Three Civilizations, Two Cultures, One State Douglas V. Verney, 1986 This volume examines 150 years of Canadian political life in light of one of the country's most intractable problems, its cultural identity. Although many thoughtful Canadians remain dubious about the existence of a truly Canadian way of life, Douglas Verney argues that in fact Canada's political traditions embody and reflect a unique culture; and that although the Canadian government has been the primary instrument for nurturing this culture, it has been at the same time the entity most guilty of obscuring and ignoring it.

Black France, White Europe Emily Marker, 2022-10-15 Winner of the George Louis Beer Prize Black France, White Europe illuminates the deeply entangled history of European integration and African decolonization. Emily Marker maps the horizons of belonging in postwar France as leaders contemplated the inclusion of France's old African empire in the new Europe-in-the-making. European integration intensified longstanding structural contradictions of French colonial rule in Africa: Would Black Africans and Black African Muslims be French? If so, would they then also be European? What would that mean for republican France and united Europe more broadly? Marker examines these questions through the lens of youth, amid a surprising array of youth and education initiatives to stimulate imperial renewal and European integration from the ground up. She explores how education reforms and programs promoting solidarity between French and African youth collided with transnational efforts to make young people in Western Europe feel more European. She connects a particular postwar vision for European unity—which coded Europe as both white and raceless, Christian and secular—to crucial decisions about what should be taught in African classrooms and how many scholarships to provide young Africans to study and train in France. That vision of Europe also informed French responses to African student activism for racial and religious equality, which ultimately turned many young francophone Africans away from France irrevocably. Black France, White Europe shows that the interconnected history of colonial and European youth initiatives is key to explaining why, despite efforts to strengthen ties with its African colonies in the 1940s and 1950s, France became more European during those years.

Francophone African Cinema K. Martial Frindéthié,2014-01-10 Setting the stage for a critical encounter between Francophone African cinema and Continental European critical theory, this book offers a transnational and interdisciplinary analysis of 16 Francophone African films, including Bassek Ba Kobhio's *The Great White Man of Lambarene*, Cheick Oumar Sissoko's *Guimba the Tyrant*, and Amadou Seck's *Saaraba*. The author invites readers to study these films in the context of transnational conversations between African filmmakers and the conventional theorists whose works are more readily available in academia. The book examines black French filmmakers' treatments of a number of cross-cultural themes, including intercontinental encounters and reciprocity, ideology and subjective freedom, governance and moral responsibility, sexuality and social order, and globalization. Throughout the work, the presentation of literary theory is accessible by both beginning and advanced students of film and culture. Instructors considering this book for use in a course may request an examination copy [here](#).

French and Algerian Identities from Colonial Times to the Present Alec G. Hargreaves,Michael J. Heffernan,Michael J. Heffernan,1993 These essays concentrate specifically on the different and distinctive cultural identities which have been created in a number of countries due to interaction. General chapters offer methodological overviews and place the problematic within its historical context.

Victorian Political Thought on France and the French G. Varouxakis,2002-02-17 By scrutinizing the major Victorian political thinkers' perceptions and representations of France this book shows how comparisons with the country on the other side of the Channel, its politics, civilization, and the French 'national character' contributed to nineteenth-century Britain's self-definition. While the utterances on France of several other figures are also examined, the main focus is on Walter Bagehot, John Stuart Mill, Matthew Arnold, Lord Acton, Thomas Carlyle, Nassau William Senior, James Fitzjames Stephen, William Rathbone Greg, Thomas Babington Macaulay, John Morley, and Frederic Harrison.

