Lyonel Gerdes

Where Did the Towers Go? Judy D. Wood, 2010 Summary: To determine what happened on 9/11, all available evidence must be considered. We cannot pick and choose which observable facts we may want to explain and then ignore the others. Any explanation must consider all the available evidence... None of the facts, events, anomalies, or phenomena that have been listed, discussed, and analyzed in this book can be explained by airliner crashes, jet fuel fires, or any scheme of controlled demolition. A comparison of the 911 evidence collected with the evidence of results produced by the well-established Hutchison Effect shows that a similar technology was employed in the destruction of the towers....--P. 483-484.

9/11-Enemies Foreign and Domestic Edward Hendrie, 2011 Hendrie proves beyond a reasonable doubt that the U.S. government's conspiracy theory of the attacks on September 11, 2001, is a preposterous cover story. The evidence proves that powerful Zionists ordered the 9/11 attacks, which were perpetrated by Israel's Mossad, aided and abetted by treacherous high officials in the U.S. government.

Unfinished John W. Galler, 2024-01-29 What if the majority of society simultaneously withdrew their cash and investments globally, and stopped working to collapse imperialist insanity? This would actually force the much needed attention and urgency to decide what we could become next. At some point, we have to evolve as a species. Should we still insist on the current chaos that we can't seem to escape, we could all return to as it was. Financial imperialism and religion can't be the best that self-aware humans can possibly filter. He asks: why be so blatantly mediocre? Instead of letting our current limitations go, author John W. Galler has decided to delve into them with unapologetic force. To help us understand what could be beyond, he expands to an exploration of our values, and the correlation between quantum physics and meditation. Nothing but our immediate actions can truly initiate personal and global change. So Unfinished is for anyone who knows that their internal world and the world at large needs a hard reset.

Framing 9/11, 3rd Edition Anab Whitehouse, 2018-11-06 One of the readers of the first edition of this book considered it to be the best work that has been written on the subject of 9/11. The 3rd edition seeks to make a very good book even better. Framing 9/11, 3rd Edition contains all of the material that was present in the first two editions. This includes critical discussions on: The collapse of Building 7; the no-planes issue; controlled demolition; the work of Dr. Judy Wood; commentary on the views of Bill Maher and Matt Taibí concerning 9/11; Conspiracy and other 'C' words, as well as a series of

'Did You Know?' features. The current, updated edition of Framing 9/11 involves more than 150 pages of new material, and much of this is contained in chapter of this book entitled: 'Unscientific America: 9/11, Sam Harris, and Noam Chomsky'. The penultimate chapter of this book also contains new material. It consists of an overview of, and introduction to, the work of Rebekah Roth which is given expression in her Methodical trilogy as well as through a variety of interviews. The final chapter of the 3rd Edition gives expression to an exploration of "The 9/11 Delusion and Its Consequences." This discussion will critically examine the etiology of our current dilemma and provide an outline concerning how the very first step taken toward the pathology in which we are mired today began when Americans (both leaders and ordinary citizens) ceded their moral and intellectual agency to something other than the truth and, in the process became vulnerable to the 9/11 delusion. By becoming entangled in that delusion, all too many people were prepared to commit crimes against peace (i.e., unprovoked aggression against other people and nations) which, in turn, led to war crimes and crimes against humanity. However, our nightmare began when people (both leaders and ordinary citizens) denied themselves and others the opportunity (a) to establish the truth about, among other things, 9/11 and (b) to use that truth to work to create conditions that are conducive to the realization of "inalienable sovereignty" for everyone.

Conspiracies of Conspiracies Thomas Milan Konda, 2019-03-15 "The most comprehensive intellectual history of American conspiracy theories yet produced." —The American Historical Review It's tempting to think we live in an unprecedentedly fertile age for conspiracy theories, with seemingly each churn of the news cycle bringing fresh manifestations of large-scale paranoia. But the sad fact is that these narratives of suspicion—and the delusional psychologies that fuel them—have been a constant presence in American life for nearly as long as there's been an America. In this sweeping book, Thomas Milan Konda traces the country's obsession with conspiratorial thought from the early days of the republic to our own anxious moment. *Conspiracies of Conspiracies* details centuries of sinister speculations—from antisemitism and anti-Catholicism to UFOs and reptilian humanoids—and their often-incendiary outcomes. Rather than simply rehashing the surface eccentricities of such theories, Konda draws from his extraordinary assemblage of conspiratorial writing to crack open the mindsets that lead people toward these self-sealing worlds of denial. What is distinctively American about these theories, he argues, is not simply our country's homegrown obsession with them but their ongoing prevalence and virulence. Konda proves that conspiracy theories are no harmless sideshow. They are instead the dark and secret heart of American political history—one that is poisoning the bloodstream of an increasingly sick body politic. "Meticulous scholarship . . . essential context for understanding our present mess." —Survival: Global Politics and Strategy "Incisive and engaging . . . Konda's assessment of the 'new dynamics' of conspiracy theories in contemporary US politics is a significant contribution. Written with a clarity of expression rare in academic writing, the book is accessible to a wide readership." —Choice

