Our Changing Journey to the End Christina Staudt,J. Harold Ellens,2013-11-12 This novel, cross-disciplinary collection explains how dying, death, and grieving have changed in America, for better or worse, since the turn of the millennium. What does dying with dignity mean in a diverse society with rapidly advancing technology, an aging population, and finite resources? In this fascinating collection, scholars from across the nation illuminate the remarkable changes that have taken place in recent years, are now underway, and loom on the horizon as they lead readers on an exploration of the ways Americans think about and handle dying and death. Volume 1, New Paths of Engagement, addresses changes in the circumstances and expressions of death, dying, and grief in 21st-century America. Volume 2, New Venues in the Search for Dignity and Grace, delves into the challenges inherent in creating a medical and social system that allows for an optimal end-of-life experience for all and proposes ways in which society can be reshaped to move toward that ideal.

Wolf,2013-04-26 This major new work updates and significantly expands The Hastings Center's 1987 Guidelines on the Termination of Life-Sustaining Treatment and Care of the Dying. Like its predecessor, this second edition will shape the ethical and legal framework for decision-making on treatment and end-of-life care in the United States. This groundbreaking work incorporates 25 years of research and innovation in clinical care, law, and policy. It is written for physicians, nurses, and other health care professionals and is structured for easy reference in difficult clinical situations. It supports the work of clinical ethicists, ethics committee members, health lawyers, clinical educators, scholars, and policymakers. It includes extensive practical recommendations. Health care reform places a new set of challenges on decision-making and care near the end of life. The Hastings Center Guidelines are an essential resource.