American Exceptionalism, the French Exception, and Digital Media Law Lyombe S. Eko,2013-07-10 This volume explores the sameness and difference between the United States and France in the matters of freedom of expression on the Internet. The United States and France are liberal democracies that are part of the Western family of nations. However, despite their many similarities, they have a number of cultural and ideological differences. The United States is generally France's ally in time of war and its cultural nemesis in time of peace. One of the reasons for this unusual relationship is that the United States and France are self-described "exceptional" countries. The United States and France are therefore two Western countries separated by different exceptionalist logics. Lyombe Eko uses this concept of exceptionalism as a

theoretical framework for the analysis of American and French resolution of problems of human rights and freedom of expression in the traditional media and on the Internet. This book therefore analyzes how each country applies rules and regulations designed to manage a number of issues of media communication in real space, to the realities and specificities of cyberspace, within the framework of their respective exceptionalist logics. The fundamental question addressed concerns what happens when rules and regulations designed to regulate the media in clearly defined, national and regional geographic spaces, are suddenly confronted with the new realities and multi-communication platforms of the interconnected virtual sphere of cyberspace.

France and the New Imperialism Bruno Charbonneau,2016-04-15 The role of French security policy and cooperation in Africa has long been recognized as a critically important factor in African politics and international relations. The newest form of security cooperation, a trend which merges security and development and which is actively promoted by other major Western powers, adds to our understanding of this broader trend in African relations with the industrialized North. This book investigates whether French involvement in Africa is really in the interest of Africans, or whether French intervention continues to deny African political freedom and to sustain their current social, economic and political conditions. It illustrates how policies portrayed as promoting stability and development can in fact be factors of instability and reproductive mechanisms of systems of dependency, domination and subordination. Providing complex ideas in a clear and pointed manner, *France and the New Imperialism* is a sophisticated understanding of critical security studies.

Micro and Macro Philosophy: Organicism in Biology, Philosophy, and Politics Thorsten Botz-Bornstein,2020-10-26 What role can philosophy play in a world dominated by neoliberalism and globalization? Must it join universalist ideologies as it did in past centuries? Or might it turn to ethnophilosophy and postmodern fragmentation? *Micro and Macro Philosophy* argues that universalist cosmopolitanism and egocentric culturalism are not the only alternatives. Western philosophy has created a false dichotomy. A better solution can be found in an organic philosophy that functions through micro-macro interactions. According to biologists, the twentieth century was the century of the gene, while the twenty-first century is destined to be the century of the organic. *Micro and Macro Philosophy* attempts to establish such a view in philosophy: by highlighting micro-macro patterns found in history, it seeks to design new ways of organic thinking in the human sciences.

New Media, Old Regimes Lyombe S. Eko,2012-07-30 *New Media, Old Regimes: Case Studies in Comparative Communication Law and Policy*, by Lyombe S. Eko, is a collection of novel theoretical perspectives and case studies which

illustrate how different communication law regimes conceptualize and apply universal ideals of human rights and freedom of expression to media controversies in real space and cyberspace. Eko's investigation includes such controversial communication policy topics as North African regimes' failed use of telecommunications to suppress the social change of the Arab Spring, the Mohammad cartoon controversy in Denmark and France, French and American policy of development and diffusion of the Minitel and the Internet, American and Russian regulation of internet surveillance, the problem of managing pedopornography in cyberspace and real space, and other current communication policy cases. This study will aid readers not only to understand different national and cultural perspectives of thorny communication issues, but also show that though freedom of expression is a pluralistic concept, the actions of all political regimes at the national, transnational, and international levels must be held up to the universal standards of freedom of expression set forth in the Universal Declaration of Human Rights. *New Media, Old Regimes* provides essential scholarship on comparative communication law and policy in a world of new media.

Mark Twain & France Paula Harrington, Ronald Jenn, 2017-07-31 Blending cultural history, biography, and literary criticism, this book explores how one of America's greatest icons used the French to help build a new sense of what it is to be "American" in the second half of the nineteenth century. While critics have generally dismissed Mark Twain's relationship with France as hostile, Harrington and Jenn see Twain's use of the French as a foil to help construct his identity as "the representative American." Examining new materials that detail his Montmatre study, the carte de visite album, and a chronology of his visits to France, the book offers close readings of writings that have been largely ignored, such as *The Innocents Adrift* manuscript and the unpublished chapters of *A Tramp Abroad*, combining literary analysis, socio-historical context and biographical research.
