**Daytrade Apenas para Traders** Rodrigo Fernando Galzerano Baldo,Alessandro Lucas da Silva,Adauto Lucas da Silva,2025-07-24 Ganhar muito dinheiro é o sonho de muitas pessoas. Para muitos a remuneração financeira é o termômetro que mede a diferença entre sucesso e fracasso. Porém, ter uma alta remuneração financeira é algo que está restrito a apenas 2% da população mundial. Neste contexto, devido ao seu gigantesco potencial de retorno financeiro, as operações de daytrading ganharam destaque nas redes sociais. Porém, o que poucos mostram, ou pior ainda, ocultam, é que tornar-se lucrativo em operações de daytrading é algo que apenas poucos conseguem. Fazer operações intradiárias, utilizando gráficos de 5 minutos ou 15 minutos, exige do operador um bom trade system e um fenomenal controle emocional. Como apresentado neste livro, os autores buscaram mostrar a realidade do mundo dos investimentos das operações daytrading. Após quase uma década estudando as operações no mercado financeiro, os autores apresentam neste livro modelos que podem trazer bons resultados financeiros, desde que sejam utilizados da forma correta e com uma boa gestão de riscos. Além disso, os autores se preocuparam em mostrar a dificuldade em se tornar um trader consistente. Caso você esteja na busca pela consistência nas operações de daytrading, temos certeza que este livro o ajudará nesta difícil jornada. Bons estudos.

With rare insight based on his firsthand commodity trading experience, author Mark Douglas demonstrates how the mental matters that allow us function effectively in society are often psychological barriers in trading. After examining how we develop losing attitudes, this book prepares you for a thorough “mental housecleaning” of deeply rooted thought processes. And then it shows the reader how to develop and apply attitudes and behaviors that transcend psychological obstacles and lead to success. The Disciplined Trader helps you join the elite few who have learned how to control their trading behavior (the few traders who consistently take the greatest percentage of profits out of the market) by developing a systematic, step-by-step approach to winning week after week, month after month. The book is divided into three parts: • An overview of the psychological requirements of the trading environment • A definition of the problems and challenges of becoming a successful trader • Basic insights into what behavior may need to be changed, and how to build a framework for accomplishing this goal • How to develop specific trading skills based on a clear, objective perspective on market action “A groundbreaking work published in 1990 examining as to why most traders cannot raise their equity on a consistent basis, bringing the reader to practical conclusions to go about changing any limiting mindset.”—Larry Pesavento, TradingTutor.com

Penulis mengajarkan bagaimana membangun disiplin, keyakinan, dan mentalitas yang konsisten untuk menghadapi ketidakpastian pasar. Buku ini menjadi panduan utama bagi trader yang ingin meningkatkan hasil dengan mengembangkan mentalitas profesional di pasar.
