Whitewashing America Bridget T. Heneghan, 2003 Literary criticism -- American history Even before mass marketing, American consumers bought products that gentrified their households and broadcast their sense of the good things in life. Bridging literary scholarship, archaeology, history, and art history, *Whitewashing America: Material Culture and Race in the Antebellum Imagination* explores how material goods shaped antebellum notions of race, class, gender, and purity. From the Revolutionary War until the Civil War, American consumers increasingly sought white-colored goods. Whites preferred mass-produced and specialized products, avoiding the former dark, coarse, low-quality products issued to slaves. White consumers knit around themselves refined domestic items, visual reminders of who they were, equating wealth, discipline, and purity with the racially white. Clothing, paint, dinnerware, gravestones, and buildings staked a visual contrast, a portable, visible title and deed segregating upper-class whites from their lower-class neighbors and household servants. This book explores what it meant to be white by delving into the whiteness of dishes, gravestone art, and architecture, as well as women's clothing and corsets, cleanliness and dental care, and complexion. Early nineteenth-century authors participated in this material economy as well, building their literary landscapes in the same way their readers furnished their households and manipulating the understood meanings of things into political statements. Such writers as James Fenimore Cooper and John Pendleton Kennedy use setting descriptions to insist on segregation and hierarchy. Such authors as Harriet Beecher Stowe, Nathaniel Hawthorne, Edgar Allan Poe, and Herman Melville, struggled to negotiate messages of domesticity, body politics, and privilege according to complex agendas of their own. Challenging the popular notions, slave narrators such as Frederick Douglass and Harriet Jacobs wielded white objects to reverse the perspective of their white readers and, at times, to mock their white middle-class pretensions. Bridget T. Heneghan, a lecturer in English at Vanderbilt University, has been published in *Nineteenth-Century Studies*.

Tattoo Monologues Donna L. Torrissi, John Giugliano, 2025-07-30 Body art can tell personal stories. When linked to a difficult or traumatic life, it can even restore one's sense of well-being. As director of a community health center for twenty-seven years and as a nurse practitioner for over forty years, Donna Torrissi became fascinated with the stories behind her patients' tattoos. When she began to ask her female patients about their markings, themes of trauma, pain, and loss emerged, and it became clear that the art indelibly marked on their bodies had played a part in their healing and redemption. The

women featured in Tattoo Monologues demonstrate vulnerability and courage as they share both their personal tattoo narratives and photos of the images on their bodies. These women represent diverse cultures, ethnicities, and professional contexts, but they are united by their use of tattoos as a tool for processing traumatic life experiences. The images, stories, emotions, and journeys in this book collectively tell a compelling story. A story of skin and ink. A story of trauma and adversity. A story of courage and resilience.

Covered in Ink Beverly Yuen Thompson, 2015 A small dolphin on the ankle, a black line on the lower back, a flower on the hip, or a child's name on the shoulder blade; among the women who make up the twenty percent of all adults in the USA who have tattoos, these are by far the most popular choices. Tattoos like these are cute, small, and can be easily hidden, and they fit right in with society's preconceived notions about what is 'gender appropriate' for women. But what about women who are heavily tattooed? Or women who visibly wear imagery, like skulls, that can be perceived as masculine or ugly when inked on their skin? Drawing on autoethnography, and extensive interviews with heavily tattooed women, 'Covered in Ink' provides insight into the increasingly visible subculture of women with tattoos.

Customizing the Body Clinton Sanders, D Angus Vail, 2008 Originally published in 1989, this ground-breaking ethnographic exploration of tattooing—and the art world surrounding it—covers the history, anthropology and sociology of body modification practices; the occupational experience of the tattooist; the process and social consequences of becoming a tattooed person; and the prospects of serious tattooing becoming an accepted art form. Curiously, despite the greater prevalence of tattoos and body modification in today's society, there is still a stigma of deviance associated with people who get or ink tattoos. Retaining the core of the original book, this revised and expanded edition offers a new preface by the author and a new chapter focusing on the changes that have occurred in the tattoo world. A section on the new scholarly literature that has emerged, as well as the new modes of body modification that have come into vogue are included along with a new gallery of photographs that shows some splendid examples of contemporary tattoo art. A directory of artists' websites invites readers to discover the range of work being done around the world—from “suits” (full body tattoos) to skulls.
