**Popular Culture as Everyday Life** Dennis Waskul, Phillip Vannini, 2015-11-19 In *Popular Culture and Everyday Life* Phillip Vannini and Dennis Waskul have brought together a variety of short essays that illustrate the many ways that popular culture intersects with mundane experiences of everyday life. Most essays are written in a reflexive ethnographic style, primarily through observation and personal narrative, to convey insights at an intimate level that will resonate with most readers. Some of the topics are so mundane they are legitimately universal (sleeping, getting dressed, going to the bathroom, etc.), others are common enough that most readers will directly identify in some way (watching television, using mobile phones, playing video games, etc.), while some topics will appeal more-or-less depending on a reader's gender, interests, and recreational pastimes (putting on makeup, watching the Super Bowl, homemaking, etc.). This book will remind readers of their own similar experiences, provide opportunities to reflect upon them in new ways, as well as compare and contrast how experiences relayed in these pages relate to lived experiences. The essays will easily translate into rich and lively classroom discussions that shed new light on a familiar, taken-for-granted everyday life—both individually and collectively. At the beginning of the book, the authors have provided a grid that shows the topics and themes that each article touches on. This book is for popular culture classes, and will also be an asset in courses on the sociology of everyday life, ethnography, and social psychology.

*The Routledge International Handbook of Children, Adolescents, and Media* Dafna Lemish, 2022-05-30 This second, thoroughly updated edition of *The Routledge International Handbook of Children, Adolescents, and Media* analyzes a broad range of complementary areas of study, including children as media consumers, children as active participants in media making, and representations of children in the media. The roles that media play in the lives of children and adolescents, as well as their potential implications for their cognitive, emotional, social, and behavioral development, have attracted growing research attention in a variety of disciplines. This handbook presents a collection that spans a variety of disciplines including developmental psychology, media studies, public health, education, feminist studies, and the sociology of childhood. Chapters provide a unique intellectual mapping of current knowledge, exploring the relationship between children and media in local, national, and global contexts. Divided into five parts, each with an introduction explaining the themes and topics covered, the Handbook features over 50 contributions from leading and upcoming academics from around the globe. The revised and new

chapters consider vital questions by analyzing texts, audience, and institutions, including: media and its effects on children's mental health children and the internet of toys media and digital inequalities news and citizenship in the aftermath of COVID-19 The Handbook's interdisciplinary approach and comprehensive, current, and international scope make it an authoritative, state-of-the-art guide to the field of children's media studies. It will be indispensable for media scholars and professionals, policy makers, educators, and parents.

The Appropriation of Media in Everyday Life Ruth Ayass, Cornelia Gerhardt, 2012 Focuses on how people appropriate media in their daily lives. **Why Punish?** Rob Canton, 2017-09-16 Why do we punish? Is it because only punishment can achieve justice for victims and 'right the wrong' of a crime? Or is it justified because it reduces crime, by deterring potential offenders, offering rehabilitative treatment to others and incapacitating the most dangerous? The complex answers to this enduring question vary across time and place, and are directly linked to people's personal, cultural, social, religious and ethical commitments and even their sense of identity. This unique introduction to the philosophy of punishment provides a systematic analysis of the themes of retribution, deterrence, rehabilitation, incapacitation and restorative justice. Integrating philosophical, sociological, political and ethical perspectives, it provides a thorough and wide-ranging discussion of the purposes, meanings and justifications of punishment for crime and the extent to which punishment does, could or should live up to what it claims to achieve. Why Punish? challenges criminology and criminal justice students as well as policy makers, judges, magistrates and criminal justice practitioners to think more critically about the role of punishment and the moral principles that underpin it. Bridging abstract theory with the realities of practice, Rob Canton asks what better punishment would look like and how it can be achieved.

Media Analysis Techniques Arthur Asa Berger, 2017-12-28 This book provides a concise, thought-provoking, and cleverly-written introduction to major theories in media analysis, and it gives students new perspectives on the media they use. —Donna Halper, Lesley University In the Sixth Edition of Media Analysis Techniques, author Arthur Asa Berger once again provides students with a clearly written, user-friendly, hands-on guide to media criticism. The book empowers readers to make their own analyses of the media rather than just accept how others interpret the media. Media Analysis Techniques begins by examining four basic techniques of media interpretation—semiotic theory, Marxist theory, psychoanalytic theory, and sociological theory—that Berger considers critical for creative people to acknowledge if they are to understand how their creations translate to the real world. Application chapters then link popular culture to these four theories. Written in an accessible style that demystifies complex concepts, Media Analysis Techniques includes learning exercises, a glossary, study guides, and the author's own illustrations. New to the Sixth Edition: A new chapter on discourse analysis offers students

techniques for analyzing the language in texts. New content on psychological impact of social media shows that there are often negative consequences to using social media. Increased coverage of technology and social media helps readers apply time-tested analysis techniques to the latest media. Updated examples from popular culture bring theory to life. New drawings and photo images illustrate concepts and enhance the visual attractiveness of this book. New material around generational differences describe to students how each generation interacts with media differently, particularly the millennials. New discussions by thinkers who have made major impacts on popular culture, such as Daniel Chandler on semiotic codes Michel Foucault on change in cultures Mark Gottdiener on sign vehicles in semiotic theory Guy Debord on the Society of Spectacle Mark Thompson et al on Marx's neglect of egalitarian political culture Marcel Danesi on myth and popular culture Ernest Kris on the Oedipus Complex Sigmund Freud on the purposes of jokes Clotaire Rapaille on the new Global code. Teun van Dyk on discourse analysis and ideology Wolfgang Iser on reception theory

Denzin, 2011-10-06 Examines the mesodomain of welfare reform through re-negotiating the order of economic inequality, provides a grounded fractal analysis into the medicalization of homelessness and the sociology of the self, and looks at the labeling of immigrant men as criminals. This title deals with issues of gender, ethnicity, illness and the urban situation.
