Decolonizing Interreligious Education Shannon Frediani, 2022-10-28 *Decolonizing Interreligious Education* explores multiple injustices, focusing on the lived experience, unaddressed grief, and acts of resistance and resilience of populations most impacted by coloniality and white supremacy. It lifts up the voices of those speaking from embodied experience of suffering multiple oppressions based on negative constructs of race, religion, skin color, nationality, etc. Engaging ideological critique, construction of knowledge beyond dominant lenses, and acts of resistance are presented from the perspective of those most impacted by systemic injustice. It challenges interreligious education to frame encounters where the impact of intergeneration trauma and the realities of power differentials are recognized and the contributions of all voices are truly integrated. It challenges the fields of religious and interreligious education to imagine a broadened view that includes recognition of the role played by religion in harm done and to take a leadership role in engaging processes of accountability and redress.

For the Many Dorothy Sue Cobble, 2024-12-10 A history of the twentieth-century feminists who fought for the rights of women, workers, and the poor, both in the United States and abroad For the Many presents an inspiring look at how US women and their global allies pushed the nation and the world toward justice and greater equality for all. Reclaiming social democracy as one of the central threads of American feminism, Dorothy Sue Cobble offers a bold rewriting of twentieth-century feminist history and documents how forces, peoples, and ideas worldwide shaped American politics. Cobble follows egalitarian women's activism from the explosion of democracy movements before World War I to the establishment of the New Deal, through the upheavals in rights and social citizenship at midcentury, to the reassertion of conservatism and the revival of female-led movements today. Cobble brings to life the women who crossed borders of class, race, and nation to build grassroots campaigns, found international institutions, and enact policies dedicated to raising standards of life for everyone. Readers encounter famous figures, including Eleanor Roosevelt, Frances Perkins, and Mary McLeod Bethune, together with less well-known leaders, such as Rose Schneiderman, Maida Springer Kemp, and Esther Peterson. Multiple generations partnered to expand social and economic rights, and despite setbacks, the fight for the many persists, as twenty-first-century activists urgently demand a more caring, inclusive world. Putting women at the center of US political history, For the Many reveals the powerful currents of democratic equality that spurred American feminists to seek a better life for all.

No Ways Tired: The Journey for Professionals of Color in Student Affairs Monica Galloway Burke, U. Monique Robinson, 2019-08-01 Even though diversity is currently conveyed as a ubiquitous principle within institutions of higher education, professionals of color still face issues such as discrimination, the glass ceiling, lack of mentoring, and limited access to career networks. Unfortunately, an open channel does not exist for professionals of color to express their frustrations and genuine concerns. The narratives in No Ways Tired present a powerful voice about the experiences of student affairs professionals of color in higher education, including intersecting identities such as race, class, and gender. Furthermore, the narratives are nuggets of personal truth that can serve as a lens for professionals of color who wish to develop strategies to succeed as they traverse their careers in higher education. Through the sharing of their visions of success, lessons learned, and cautionary tales, the authors openly offer insights about how they have created a way to survive and thrive within higher education in spite of challenges and distractions. They also articulate a vision where student affairs professionals of color can develop fully, be authentic, use their agency, and effectively contribute. This book includes recommendations for professionals of color at all levels within higher education and ways to construct opportunities to flourish. The ultimate goal for this book is to promote discussions regarding how professionals of color can be more proactive

in developing strategies that are conducive to their professional and personal success as they navigate their higher education careers.

#BlackEducatorsMatter Darrius A. Stanley, 2024-01-30 A stirring testament to the realities of Black teaching and learning in the United States and to Black educators' visions for the future

Fight Like a Girl Laura Barcella, 2019-08-01 Nearly every day there's another news story or pop cultural anecdote related to feminism and women's rights. #YesAllWomen, conversations around consent, equal pay, access to contraception, and a host of other issues are foremost topics of conversation in American (and worldwide) media right now. Today's teens are encountering these issues from a different perspective than any generation has had before, but what's often missing from the current discussion is an understanding of how we've gotten to this place. *Fight Like a Girl* will familiarize readers with the history of feminist activism, in an effort to celebrate those who paved the way and draw attention to those who are working hard to further the cause of women's rights. Profiles of both famous and lesser-known feminists will be featured alongside descriptions of how their actions affected the overall feminist cause, and unique portraits (artist's renderings) of the feminists themselves. This artistic addition will take the book beyond simply an informational text, and make it a treasure of a book.

