La Teoria Sociologica de Max Weber ,

Las clases sociales en las sociedades agrarias Rodolfo Stavenhagen, 1969 Los países subdesarrollados son fundamentalmente países agrarios. El éxodo rural y el crecimiento acelerado de las ciudades expresan, en parte, los profundos cambios que tienen lugar en el medio rural. El autor realiza un ensayo comparativo, con materiales de algunos países de América Latina y África, que permite profundizar más y de manera sistemática el análisis sociológico de las sociedades campesinas a través del análisis de las clases sociales.

Gestión en salud Carlos Eduardo Méndez Álvarez, 2005 El modelo administrativo que caracteriza la operación de la organización, se fundamenta en los planteamientos propuestos por los diferentes autores que en el transcurso del tiempo han formulado las conocidas teorías administrativas. Este trabajo permite al lector entender que la cultura de la organización está determinada por los modelos que tienen mayor aplicación por los administradores, así como por su origen, ya sea de carácter público o privado. El texto hace un análisis comparativo de dos instituciones del sector salud de Bogotá con el cual identifica los rasgos de cultura y las describe, comprobando que los modelos administrativos al igual que el carácter de la organización determinan la cultura de la organización.

Diseño de proyectos en la investigación cualitativa María Eumelia Galeano M., 2020-08-04 El capítulo 1 presenta el complejo debate que sobre las diferencias y relaciones entre los enfoques cualitativo y cuantitativo han desarrollado, a lo largo de las cuatro últimas décadas, los investigadores sociales. Tres asuntos han centrado esta polémica: la naturaleza de la realidad, la naturaleza del conocimiento y la relación objeto/sujeto. El capítulo 2 se ocupa del diseño en investigación social cualitativa. En él se presentan las particularidades de este enfoque en relación con la construcción de objetos de investigación, momentos del proceso investigativo, características, selección de fuentes e informantes, construcción de estrategias de validez y confiabilidad, criterios para la selección de técnicas de recolección, generación, registro y sistematización de información, visualización de categorías preliminares, plan de análisis y construcción de antecedentes de la investigación. Las modalidades de investigación social cualitativa, que se presenta en el capítulo 3, son amplias ...

Teoría y análisis de la cultura. Volumen I Giménez Montiel, Gilberto,2021-09-21 En este volumen, Gilberto Giménez examina a detalle las múltiples perspectivas desde las cuales la cultura ha sido abordada históricamente y establece un diálogo con expertos sociólogos y antropólogos, para ofrecer al lector, ya sea estudiante o profesional del área de gestión cultural, una herramienta robusta para comprender mejor eso que es tan humano, tan nuestro: la cultura. En el volumen II, se examina la cultura desde la perspectiva social, la expresión e interacción entre las personas y con el mundo, para enfocarse en la cultura desde la colectividad. Conceptos esenciales de Sociología Anthony Giddens,Philip W. Sutton,2015-02-19 La vida social está en un proceso constante de cambio y la sociología no puede permanecer al margen. Teóricamente diversa, la sociología actual se interesa por una amplia variedad de temas y utiliza distintos métodos de investigación. Para ello son de importancia crucial los conceptos e ideas básicos que permiten a los sociólogos comprender las sociedades, aunque nuestra forma de entender esos conceptos tampoco es estática. Este libro presenta una cuidadosa selección de conceptos que son piedras angulares de la sociología y que en muchos casos siguen contribuyendo a configurarla. Los autores tratan pormenorizadamente cada concepto, situándolo en su contexto histórico y teórico, exploran sus principales significados en el uso, introduciendo críticas pertinentes en caso necesario, y muestran cómo se emplea en la investigación y la teoría contemporáneas. Organizado en diez unidades temáticas, el libro ofrece un panorama de la sociología a través de sus conceptos esenciales -desde el capitalismo, la identidad y la desviación hasta la ciudadanía, el medio ambiente y la interseccionalidad. Será una lectura imprescindible no sólo para los interesados en la sociología sino para quienes busquen una hoja de ruta fiable para un mundo en rápido cambio.

[La libertad de los modernos](#) Umberto Cerroni,2023-11-29 Esta positivización y mundanización de la libertad está históricamente ligada a la aparición del Estado representativo moderno, expresión institucional de una sociedad en la que las actividades individuales están todas igualmente inmersas en la vida civil, en el «afán» cotidiano. El proceso, por consiguiente, es doble: la esfera del Estado se reduce y la esfera de los individuos se autonomiza. Las Declaraciones, las Cartas, las Constituciones que reivindican el reconocimiento público y jurídico de las esferas individuales de libertad han sido siempre votadas por órganos representativos cuando han sido concedidas por los monarcas bajo la presión de tales órganos, o bien se plantean la formación de órganos representativos. Todo eso ha ido acompañado de un fenómeno más amplio que el que hemos expuesto: no solo la libertad moderna se plantea como jurídica, sino que el mismo Estado, en cuanto articulado por cámaras de representantes, se plantea como Estado jurídico. Incluso sin aludir a la importancia cuantitativa de la normativa jurídica, en el Estado moderno puede decirse que no solo la libertad moderna es una libertad perfectamente jurídica, sino también que el Derecho es una estructura básica de nuestra civilización. Regula toda la esfera de la actividad humana, fijándose al mismo tiempo a sí mismo rigurosos límites de procedimiento, en la medida en que es una actividad socialmente

notable. Ninguna civilización, a no ser nuestra civilización moderna, puede definirse como «civilización jurídica»: incluso por encima de los Estados, el Derecho pretende la armonización del mundo. Por consiguiente, analizar el Derecho y sus conexiones generales significa analizar la trama más original de la civilización moderna y de la libertad moderna. Umberto Cerroni.