The Money Mafia Paul T. Hellyer, 2014-10-01 Exposing perceived fault lines in our banking and financial systems and explaining how unemployment could be cut in half in two years and worldwide prosperity restored, this book argues the existence of exotic energy sources to replace fossil fuels and consequently recommends an immediate end to fracking and offshore drilling for oil. It further urges an immediate worldwide mobilization to replace the energy source in every car, truck, tractor, ship, airplane, and house on Earth in seven years in a desperate effort to save the planet from further overheating. The book blasts government secrecy, and more than 65 years of supposed lies and disinformation, and demands full disclosure of what they know about visitors from other realms and their technology and the extent of their collaboration, including any treaties that may have been signed by them. With more than 65 years of participation in and observation of political and economic systems—beginning with the Great Depression, extending through World War II, the postwar era of hope for a better life, the Cold War, the subjugation of democracy by oligarchy, and the subtle but continuous militarization of America—Paul T. Hellyer analyzes what he believes has gone wrong with the world and its economy and suggests radical measures to introduce a universal culture of peace and cooperation.

Gestrandete Engel Ruth Huber, 2014 Heruntergestiegene Engel sind wir alle Doch wer aus spirituellem Blickwinkel zur Erde schaut, sieht zahllose Wesen, die sich weit von ihrem Potenzial entfernt haben, also gestrandet sind.

Hope Restored: An Autobiography by Paul Hellyer Paul Hellyer, 2018-09-07 This powerful book argues that the human species is at a tipping point when it is forced to choose between a New World Order fascist government committed to rapid depopulation or a world of peace and justice. Hellyer demonstrates that God is alive, well and everywhere, and that humanity's choice is between the Dark and the Light. To follow the Light means giving up atomic weapons, replacing the oil economy with clean zero-point energy developed by Americans in the 1960s, having governments create 34 percent of all new money for public purposes rather than borrowing it from the 62 elite banking families, a reconciliation of the two main branches of Islam, and a just settlement of the Israeli-Palestinian dispute to bring peace to the Middle East. Finally it will be necessary for all countries, races, and faiths, especially young people, to forgive past atrocities and work together in common purpose to save the heritage they have in common.

Apocalypse in American Literature and Culture John Hay, 2020-12-17 The idea of America has always encouraged apocalyptic visions. The 'American Dream' has not only imagined the prospect of material prosperity; it has also imagined the end of the world. 'Final forecasts' constitute one of America's oldest literary genres, extending from the eschatological theology of the New England Puritans to the revolutionary discourse of the early republic, the emancipatory rhetoric of the Civil War, the anxious fantasies of the atomic age, and the doomsday digital media of today. For those studying the history of America, renditions of the apocalypse are simply unavoidable. This book brings together two dozen essays by prominent scholars that explore the meanings of apocalypse across different periods, regions, genres, registers, modes, and traditions of

American literature and culture. It locates the logic and rhetoric of apocalypse at the very core of American literary history.

Savage Kings Rev'd Dr Graham J Whelan OAM, 2022-01-10 I heard a comment on and about the words 'conspiracy theory'. The word 'conspiracy' means to plot for an evil purpose or evil-doing. If I am accused of 'conspiracy' by revealing evil plans or evil men - is this wrong? And if the 'theory' is proven to be fact, then all needs to be revealed. I remember from teleological ethical theory that what is 'good' to a good or righteous person is usually 'good' - but what is 'good' to an evil person is usually 'evil'. Remember Hitler thought it was 'good' to exterminate the Jews - but it was 'total evil'! What is 'good' to an evil man or even men is 'total evil'. To truly understand good and evil there is the urgent need to understand the Truth of the Bible where the only True God reveals Himself. (Isaiah 45:5,6). Apart from understanding our lives in relation to the Bible, a prime reason for this Book comes from the wonderful revelations of Dr Judy Wood and her book "Where did the Towers go?".

