Robyn J. Whitaker

Even the Devil Quotes Scripture Robyn J. Whitaker,2023-05-11 “We are meant to take the Bible seriously, not literally.” —from the Introduction In *Even the Devil Quotes Scripture*, Robyn J. Whitaker looks to the Bible as a guide to interpreting the Bible, and her findings breathe new life into our understanding and use of Scripture. As it turns out, the uses of Scripture within Scripture are flexible, open to frequent reinterpretation, and rarely literal. For instance, Ezra and Nehemiah reinterpret laws about whether Jews can marry foreigners in the wake of the Babylonian exile. Their contradiction of earlier traditions found in Deuteronomic law do not invalidate Scripture but rather represent its diverse applications for the prophets’ specific situations. In the Gospel of Matthew, Jesus presents a more demanding interpretation of Mosaic law in the Sermon on the Mount, while in Mark’s Gospel he all but ignores its prohibition of working on the Sabbath. Yet the common ethos of the two gospels prioritizes compassion over legalism. Ultimately, Whitaker ascertains one definitive characteristic of inner-biblical interpretation: love. After all, the Old Testament passage most frequently quoted in the New Testament is Leviticus 19:18: “Love thy neighbor.” Thus, Whitaker proposes a hermeneutic of love—a litmus test for the validity of a scriptural interpretation measured in charity. Ideal for any devoted reader of the Bible, *Even the Devil Quotes Scripture* opens our eyes to the Bible as a living, loving gift of God’s unfolding revelation.

In A Father's Eye Chris Lipps,2018-05-09 A devotional charge for spiritual men and women who need to restart their batteries in order to have a daily walk with God. Fathers! Husbands! Spiritual leaders! Listen to what I am about to say! I am

about to charge your spiritual awareness like you have never been charged before. So stand up and show your family you are up for the challenge. The first thing we are going to do is teach you how to put God first. Next, we are going to discuss the differences between a Godly, spiritual leader and a sinful one. Then, we are going to show you how your actions can affect your family unit and home. Last, but certainly not least, we are going to laugh a little. So what are you waiting for? Are you ready for a devotional book unlike anything you have experienced? From Genesis to Revelation, from home to work; we probe, compare, and discuss various aspects of spiritual leaders who have lived this with success and failures.

The Wonderful Art of the Eye Benvenutus Grassus,2012-01-01 A thirteenth-century treatise on the theory and practice of ophthalmology, this unique work provides a window on what passed for medical knowledge of the eye during the late Middle Ages. Although little is known of the author, Benevenutus Grassus, he seems to have roamed Italy in the early thirteenth century as a medical practitioner specializing in diseases of the eye.

The Private Eye Mary Burns,1996 In The Private Eye we learn about snow geese through the eyes of Native people, scientists, artists, hunters, and farmers. Yup'ik Eskimo Charles Hunt harvests snow geese along the Yukon River delta each fall, continuing a subsistence way of life that has existed for millennia. Russian, Canadian, and US scientists track the movements of the geese each spring and fall, banding, sexing, counting, and precisely monitoring the activities of these beautiful birds. Robert Bateman provides an artist's view of nature and relates how his curiosity led him to join a camp set up at a remote nesting site. Mary Burns also talks to hunters, joining a party of them as they wait for their snow geese decoys to lure the real thing into a Westham Island field in the Fraser delta. To complete the experience she prepares snow geese for supper. As well, Burns travels around the Skagit River delta during a population survey and meets a dairy farmer who describes both the wild flocks that converge on his fields each spring and the snow geese he raises in pens. The Private Eye suggests that by acknowledging our many and varied connections with the natural world, we will have a better understanding of the human place in it.

In the Hurricane's Eye Nathaniel Philbrick,2019-06-04 NEW YORK TIMES BESTSELLER Nathaniel Philbrick is a masterly storyteller. Here he seeks to elevate the naval battles between the French and British to a central place in the history of the American Revolution. He succeeds, marvelously.--The New York Times Book Review The thrilling story of the

year that won the Revolutionary War from the New York Times bestselling author of *In the Heart of the Sea* and *Mayflower*. In the concluding volume of his acclaimed American Revolution series, Nathaniel Philbrick tells the thrilling story of the year that won the Revolutionary War. In the fall of 1780, after five frustrating years of war, George Washington had come to realize that the only way to defeat the British Empire was with the help of the French navy. But coordinating his army's movements with those of a fleet of warships based thousands of miles away was next to impossible. And then, on September 5, 1781, the impossible happened. Recognized today as one of the most important naval engagements in the history of the world, the Battle of the Chesapeake—fought without a single American ship—made the subsequent victory of the Americans at Yorktown a virtual inevitability. A riveting and wide-ranging story, full of dramatic, unexpected turns, *In the Hurricane's Eye* reveals that the fate of the American Revolution depended, in the end, on Washington and the sea.

