I Am Accountable Sam Silverstein, 2019-11-19 What if you could transform your relationship with yourself, your family and friends, your colleagues and clients, and your larger community through the power of commitment? What if ten simple choices enabled you to enhance your leadership skills, improve your organizational culture, and make a local, national, or even global impact? In *I Am Accountable*, renowned speaker and consultant Sam Silverstein explains how accountability is the secret to filling your life with more meaning, more success, and more joy—and it all starts with your mindset. In order to create a truly meaningful life, we must first accept that the problem is never other people. “The real problem,” Sam Silverstein maintains, “is what we believe about other people.” Silverstein’s new book shows why everything we have been taught about accountability is wrong. Contrary to popular belief, accountability is not a way of doing. Accountability is a way of thinking. It is how we think about ourselves and others. And it is the highest form of leadership. The secret to creating accountable relationships, and elevating the personal benchmark that Silverstein calls The Accountability Index™, lies in making ten critical choices that support an accountable mindset. *I Am Accountable* offers a comprehensive plan to help you establish and leverage that mindset, deepen commitments, create lasting meaning in your life and relationships, transform the culture within your organization, and foster lasting positive change in the world.

VeriSMTM - A service management approach for the digital age International Foundation of Digital Competences, 2017-12-19 VeriSM is a framework that describes a service management approach from the organizational level, looking at the end to end view rather than focusing on a single department. Based around the VeriSM model, it shows organizations how they can adopt a range of management practices in a flexible way to deliver the right product or service at the right time to their consumers. VeriSM allows for a tailored approach depending upon the type of business you are in, the size of your organization, your business priorities, your organizational culture – and even the nature of the individual project or service you are working on. Rather than focusing on one prescriptive way of working, VeriSM helps organizations to respond to their consumers and deliver value with integrated service management practices. Service management plays a leading role in digital transformation. Digital transformation looks outward; with a hyper-focus on the consumer experience. Service management can help shift the mindset from 'inside-out' to 'outside-in' by developing effective, transparent principles that help deliver services that are valuable to the customer. All organizational capabilities must understand: - How does the organization enable and deliver value? - What are the supply chains within an organization that support value delivery? - How do the individual capabilities contribute to or support these supply chains to deliver value?

El Camino Real Doug Kent, 2024-04-04 For over 300 years the conquistadors used El Camino Real, (The Royal Road). Bringing their plundered Inca gold across the Isthmus of Panama, from the Pacific to the Caribbean. October 1641, seven hundred kilograms of gold vanished from the trail without trace. In a captivating blend of history and suspense, a widower's discovery sparks a modern-day treasure hunt. The lure of stolen Inca gold, and the challenge to find it, soon became so much more than they had bargained for. After almost 400 years, former history professor Alex Poynter stumbles across a small clue, soon he is joined by four other unlikely treasure hunters. Little do the adventurers know they are being stalked by a very evil man from Alex's past.

The Right It Alberto Savoia, 2019-02-26 In this accessible, prescriptive, and widely applicable manual, Google's first engineering director and current Innovation Agitator Emeritus provides critical advice for rethinking how we launch a new idea, product, or business, insights to help successfully beat the law of market failure: that most new products will fail, even

if competently executed. Millions of people around the world are working to introduce new ideas. Some will turn out to be stunning successes and have a major impact on our world and our culture: The next Google, the next Polio vaccine, the next Harry Potter, the next Red Cross, the next Ford Mustang. Others successes will be smaller and more personal, but no less meaningful: A restaurant that becomes a neighborhood favorite, a biography that tells an important story, a local nonprofit that cares for abandoned pets. Simultaneously, other groups are working equally hard to develop new ideas that, when launched, will fail. Some will fail spectacularly and publicly: New Coke, the movie John Carter, the Ford Edsel. Others failures will be smaller and more private, but no less failure: A home-based business that never takes off, a children's book that neither publishers nor children have any interest in, a charity for a cause too few people care about. Most people believe that their venture will be successful. But the law of market failure tells us that up to 90 percent of most new products, services, businesses, and initiatives will fail soon after launch—regardless of how promising they sound, how much we commit to them, or how well we execute them. This is a hard fact to accept. Combining detailed case studies with personal insight drawn from his time at Google, his experience as an entrepreneur and consultant, and his lectures at Stanford University and Google, Alberto Savoia offers an unparalleled approach to beating the beast that is market failure: “Make sure you are building The Right It before you build It right,” he advises. In *The Right It*, he provides lessons on creating your own hard data, a strategy for market engagement, and an introduction to the concept of a pretotype (not a prototype). Groundbreaking, entertaining, and highly practical, this essential guide delivers a proven formula for ensuring ideas, products, services, and businesses succeed.