Miami Florida : A Sunshine State's Unauthorized and Unredacted Journey Lyonel Gerdes, 2025-02-07 "Miami, Florida: A Sunshine State's Unauthorized and Unredacted Journey... Tome I" is a breathtakingly written memoir with an impressive tale of resiliency, redemption and self-searching identity. Those readers who had been following Gerdes' trilogy memoir about his life journey going back to Les Cayes and Port-au-Prince, will undoubtedly be served once more by another no less fascinating and unpredictable tale of a journey!

9/11 Decoded Jim Garrity, 2015-10-14 There are more things under heaven than can be explained What caused 911? Was it terrorism or design? Who are the neoconservatives? What really happened to bin Laden? Who makes military grade weaponised anthrax? The twin towers were asbestos ridden white elephants that needed to be demolished. This is a story told by the narrator, an ex-political activist, who travelled to the Polynesian Islands after failing to support his party in an event that would change the world and begin the Project for the New American Century. In the event two high-rise towers plus the 47 storey WTC 7 Salomon Trade building were demolished. These, including the WTC 3 Marriott Hotel, WTC 4, WTC 5, WTC 6 U.S. Custom House building and St. Nicholas Greek Church were all totally destroyed. Also heavily damaged was Fiterman Hall that was rebuilt in 2012 for \$325 million. Also the Winter Garden cost \$50 million to repair; and the Deutsche Bank was heavily damaged. The Verizon Building (1926) was restored for \$1.4 billion that you probably didnt hear about, unless youre from New York. In total 56 buildings were damaged including 19 buildings with major damage or collapse, according to FEMA. The insurance companies, after fighting in the courts contributed to paying out \$4.57 billion on all the claims for these buildings. Whether a Boeing 767 aircraft travelling at 450 mph (220 yds/sec) could be programmed or directed in seconds to hit a tower is disputed. A 767 cannot move at this speed at sea level due to multiple vector forces causing aerodynamic instability. Also the effects of parasitic drag, on the turbine fans, that limit the power of its engines to generate optimum thrust. This is due to the viscous effects of high ambient air pressure that exceed the working load of 757 or 767 engines.

The Geoengineered Transhuman Elana Freeland, 2025-02-25 • Explores how chemicals and nanotechnology are being continuously delivered via chemtrail aerosols by jets, drones, and rockets in the guise of “climate change” • Examines the public-private partnerships behind transhumanism, including Big Pharma, GMO agribusiness, DARPA/IARPA, corporations, and foundations • Reveals the reality of the secret space program (SSP) and the planetary “smart grid” of 5G/6G, the Internet of Things (IoT), and artificial intelligence (AI) What if the degradation of the planet is not just a byproduct of human greed but the explicit intention of government agencies bought off by corporations? What if their intent is to create a post-human global government run by AI, populated by a genetically and electromagnetically altered Homo sapiens loaded with nanotechnology and run by 5G/6G/7G transceivers from space? Building on decades of research, Elana Freeland offers a comprehensive exposé of the transhumanist agenda—the transformation of humanity into a slave class by means of biotechnology, genetic engineering, molecular nanotechnology, and artificial intelligence. She reveals that weather control is already a global reality thanks to the aerosol chemtrails that maintain the ionized atmosphere needed for a myriad of military and civilian wireless operations. The air we breathe, the soil we grow our food in, and the water we drink have all been altered away from Nature and toward a synthetic metaverse. Meanwhile, Big Pharma injects nano-sized hardware and software in vivo that activate a transhumanist brain-computer interface with AI. The author also examines the public-private

partnerships behind transhumanism and reveals the reality of the secret space program and the planetary smart grid of 5G/6G. The eons-old dream of global power seems to be coming of age in this overwhelmingly technological era of domination by the wealthy. And yet by exposing the transhumanist agenda and studying the technology being employed to subjugate the human race, we have the opportunity to find ways not just to resist becoming machines ourselves but to utilize our technologies for restoring a high civilization in service to the Good, the Beautiful, and the True.

