The Geographical Unconscious Argyro Loukaki,2016-03-09 This ambitious and innovative volume stretches over time and space, over the history of modernity in relation to antiquity, between East and West, to offer insights into what the author terms the 'geographical unconscious.' She argues that, by tapping into this, we can contribute towards the reinstatement of some kind of morality and justice in today's troubled world. Approaching selected moments from ancient times to the present of Greek cultural and aesthetic geographies on the basis of a wide range of sources, the book examines diachronic spatiotemporal flows, some of which are mainly cultural, others urban or landscape-related, in conjunction with parallel currents of change and key issues of our time in the West more generally, but also in the East. In doing so, The Geographical Unconscious reflects on visual and spatial perceptions through the ages; it re-considers selective affinities plus differences

and identifies enduring age-old themes, while stressing the deep ancient wisdom, the disregarded relevance of the aesthetic, and the unity between human senses, nature, and space. The analysis provides new insights towards the spatial complexities of the current age, the idea of Europe, of the East, the West, and their interrelations, as well as the notion of modernity.

Literary Self-fashioning in Sor Juana Inés de la Cruz Frederick Luciani,2004 This is a close reading of selected poetic, dramatic, and prose works by Sor Juana Ines de la Cruz (1651-1695), with the intent of elucidating ways in which this important colonial Mexican intellectual and literary figure created a textual self through her writing. The book analyzes Sor Juana's complex, varied, and strategic process of literary self-fashioning, the self-promotional and self-protective functions that it served, and its consequences for readers of her and subsequent generations. The book situates its readings of Sor Juana's work against the background of the arc of her career - its ascent in the 1680s, to its descent and disintegration in the 1690s. The book does not try to reassemble the life of a literary figure, rather, it explores the traces of that figure's process of literary self-fashioning contextually and over time. Illustrated.