After Plato John Duffy, Lois Agnew, 2020-07-01 *After Plato* redefines the relationships of rhetoric for scholars, teachers, and students of rhetoric and writing in the twenty-first century. Featuring essays by some of the most accomplished scholars

in the field, the book explores the diversity of ethical perspectives animating contemporary writing studies—including feminist, postmodern, transnational, non-Western, and virtue ethics—and examines the place of ethics in writing classrooms, writing centers, writing across the curriculum programs, prison education classes, and other settings. When truth is subverted, reason is mocked, racism is promoted, and nationalism takes center stage, teachers and scholars of writing are challenged to articulate the place of rhetorical ethics in the writing classroom and throughout the field more broadly. After Plato demonstrates the integral place of ethics in writing studies and provides a roadmap for future conversations about ethical rhetoric that will play an essential role in the vitality of the field. Contributors: Fred Antczak, Patrick W. Berry, Vicki Tolar Burton, Rasha Diab, William Duffy, Norbert Elliot, Gesa E. Kirsch, Don J. Kraemer, Paula Mathieu, Robert J. Mislevy, Michael A. Holler If You Hear Me Michael Eric Dyson, 2006-09-05 Acclaimed for his writings on Malcolm X and Martin Luther King, Jr., as well as his passionate defense of black youth culture, Michael Eric Dyson has emerged as the leading African American intellectual of his generation. Now Dyson turns his attention to one of the most enigmatic figures of the past decade: the slain hip-hop artist Tupac Shakur. Five years after his murder, Tupac remains a widely celebrated, deeply loved, and profoundly controversial icon among black youth. Viewed by many as a black James Dean, he has attained cult status partly due to the posthumous release of several albums, three movies, and a collection of poetry. But Tupac endures primarily because of the devotion of his loyal followers, who have immortalized him through tributes, letters, songs, and celebrations, many in cyberspace. Dyson helps us to understand why a twenty-five-year-old rapper, activist, poet, actor, and alleged sex offender looms even larger in death than he did in life. With his trademark skills of critical thinking and storytelling, Dyson examines Tupac's hold on black youth, assessing the ways in which different elements of his persona—thug, confused prophet, fatherless child—are both vital and destructive. At once deeply personal and sharply analytical, Dyson's book offers a wholly original way of looking at Tupac Shakur that will thrill those who already love the artist and enlighten those who want to understand him. In the tradition of jazz saxophonists John Coltrane and Charlie Parker, Dyson riffs with speed, eloquence, bawdy humor, and startling truths that have the effect of hitting you like a Mack truck. —San Francisco Examiner Such is the genius of Dyson. He flows freely from the profound to the profane, from popular culture to classical literature. -- Washington Post
Philadelphia Inquirer Among the young black intellectuals to emerge since the demise of the civil rights movement -- undoubtedly the most insightful and thought-provoking is Michael Eric Dyson. -- Manning Marable, Director of African American Studies, Columbia University

Welcome to the Revolution Charles Derber, 2017-06-14 When the Women's March gathered millions just one day after Trump's inauguration, a new era of progressive action was born. Organizing on the far Right led to Trump's election, bringing authoritarianism and the specter of neo-fascism, and intensifying corporate capitalism's growing crises of inequality

and injustices. Yet now we see a new universalizing resistance among progressive and left movements for truth, dignity, and a world based on democracy, equality, and sustainability. Derber offers the first comprehensive guide to this new era and an original vision and strategy for movement success. He convincingly shows how only a new universalizing wave, a progressive and revolutionary movement of movements, can counter the world-universalizing economic and cultural forces of intensifying corporate and far-right power. Derber explores the crises and eroding legitimacy of the globalized capitalist system and the right wing movements that helped create the Trump era. He shows how left universalizing movements can--and must--converge to propel a mass base that can prevent societal, economic, or ecological collapse, stop a resurgent Right, and build a democratic social alternative. He describes tactics and strategies for this new progressive movement. Brief guest interludes by Medea Benjamin, Noam Chomsky, Ralph Nader, Bill Fletcher, Juliet Schor, Gar Alperovitz, Chuck Collins, Matt Nelson, Janet Wallace, and other prominent figures tell how to coalesce and universalize activism into a more powerful movement wave—at local, community, national, and international levels. Vivid and highly accessible, this book is for activists, students, and all citizens concerned about the erosion of justice and democracy. It thoroughly illuminates the rationale, theory, practice, humanism, love, and joy of the social transformation that we urgently need.