Poder político y clases sociales en el estado capitalista Nicos Poulantzas,2001-01-01 A partir de conceptos estrictamente delimitados por él -tales como plolítica, clase social, lucha de clases, poder, Estado-, y tomando como base de su reflexión el dominio político en el sistema capitalista, Nicos Poulantzas procede al estudio de las diversas corrientes ideológicas y políticas del movimiento obrero y hace un examen y una crítica rigurosos de las conclusiones de la teoría sociológica y política, de Weber y Michels a nuestros días. Para ello, el autor interroga de nuevo a los clásicos del marxismo y determina los elementos necesarios a una teoría política, a las instituciones políticas y al campo de la lucha de clases.

Fundamentos de teoría sociológica Antonio Lucas Marín,1995 El inicio de la reflexión sobre el concepto de la Sociología no puede ser con otra perspectiva que la historia. Si bien una ciencia será estéril si sólo estudia a sus padres fundadores, si no los estudia será una ciencia perdida. Por eso, parece que para delimitar el concepto de nuestra disciplina, no hay mejor cauce que ir repasando las aportaciones de aquellos que la comunidad de sociólogos considera sus antecesores hasta nuestros días. Después de Kuhn y de las precisiones de la Sociología de la ciencia iniciada por Merton, es difícil discrepar de la consideración de que la Sociología es lo que hacen los sociólogos. Es en la continuidad de esta tarea acumulativa donde debemos encontrar significado a la propia aportación personal. Debemos ver las condiciones que han hecho posible el nacimiento de la Sociología, como disciplina intelectual y como toma de conciencia de la sociedad industrial, y considerar la existencia histórica de diversas posibilidades de soporte personal e ideológico, que han dado lugar a diferentes teorías y escuelas en pugna. Las conclusiones van por el lado de ver en la Sociología una dedicación al estudio de los sistemas de acción social, entendidos en un proceso de dialéctica social y en una tradición científica y progresista, que intentan precisar tanto la influencia de la estructura social como una valoración persistente de la libertad.

Cultura y clima Carlos Eduardo Méndez,2018-05-10 En la revisión de planteamientos realizada por académicos y autores, la mayoría coincide en señalar que la cultura organizacional se explicita en comportamientos compartidos que resultan de mitos, ritos, historias, valores, creencias y otros, de acuerdo con la de nición que sociólogos y antropólogos dan al concepto de cultura social. Este libro propone una de nición discordante, en razón a que la dinámica de la organización diere de la sociedad y, en consecuencia, la cultura de la organización resulta de otras variables que amplían el planteamiento para cultura social.

Análisis organizacional en PYMES y empresas de familia Aldo Schlemenson, 2013-11-14 Este libro constituye una reedición actualizada y ampliada de Análisis organizacional y empresa unipersonal. Despues de haberse agotado varias ediciones anteriores del libro, en esta nueva versión se lo ha rebautizado como Análisis organizacional en PYMES y empresas de familia. El modelo organizacional se aplica a un sector empresarial muy importante cuya incidencia estratégica se destaca como factor para el desarrollo de la economía y de la fuerza laboral, el cambio y la innovación. Centrado en el análisis de un caso de larga duración, en una casuística y experiencia muy amplias, que actúan como marco de referencia empírico para sustentar las conclusiones, el autor ofrece una descripción actualizada de este modelo de organización estableciendo las condiciones que lo rigen y que hacen a su funcionamiento eficaz. Además establece un método de consultoría e investigación para el cambio y el desarrollo denominado Análisis Organizacional y un modelo de intervención para la resolución de crisis y conflictos aplicado al ámbito específico que la obra trata: la empresa de tres estratos ejecutivos en transición.

Las clases medias profesionales en Cali José Fernando Sánchez Salcedo, 2012-11-21 Las clases medias profesionales consideradas las grandes beneficiarias del modelo de sustitución de importaciones por su rápido crecimiento y su integración en los sectores productivos, (Graffina, 2005), no han estado exentas de los cambios generados por el nuevo modelo económico, pues aspectos como la precarización del mercado laboral, la disminución de sus ingresos y el desempleo han puesto en evidencia su vulnerabilidad frente a las dinámicas económicas, políticas y sociales, lo que ha incidido en su nivel de vida y en sus expectativas profesionales. En este estudio se defiende la hipótesis que una de las alternativas que las clases medias profesionales han asumido para paliar su situación de vulnerabilidad económica ha sido la utilización de sus relaciones sociales como un recurso a partir del cual buscan, en un mercado cada vez más competitivo por la sobre oferta de profesionales y la reducción de los puestos de trabajo, engancharse laboralmente y mantener, en el marco de condiciones laborales flexibles, una cierta estabilidad y permanencia laboral.
