Destiny and Power Jon Meacham,2016-10-18 #1 NEW YORK TIMES BESTSELLER • In this “illuminating” (USA Today) biography, Pulitzer Prize-winning author Jon Meacham chronicles the life of George Herbert Walker Bush. “Destiny and Power reflects the qualities of both subject and biographer: judicious, balanced, deliberative, with a deep appreciation of history and the personalities who shape it.”—The New York Times Book Review ONE OF THE WASHINGTON POST’S TEN BEST BOOKS OF THE YEAR • A BEST BOOK OF THE YEAR: The New York Times Book Review, Time, NPR, St. Louis Post-Dispatch Drawing on President Bush’s personal diaries, on the diaries of his wife, Barbara, and on extraordinary access to the forty-first president and his family, Meacham paints an intimate and surprising portrait of an intensely private man who led the nation through tumultuous times. From the Oval Office to Camp David, from his study in the private quarters of the White House to Air Force One, from the fall of the Berlin Wall to the first Gulf War to the end of Communism, *Destiny and Power* charts the thoughts, decisions, and emotions of a modern president who may have been the last of his kind. This is the human story of a man who was, like the nation he led, at once noble and flawed. From the Pacific to the presidency, *Destiny and Power* charts the vicissitudes of the life of this quietly compelling American original. Meacham sheds new light on the rise of the right wing in the Republican Party, a shift that signaled the beginning of the end of the center in American politics. *Destiny and Power* is an affecting portrait of a man who, driven by destiny and by duty, forever sought, ultimately, to put the country first.

SOG John L. Plaster,2019-01-01 John Plaster’s riveting account of his covert activities as a member of a special operations team during the Vietnam War is “a true insider’s account, this eye-opening report will leave readers feeling as if they’ve been given a hot scoop on a highly classified project” (Publishers Weekly). Code-named the Studies and Observations Group, SOG was the most secret elite US military unit to serve in the Vietnam War—so secret its very existence was denied by the government. Composed entirely of volunteers from such ace fighting units as the Army Green Berets, Air Force Air

Commandos, and Navy SEALs, SOG took on the most dangerous covert assignments, in the deadliest and most forbidding theaters of operation. In SOG, Major John L. Plaster, a three-tour SOG veteran, shares the gripping exploits of these true American warriors in a minute-by-minute, heartbeat-by-heartbeat account of the group's stunning operations behind enemy lines—penetrating heavily defended North Vietnamese military facilities, holding off mass enemy attacks, launching daring missions to rescue downed US pilots. Some of the most extraordinary true stories of honor and heroism in the history of the US military, from sabotage to espionage to hand-to-hand combat, Plaster's account is "a detailed history of this little-known aspect of the Vietnam War...a worthy act of historical rescue from an unjustified, willed oblivion" (The New York Times).

Propaganda Blitz David Edwards, David Cromwell, 2018-09-20 Do you trust the liberal media? While the tabloid and right-wing press - the Sun, The Times, the Mail and the Express - are constantly criticised for dangerous bias, outlets like the BBC and the Guardian are trusted by their readers to report in the interests of the public. However, the reality is that all corporate media is systematically filtered by the powerful interests that own, manage and fund it. Propaganda Blitz shows that the corporate media does not just 'spin' the news - it fundamentally distorts everything it touches, hiding the real issues from public view, and often completely reversing the truth. This book uncovers a storm of top-down campaigns behind war reporting from Iraq, Syria and Palestine, as well as the destruction of the credibility of figures on the left, including Jeremy Corbyn and Hugo Chavez. Exposing propagandists at the top levels of the BBC, as well as their reporting on the Scottish independence referendum, the dismantling of the NHS and looming climate chaos, Propaganda Blitz explains the real meaning of 'objective' journalism, exposes the fake news about 'fake news' and outlines a model for anti-business media activism.

Covert Wars and Clash of Civilizations Joseph P. Farrell, 2020-07-24 Oxford-educated historian Joseph P. Farrell delivers the sequel to his best-selling *Covert Wars and Breakaway Civilizations*, part of his book series on suppressed technology, Nazi survival, secret finance and postwar hidden conflicts. His customary meticulous research and sharp analysis blow the lid off of a worldwide web of nefarious financial and technological control that very few people even suspect exists. Farrell delves deeper into the breakaway civilizations created by the Nazis in South America and other parts of the world. He elaborates on the advanced technology that they took with them at the "end" of World War II and shows how they created a huge system of hidden finance with the involvement of leading financial institutions around the world. He exposes the secret space programs used by the breakaway civilizations and reveals the clash of civilizations—a virtual secret war going on around us. He investigates the current space secrecy that involves UFOs, suppressed technologies and the hidden oligarchs who control planet Earth for their own gain and profit. Farrell probes the mystery surrounding Dr. Kurt Debus and his links to NASA and Werner von Braun. He uncovers the covert operations of Richard Bissell, the flying saucer designs of Alfred Loedding and T. Townsend Brown, and strange activity on Mars involving UFOs. He explains the magneto-hydrodynamic