The Kings of the Earth and the High Ones on High Allan Cornford, 2018-12-30 There is a war taking place for the souls of mankind which the majority fail to see; having been blinkered by a fantasy world of falsehood, materialism and toxic manufactured realities. With this book, I pass judgement on no man. Nor do I attempt to determine the thoughts and sincerity of men, both past and present, whose actions and achievements have impacted world history. I'm just piecing together man's satanic agenda to generate a return to the 'Golden Age.' The New World Order, which will rise like a Phoenix from the ashes of World War III. This includes a re-look at the Genesis creation account, the true design of the Earth, the growth of false religion, the Synagogue of Satan, the coming delusion and certain end-time prophecy.

Under an Ionized Sky Elana Freeland, 2018-02-13 It is difficult to believe that our planet has been weaponized before our very eyes, but that is exactly what has happened. First, we were seduced by the convenience of a wireless world; then, atmospheric weather experimentation in the guise of carbons "climate change" converted the air we breathe into an antenna. Now, the geo-engineering we've been subjected to for two decades is being normalized as the "Star Wars" Space Fence rises around and within us. Is this the Space Age we were promised?

Hidden Finance, Rogue Networks, and Secret Sorcery Joseph P. Farrell, 2020-04-19 Pursuing his investigations of high financial fraud, international banking, hidden systems of finance, black budgets and breakaway civilizations, author and researcher Joseph P. Farrell investigates the theory that there were not two levels to the 9/11 event, but three. He says that the twin towers were downed by the force of an exotic energy weapon, one similar to the Tesla energy weapon suggested by Dr. Judy Wood, and ties together the tangled web of missing money, secret technology and involvement of portions of the Saudi royal family. Farrell unravels the many layers behind the 9-11 attack, layers that include the Deutschebank, the Bush family, the German industrialist Carl Duisberg, Saudi Arabian princes and the energy weapons developed by Nikola Tesla before WWII. It is Farrell at his best—uncovering the massive financial fraud, special operations and hidden technology of the breakaway civilization.

Swords, Plowshares, and the Great Deception Thomas James Klancee, 2018-10-19 From JFK to 9/11 to our daily ration of fake news, we are bombarded with untruths on a constant basis. No other event rivals 9/11 in its complexity, depth, and breadth in such regard. An understanding thereof defines the perpetrators of the great deception and the extent to which they will go to achieve their aims. An understanding of 9/11 is a huge step toward reaching a point where the truth

becomes intuitively obvious despite inundation with false narratives. We seek truth as instructed. Ye shall know the truth and the truth shall make you free (John 8:32). This book is a step in that direction.

Manufacturing Terrorism T. J. Coles, 2018-12-07 What if your own government deliberately creates terrorists? What if their short-term aims – deposing regimes that no longer serve Western interests, justifying invasions of sovereign nations, and expanding the security state at home – have long-term consequences for us all? What if most of the horrific bombings, stabbings and vehicle attacks of recent years are connected – indirectly and sometimes directly – to British, French and American intelligence? These and other hard-hitting questions are posed by T. J. Coles in this disturbing survey of secret political manoeuvrings and covert manipulation. Welcome to the world of manufactured terrorism... Backed by a wealth of documentation, including court records, parliamentary inquiries and little-known but official publications, the author exposes the role of the deep state in brutal acts of terror. Exploring Operation Gladio, Northern Irish terror and, predominantly, Islamic jihad, he argues that intelligence agencies, the military and governments employ six key methods to manufacture terrorism: 1/ Blowback: attacking other countries and provoking violent responses. 2/ Proxies: creating terrorists (including al-Qaeda) and using them against enemies. 3/ Provocateurs: provoking individuals from minorities into committing terrorist acts. 4/ Green-lighting: allowing terrorists to commit attacks in order to justify specific policies. 5/ False-flags: committing terrorism and blaming it on designated enemies. 6/ Simulations: holding drills and exercises as covers for apparent terrorist acts. Contrary to claims that terrorism is caused by people who simply ‘hate our way of life’ – and in contrast to the simplistic narrative of conspiracy websites and talk-shows – Coles argues that each case of terrorism needs to be evaluated separately. **Manufacturing Terrorism** presents a complex picture that distinguishes between cases of blowback, proxies, false-flags, simulations, etc. It offers an indispensable briefing to help readers make sense of our chaotic and dangerous world.
