencia traductora mediante el análisis de los resultados de la aplicación de dos instrumentos de evaluación a estudiantes de la licenciatura en Traducción de la Facultad de Idiomas, UABC, Campus Tijuana, bajo un enfoque cuantitativo. Es así como se señalan las hipótesis planteadas usando magnitudes numéricas que se procesan con la utilización de herramientas estadísticas. Se analiza minuciosamente la forma en que los estudiantes cumplen con el nivel de idioma extranjero requerido para llevar a cabo una buena traducción. No obstante, la traducción a la lengua meta no resultó como se esperaba. ¿Necesitan más práctica en el ejercicio de la traducción o enfrentan problemas en su propio idioma?

Content and Language Integrated Learning in Monolingual Settings María Luisa Pérez Cañado, 2021-04-09 This book offers new empirical insights into the current state of Content and Language Integrated Learning (CLIL) characterisation (through an innovative proposal to link CLIL to English as a Lingua Franca), implementation (via observation protocols and SWOT analyses), and research (by examining the effects of CLIL on the L1, foreign language, key competences, and content

subjects taught through English). The book provides a state of the art of the CLIL arena, identifies the chief challenges that need to be addressed and signposts possible ways of overcoming these in order to continue advancing smoothly into the next decade of CLIL development. This book will be of interest to researchers, policy-makers, educational authorities, and practitioners as it will assist them in making informed decisions about how to characterise, implement, and investigate CLIL in the bi- and plurilingual programs that are more frequently introduced in monolingual contexts.

Assessment for Language Teaching Aek Phakiti, Constant Leung, 2024-04-30 This Element reviews the key foundational concepts, beliefs, and practices underpinning approaches to assessment in English Language Teaching. Exploring major concepts and practices through educational, social, and ethical perspectives, it offers theoretically informed and close-to-practice descriptions and up-to-date explanations of the affordances and limitations of different assessment approaches related to language teaching. This Element presents a cohesive and pragmatic framework that allows teachers to efficiently implement tests and assessments in their contexts.

The Way Fanny S.M., 2021-06-11 Not many would dare to take challenging decisions in life when life itself is full of uncertainties and confusions. But I had to; may be because of my birth as the eldest daughter to a typical Indian middle class family which was surmounted by a variety of problems and the responsibilities attached therewith. But the Way I tread never deceived me, rather I was led to a glorious place called the Parliament of India about which I have never dreamt of. The Way is the inspiring account of my life which vividly portrays the struggles I had to face to reach this place from a humble beginning. Though circumstances were not in my favour, faith in God and willingness to move on with optimism helped me to achieve success in life. Jesus had been my counselor during the difficult period of life and set my Way because He Himself is the Way. My life is a wakeup call for the readers to move on in life in spite of various unfavorable situations and to assure that all the sorrows and uncertainties will be transformed into joy and peace soon.

Email Pragmatics and Second Language Learners Maria Economidou-Kogetsidis, Milica Savić, Nicola Halenko, 2021-10-15 This is the first edited collection focusing exclusively on how second language users interpret and engage with the processes of email writing. With chapters written by an international array of scholars, the present volume is dedicated to furthering the study of the growing field of L2 email pragmatics and addresses a range of interesting topics that have so far received comparatively scant attention. Utilising both elicited and naturally-occurring data, the research in this volume takes the

reader from a consideration of learners' pragmatic development as reflected in email writing, and their perceptions of the email medium, to relational practices in various email functions and in a variety of academic contexts. As a whole, the contributions incorporate research with learners from a range of proficiency levels, language and cultural backgrounds, and employ varied research designs in order to examine different email speech acts. The book provides valuable new insights into the dynamic and complex interplay between cultural, interlanguage, pedagogical, and medium-specific factors shaping L2 email discourse, and it is undoubtedly an important reference and resource for researchers, graduate students and experienced language teachers.

The Routledge Handbook of Language Testing Glenn Fulcher, Luke Harding, 2021-12-15 This second edition of The Routledge Handbook of Language Testing provides an updated and comprehensive account of the area of language testing and assessment. The volume brings together 35 authoritative articles, divided into ten sections, written by 51 leading specialists from around the world. There are five entirely new chapters covering the four skills: reading, writing, listening, and speaking, as well as a new entry on corpus linguistics and language testing. The remaining 30 chapters have been revised, often extensively, or entirely rewritten with new authorship teams at the helm, reflecting new generations of expertise in the field. With a dedicated section on technology in language testing, reflecting current trends in the field, the Handbook also includes an extended epilogue written by Harding and Fulcher, contemplating what has changed between the first and second editions and charting a trajectory for the field of language testing and assessment. Providing a basis for discussion, project work, and the design of both language tests themselves and related validation research, this Handbook represents an invaluable resource for students, researchers, and practitioners working in language testing and assessment and the wider field of language education.