The Angry Eye of God Rodney A Henderson, 2018-03-30 Could a Born-again Christian with the Bible, be a match for today's top secular Scientists, trained in General Relativity and Quantum Physics laws? Especially when it comes to answering the most far reaching and important question of all times: Does The Eternal God of the Bible exist? The answer is a resounding - Yes! Now the leading scientific authorities of today refer to Him, merely as an intelligent designer- most denying, either, His existence or His relevance. But God has His witnesses - mainly the Bible and those who believe in it and in Him (actually all of creation). At the core of this book is one of today's most incredible scientific discoveries: The Black Hole. There is nothing like it in this universe. Scientists are awed by its power and baffled by its mysteries. They've learned so much about it but we've discovered something even more revealing. This is that the Bible speaks of the Black Hole, long before it was even imagined by scientists. The Lake of Fire (also known as Outer Darkness) is what is it called in the Bible. I believe there is ample scientific evidence to back up the claim that these two entities are one and the same - although it's doubtful that the researchers intended such evidence to prove what is clearly an antithesis to them. The esteemed astrophysicist, Stephen Hawking, once said that black holes are not the eternal prisons as once thought. It is ironic that, as it turns out, the exact opposite is true. Some Black Holes are actually created by the Eternal God of the Bible as an Eternal Prison. This revelation should shock us awake in a manner that is, at once, horribly chilling and glorious divine. Imagine; what could be worse than entering a black hole and being destroyed? How about the actual certainty of being thrown onto one someday and not being destroyed but instead, being tormented alive inside - forever. Better to bow now before a loving Savior-than to be under the fearsome gaze of The Angry Eye of GOD at His Great White Throne Judgement. Kiss the Son, lest he be angry and you perish from the way when his wrath is kindled but a little. Blessed are all they put their trust in Him.- Psalms 2:12

In the Mind's Eye Emily Mofield, Tamra Stambaugh, 2021-09-03 Winner of the 2012 NAGC Curriculum Studies Award *In the Mind's Eye: Truth Versus Perception* invites students on a philosophical exploration of the themes of truth and

perception. Lessons include a major emphasis on rigorous evidence-based discourse through the study of common themes and content-rich, challenging informational and fictional texts. This unit, developed by Vanderbilt University's Programs for Talented Youth and aligned to the Common Core State Standards (CCSS), applies concepts from Plato's Allegory of the Cave to guide students to discover how reality is presented and interpreted in fiction, nonfiction, art, and media. Students engage in activities such as Socratic seminars, literary analyses, skits, and art projects, and creative writing to understand differing perceptions of reality. Lessons include close readings with text-dependent questions, choice-based differentiated products, rubrics, formative assessments, and ELA tasks that require students to analyze texts for rhetorical features, literary elements, and themes through argument, explanatory, and prose-constructed writing. Ideal for pre-AP and honors courses, the unit features art from M.C. Escher and Vincent Van Gogh, short stories from Guy de Maupassant and Shirley Jackson, longer texts by Daniel Keyes and Ray Bradbury, and informational texts related to sociology, Nazi propaganda, and Christopher Columbus. This unit encourages students to translate learning to real-life contexts and problems by exploring themes of disillusionment, social deception, and the power of perception. Grades 6-8

Eye Beyond the Sky Jie Wang, 2024-09-17 This book highlights stories of the most important 13 ground-based observatories and 14 space probes in human history, leading readers through each significant step of human's astronomical observation journey. From the earliest Hooker Telescope and the Mount Wilson Observatory, to the latest FAST, JWST and DAMPE, the targets of observation range from large systems such as the solar system, the milky way, and the universe, to individual planets such as Jupiter, Saturn, Mars, and the remote stars, and to the matters that reveal the origin of the universe, such as dark matter and cosmic background radiation. The book presents the mysteries of the sky in an easily readable manner suitable for audiences of all ages who are curious about the universe and thirsty to know all the important discoveries in the past century, especially the last decade. With carefully-selected contents, the book weaves together a series of tales to make the convoluted history of astronomical observation full of fun and excitement, ensuring that readers never lose interest during reading.

Eye on the Future Marilyn Ferris Motz, 1994 Emerging from the conference on The Future of Popular Culture Studies in the Twenty-First Century, held in June of 1992 at Bowling Green, Ohio to honor the academic career of Ray Browne (retired chair, Department of Popular Culture, Bowling Green State U.) and to chart Popular Culture Studies into the next century, this collection of essays includes five of Browne's signal articles and a Ray Browne bibliography. In the Eye of the Storm Brij V. Lal, 2010-11-01 To read this evocative book is to be thrust into a Fiji that has, for the moment, been snuffed out by military might: a Fiji of political parties, parliamentary politics, elections, manifestoes, campaigns, democratic defence of interests, party manoeuvres, and constitutional protection of rights and freedoms. It is a

comprehensive and eloquent re-telling of the story of Fiji politics from independence in 1970 to 1999 through the perspective of Fiji's greatest living statesman, Jai Ram Reddy, by one of the world's most distinguished scholars of its history and politics.