Culturally Responsive Teaching Geneva Gay, 2018-02-23 Geneva Gay is renowned for her contributions to multicultural education, particularly as it relates to curriculum design, professional learning, and classroom instruction. Gay has made many important revisions to keep her foundational, award-winning text relevant for today's diverse student population, including: new research on culturally responsive teaching, a focus on a broader range of racial and ethnic groups, and consideration of additional issues related to early childhood education. Combining insights from multicultural education theory with real-life classroom stories, this book demonstrates that all students will perform better on multiple measures of achievement when teaching is filtered through students' own cultural experiences. This perennial bestseller continues to be the go-to resource for teacher professional learning and preservice courses. A Choice Magazine recommended title. "Inspiring! A book every teacher should read. As one of the founders of the field of multicultural education, Gay has updated her exceptional resource for teachers." —Valerie Ooka Pang, San Diego State University "Gay clearly explains how culturally responsive teaching can be used to dramatically influence the academic achievement of students of color and other marginalized students." —Carl A. Grant, University of Wisconsin at Madison (of previous edition) "A comprehensive account of the important role that culture plays in the teaching and learning process." —Urban Education (of previous edition)

Critical Consciousness in Dual Language Bilingual Education Lisa M. Dorner, Deborah Palmer, Claudia G. Cervantes-Soon, Dan Heiman, Emily R. Crawford, 2022-12-13 This book features case studies that address dual language bilingual

education (DLBE) programs, which offer content instruction in two languages to help youth develop fluent bilingualism/biliteracy, high academic achievement, and sociocultural competence. While increasingly popular, the DLBE model is a framework that comes with unique hurdles and challenges. Applying a pioneering critical consciousness approach, the volume provides readers with narratives, awareness, and tools to support culturally and linguistically diverse students and their families. Organized around four major areas—policy, leadership, family and community engagement, teaching and teacher learning—the volume’s case studies bring together stories from policymakers, educational leaders, family and community members, and teachers. The case studies spotlight examples in which power imbalances have been identified and shifted through critically conscious actions and offer insight into how to ensure all DLBE programs are nurturing, empowering, multilingual environments for all students, particularly racialized, immigrant, and transnational students. Accessible and varied, the case studies address important topics such as anti-Black racism, digital access, disability, school-district relations, working with undocumented families, and more. Each chapter includes a case narrative, teaching notes, discussion questions, and/or teaching activities to support stakeholders who wish to develop and enact equity in their DLBE policies, classrooms, and professional development. A key resource for supporting student needs and transformative inquiry in the classroom, this book is ideal for graduate students, professors, leaders, educators, and other stakeholders in bilingual education and language education.

Can Education Change Society? Michael W. Apple, 2012-11-12 Despite the vast differences between the Right and the Left over the role of education in the production of inequality one common element both sides share is a sense that education can and should do something about society, to either restore what is being lost or radically alter what is there now. The question was perhaps put most succinctly by the radical educator George Counts in 1932 when he asked *Dare the School Build a New Social Order?*, challenging entire generations of educators to participate in, actually to lead, the reconstruction of society. Over 70 years later, celebrated educator, author and activist Michael Apple revisits Counts’ now iconic works, compares them to the equally powerful voices of minoritized people, and again asks the seemingly simply question of whether education truly has the power to change society. In this groundbreaking work, Apple pushes educators toward a more substantial understanding of what schools do and what we can do to challenge the relations of dominance and subordination in the larger society. This touchstone volume is both provocative and honest about the ideological and economic conditions that groups in society are facing and is certain to become another classic in the canon of Apple’s work and the literature on education more generally.

