Forming a Band Richard Spilsbury, 2014-07-01 This is a vibrant and engaging book for aspiring young musicians who want to learn the ins and outs of being in a band in the digital age. This book looks at forming a band, covering finding bandmates, choosing instruments, and getting your equipment just right.

BeTales, 2024-02-06 Stories are what that makes our lives exciting. Sometimes it's influenced by life, sometimes they are the outcome of pure imaginations. But, however they make look, at the end they all have many things to teach you, and this time BeTales is filled with stories in all your favourite genre. From Enemies to Lovers, Horror, haunting and ghost encounters, articles discussing self-empowerment, plight of women, sexual harassment in public places, while travelogue coves different places from India.

The Pop Documentary Since 1980 Richard Wallace, 2025-07-10 In *The Pop Documentary Since 1980*, Richard Wallace examines the representation of pop music, musicians and music-making in documentary film and television. He draws together conceptual frameworks from within and outside of film and television studies - including performance studies, musicology, celebrity studies and fan studies - to provide a critical interrogation of the central issues in this genre. A common criticism of the music documentary is that it lacks artistic integrity because of its close affiliation with its subject. Wallace argues that music documentaries can be artful and conceptually complex and be part of a broader process of image curation under the control of the artist and their management. This contradiction is key to the form's vitality and Wallace explores two competing lines of enquiry. First, the contribution that such documentaries make to the public perception of their subjects. Second, he argues that its 'official' status does not preclude music documentaries from being artistic or engaging with the theoretical questions that underpin documentary media more broadly. Other issues addressed include: - how documentaries about song writing attempt to represent intangible concepts like 'creativity' and 'inspiration'; - how the experiential and affective aspects of music are communicated through the visual image; - ethical considerations. Each of these conceptual questions is examined through detailed analysis of a variety of music documentaries ranging from *Stop Making Sense* to *Tokyo Idols* via Beyoncé and The Beatles.

Eminem Marcia Alesan Dawkins, 2013-08-12 Offering a fresh way to look at one of the best-selling hip hop artists of the early 21st century, this book presents Eminem's words, images, and music alongside comments from those who love and hate him, documenting why Eminem remains a cultural, spiritual, and economic icon in global popular culture. *Eminem: The Real Slim Shady* examines the rapper, songwriter, record producer, and actor who has become one of the most successful and well-known artists in the world. Providing far more than a biography of his life story, the book provides a comprehensive description, interpretation, and analysis of his personas, his lyrical content, and the cultural and economic impact of

Eminem's work through media. It also contains the first in-depth content analysis of 200 of the rapper's most popular songs from 1990 through 2012. The book is organized into three sections, each focusing on one of the artist's public personas (Slim Shady, Marshall Mathers, Eminem), with each section further divided into chapters that explore various aspects of Eminem's cultural, spiritual, and economic significance. Besides being a book that every fan of Eminem and pop music will want to read, the work will be valuable to researchers in the areas of race and ethnicity, communication, cultural and musical studies, and hip hop studies.

Experiencing Music Video Carol Vernallis, 2004-06-16 Music videos have ranged from simple tableaux of a band playing its instruments to multimillion dollar, high-concept extravaganzas. Born of a sudden expansion in new broadcast channels, music videos continue to exert an enormous influence on popular music. They help to create an artist's identity, to affect a song's mood, to determine chart success: the music video has changed our idea of the popular song. Here at last is a study that treats music video as a distinct multimedia artistic genre, different from film, television, and indeed from the songs they illuminate—and sell. Carol Vernallis describes how verbal, musical, and visual codes combine in music video to create defining representations of race, class, gender, sexuality, and performance. The book explores the complex interactions of narrative, settings, props, costumes, lyrics, and much more. Three chapters contain close analyses of important videos: Madonna's Cherish, Prince's Gett Off, and Peter Gabriel's Mercy St.

A Criminology of Popular Music Eleanor Peters, 2025-09-11 Music explores the deepest experiences of the human condition – love, violence, religion, hedonism, protest and politics. This book takes common themes in popular music and analyses them through a harms-based critical criminology of music, while staying focused on its aesthetic and sensory elements. It analyses the sexism, homophobia and heteronormative bias of the music industry, considering its harms and dangers to the people working within it. It also examines the influences of drugs and alcohol – on both musicians and fans. Taking in music from across the globe, the book considers its role in bringing hope, whether on a personal or political level worldwide.

Create Your Own Music Matthew Annis, 2016-08 Want to make and play your own music? Think you could be the next Ed Sheeran? This book is packed with practical tips on how to write and perform your own music, from planning and making music to recording it, performing it live, or sharing it online. It also explains clearly the software and equipment you need to go about making your music. Success stories of how famous musicians and pop stars made their mark on the industry and

sure to motivate you. Go on, be a media genius!

Fic Anne Jamison,2013-11-26 What is fanfiction, and what is it not? Why does fanfiction matter? And what makes it so important to the future of literature? Fic is a groundbreaking exploration of the history and culture of fan writing and what it means for the way we think about reading, writing, and authorship. It's a story about literature, community, and technology—about what stories are being told, who's telling them, how, and why. With provocative discussions from both professional and fan writers, on subjects from Star Trek to The X-Files and Buffy the Vampire Slayer to Harry Potter, Twilight, and beyond, Fic sheds light on the widely misunderstood world(s) of fanfiction—not only how fanfiction is transforming the literary landscape, but how it already has. Fic features a foreword by Lev Grossman (author of The Magicians) and interviews with Jonathan Lethem, Doug Wright, Eurydice (Vivean Dean), and Katie Forsythe/wordstrings. Cyndy Aleo (algonquint; d0tpark3r) V. Arrow (aimmyarrowshigh) Tish Beaty (his_tweet) Brad Bell Amber Benson Peter Berg (Homfrog) Kristina Busse Rachel Caine Francesca Coppa Randi Flanagan (BellaFlan) Jolie Fontenot Wendy C. Fries (Atlin Merrick) Ron Hogan Bethan Jones Christina Lauren (Christina Hobbs/tby789 and Lauren Billings/LolaShoes) Jacqueline Lichtenberg Rukmini Pande and Samira Nadkarni Chris Rankin Tiffany Reisz Andrew Shaffer Andy Sawyer Heidi Tandy (Heidi8) Darren Wershler Jules Wilkinson (missyjack) Jen Zern (NautiBitz)

With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as both a place and an idea.

Advances in Information Retrieval Allan Hanbury,Gabriella Kazai,Andreas Rauber,Norbert Fuhr,2015-03-16 This book constitutes the proceedings of the 37th European Conference on IR Research, ECIR 2015, held in Vienna, Austria, in March/April 2015. The 44 full papers, 41 poster papers and 7 demonstrations presented together with 3 keynotes in this volume were carefully reviewed and selected from 305 submissions. The focus of the papers were on following topics: aggregated search and diversity, classification, cross-lingual and discourse, efficiency, evaluation, event mining and

summarisation, information extraction, recommender systems, semantic and graph-based models, sentiment and opinion, social media, specific search tasks, temporal models and features, topic and document models, user behavior and reproducible IR.