anti-gravity drives that would easily power such craft. He includes a continued discussion of “emulational” technologies (those that can imitate acts of god/nature, like earthquakes and storms) from the standpoint of the culture of “full spectrum dominance” and the culture of “plausible deniability.” Farrell includes plenty of astounding accounts, documents and speculation on the amazing alternative history of hidden conflicts, secret oligarchies and super technology.

NATO and the Western Balkans Niall Mulchinock, 2017-03-28 This book provides a critical examination of NATO’s evolving strategic and operational roles in the Western Balkans since the disintegration of Yugoslavia in 1991, with a particular focus on Bosnia, Kosovo and the former Yugoslav Republic of Macedonia, in both the conflict and post-conflict phases. While there is a myriad of literature available on the various conflicts that engulfed the former Yugoslavia after the collapse of communism, less has been written on NATO’s overall role in these conflicts. This text, therefore, fills the gap, offering a thematic study of NATO’s roles and duties in this region from the early 1990s to the present day. The ‘levels of analysis’ introduced by Mulchinock provide a new framework for examining NATO’s response to the Yugoslav wars of secession, focusing on the role of key NATO member states and the role of different NATO Secretaries-General, along with the impact of inter-institutional cooperation (and conflict) with other international organisations.

Covert Wars and Breakaway Civilizations Joseph P. Farrell, 2020-12-05 Oxford-educated historian Joseph P. Farrell really delivers in this latest addition to his best-selling book series on suppressed technology, Nazi survival and postwar hidden conflicts. His customary meticulous research and sharp analysis blow the lid off of a worldwide web of nefarious financial and technological control few people even suspect exists. Farrell delves into the creation of a breakaway civilization by the Nazis in South America and other parts of the world. He discusses the advanced technology that they took with them at the “end” of World War II and the psychological war that they waged for decades against America and NATO. He shows how the breakaway civilization has created a huge system of hidden finance with the involvement of the Vatican Bank (among others), and how NATO established a large covert warfare network and political slush fund. He investigates the secret space programs currently sponsored by the breakaway civilization and the current militaries in control of planet Earth. Farrell includes a fascinating discussion of “emulational” technologies (those that can manipulate acts of god/nature, like earthquakes and storms) from the standpoint of the culture of “full spectrum dominance” and the culture of “plausible deniability”-yes, there are plans for mass destruction that can never be traced back to their real source. Farrell also discusses the historical origin of the breakaway civilization with the continuing airship mystery; incredibly bold counterfeiting operations; and the nexus of spy satellites, nuclear weapons and UFOs. He includes plenty of astounding accounts, documents and speculation on the amazing alternative history of hidden conflicts, secret super-finance and technology.

On Holiday Orvar Löfgren, 1999-10-27 Löfgren takes us on a tour of the Western holiday world and shows how two

centuries of learning to be a tourist have shaped our own ways of vacationing. We see how fashions in destinations have changed through the years, with popular images (written, drawn, painted, and later photographed) teaching the tourist what to look for and how to experience it. Travelers present and future will never see their cruises, treks, ecotours, round-the-world journeys, or trips to the vacation cottage or condo in quite the same way again. All our land-, sea-, and mindscapes will be the richer for Löfgren's insights.

California Gothic: The Dark Side of the Dream Charles L. Crow, 2024-01-16 California Gothic explores the California dream and its dark inversion as a nightmare, as illustrated in fiction, poetry, and film. California began as a literary invention, a magic island, in a Spanish romance before conquistadors first visited the land. From early days to the present, the California dream of happiness in a land of new beginnings has been maintained by suppression of disturbing realities: above all, the destruction of native peoples; and by events and facts such as the tragedy of the Donner Party, the persistence of poverty and crime in the golden land, disturbing crimes such as the Black Dahlia; and pandemics and ecological disaster. This book explores a rich Gothic tradition that exposes the repressed past and imagines the fates awaiting a failed California.