Understanding Curriculum as Racial Text Louis A. Castenell Jr., William F. Pinar, 1993-09-14 This book examines issues of identity and difference, both theoretically and as represented in curriculum materials. Here debates over the cultural character of the curriculum are characterized as debates over the American national identity. The editors argue that

historically, cultural conservatives have failed to appreciate that the United States is, in a fundamental and central way, an African and African-American place. European Americans are, in a cultural sense, also black, and the failure to teach sequestered suburban (usually Caucasian) students about their (cultural) African and African-American heritage perpetuates their delusion regarding their deeper identities. A curriculum which reflects the non-synchronous identity of Americans is sketched in the last section. Such a curriculum involves not only the inclusion of African and African-American content, but interracial intellectual marriage as well. Contributors to this book include Peter Taubman, Susan Edgerton, Beverly Gordon, Alma Young, Wendy Luttrell, Cameron McCarthy, Patricia Collins, Roger Collins, Brenda Hatfield, Marianne H. Whatley, and Joe L. Kincheloe.

Women, Power and Resistance Tess Cosslett, Alison Easton, Penny Summerfield, 1996-10-16 Women, Power and Resistance is an accessible introductory book on Women's Studies. It is divided into interdisciplinary sections covering key aspects and major debates, centering on four main areas: The Social Organization of Gender Relations The Cultural Representation of Women Gender and Social Identity

Colloquy, 1971

A Hard Rain Frye Gaillard, 2018-07-01 Frye Gaillard has given us a deeply personal history, bringing his keen storyteller's eye to this pivotal time in American life. He explores the competing story arcs of tragedy and hope through the political and social movements of the times — civil rights, black power, women's liberation, the War in Vietnam, and the protests against it. But he also examines the cultural manifestations of change — music, literature, art, religion, and science — and so we meet not only the Brothers Kennedy, Martin Luther King Jr and Malcolm X, but also Gloria Steinem, Janis Joplin, Jimi Hendrix, Johnny Cash, Harper Lee, Mister Rogers, Rachel Carson, James Baldwin, Andy Warhol, Billy Graham, Thomas Merton, George Wallace, Richard Nixon, Angela Davis, Barry Goldwater, the Beatles, Bob Dylan, and the Berrigan Brothers. "There are many different ways to remember the sixties," Gaillard writes, "and this is mine. There was in these years the sense of a steady unfolding of time, as if history were on a forced march, and the changes spread to every corner of our lives. As future generations debate the meaning of the decade, I hope to offer a sense of how it felt to have lived it. A Hard Rain is one writer's reconstruction and remembrance of a transcendent era — one that, for better or worse, lives with us still."

Seeking the Beloved Community Joy James, 2013-05-09 Written over the course of twenty years, the essays brought together here highlight and analyze tensions confronted by writers, scholars, activists, politicians, and political prisoners fighting racism and sexism. Focusing on the experiences of black women calling attention to and resisting social injustice, the astonishing scale of mass and politically driven imprisonment in the United States, and issues relating to government and civic powers in American democracy, Joy James gives voice to people and ideas persistently left outside mainstream progressive discourse—those advocating for the radical steps necessary to acknowledge and remedy structural injustice and

violence, rather than merely reforming those existing structures.

Julius Chambers Richard A. Rosen, Joseph Mosnier, 2016-10-18 Born in the hamlet of Mount Gilead, North Carolina, Julius Chambers (1936–2013) escaped the fetters of the Jim Crow South to emerge in the 1960s and 1970s as the nation's leading African American civil rights attorney. Following passage of the Civil Rights Act of 1964, Chambers worked to advance the NAACP Legal Defense Fund's strategic litigation campaign for civil rights, ultimately winning landmark school and employment desegregation cases at the U.S. Supreme Court. Undaunted by the dynamiting of his home and the arson that destroyed the offices of his small integrated law practice, Chambers pushed federal civil rights law to its highwater mark. In this biography, Richard A. Rosen and Joseph Mosnier connect the details of Chambers's life to the wider struggle to secure racial equality through the development of modern civil rights law. Tracing his path from a dilapidated black elementary school to counsel's lectern at the Supreme Court and beyond, they reveal Chambers's singular influence on the evolution of federal civil rights law after 1964.