Historical Dictionary of Afghanistan Thomas H. Johnson, Ludwig W. Adamec, 2021-05-15 Afghanistan is an extremely complex and nuanced country that has been one of the centers of imperial conflict at least for 150 years. From the Czarist Russia's march south in the 19th Century threatening British India, three Anglo-Afghan Wars, the Soviet Invasion and occupation of Afghanistan starting in December 1979 and the resulting anti-Soviet Jihad by the Afghan Mujahideen to Kabul's and their allies' (U.S. and NATO) conflict with the Taliban, Afghanistan has been one of the centers of important international and regional conflicts and events. Historical Dictionary of Afghanistan, Fifth Edition contains a chronology, an introduction, and an extensive bibliography. The dictionary section has more than 1,000 cross-referenced entries on important personalities as well as aspects of the country's politics, economy, foreign relations, religion, and culture. This book is an excellent resource for students, researchers, and anyone wanting to know more about Afghanistan.

Historical Dictionary of Afghanistan Ludwig W. Adamec, 2012 This new fourth edition has been substantially expanded because so much has taken place in such a short period of time. The most important changes, however, have been made to the dictionary section, with hundreds of added or substantially revised entries on important people, places, events, institutions, practices, ethnic and religious groups, political parties, and Islamist movements, as well as significant aspects of Afghanistan's politics, economy, society, and culture.

The Hidden Places of East Anglia Barbara Vesey, 2003 This is the 7th edition of the Hidden Place of Anglia, one of the Hidden Places most popular titles and will be printed in full colour. The East Anglian counties offer plenty for the visitor to explore in real Hidden Places country. Norfolk is famous for the Norfolk Broads but has a rich and interesting past, gentle hills as well as expansive horizons, delightful pastoral scenes, a beautiful coastline rich in wildlife and many interesting

hidden places to visit. Suffolk was made famous by the brush of John Constable and is blessed with incomparable rural beauty, which encompasses wide-open spaces broken by gentle hills and tidal rivers meandering from a coastline teeming with birdlife. Essex contains England's oldest recorded town (Colchester) has a strong maritime tradition, pretty villages, a coastline with attractive estuaries and a rich history going back to Roman times. Cambridgeshire is famous for its ancient university and being the birthplace of Oliver Cromwell and Samuel Pepys but offers a wealth of peaceful and attractive countryside with many towns and villages steeped in history, which are truly hidden places. The book is packed with information and coloured photographs covering the more secluded and little known venues for food, accommodation and places of interest as well as the more enduring attractions of the region.

Seeing Through the Media Susan Jeffords, Lauren Rabinovitz, 1994 An eye-opening look at the effect of the media on public perception of The Persian Gulf War

Congressional Record United States. Congress, 1974 The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States (1789-1824), the Register of Debates in Congress (1824-1837), and the Congressional Globe (1833-1873)

John Nichols's The Progresses and Public Processions of Queen Elizabeth: Volume IV John Nichols, 2014 The fourth volume in this annotated collection of texts relating to the 'progresses' of Queen Elizabeth I around England includes accounts of dramatic performances, orations, and poems, and a wealth of supplementary material dating from 1596 to 1603.

1938: Modern Britain Michael John Law, 2017-12-14 In 1938: Modern Britain, Michael John Law demonstrates that our understanding of life in Britain just before the Second World War has been overshadowed by its dramatic political events. 1938 was the last year of normality, and Law shows through a series of case studies that in many ways life in that year was far more modern than might have been thought. By considering topics as diverse as the opening of a new type of pub, the launch of several new magazines, the emergence of push-button radios and large screen televisions sets, and the building of a huge office block, he reveals a Britain, both modern and intrigued by its own modernity, that was stopped in its tracks by war and the austerity that followed. For some, life in Britain was as consumerist, secular, Americanized and modern as it would become for many in the late 1950s and early 1960s. Presenting a fresh perspective on an important year in British social history, illuminated by six engaging case studies, this is a key study for students and scholars of 20th-century Britain.

The Quick, the Dead and the Revived Joseph Maddrey, 2016-06-22 For well more than a century, Western films have embodied the United States' most fundamental doctrine--expansionism--and depicted, in a uniquely American way, the archetypal battle between good and evil. Westerns also depict a country defined and re-defined by complex crises. World War II transformed the genre as well as the nation's identity. Since then, Hollywood filmmakers have been fighting America's

ideological wars onscreen by translating modern-day politics into the timeless mythology of the Old West. This book surveys the most iconic and influential Westerns, examines Hollywood stars and their political stripes and reveals the familiar Western tropes--which became elements in popular action, science fiction and horror films. This then sets the stage for the Western revival of the 1990s and a period of reinvention in the 21st century. Instructors considering this book for use in a course may request an examination copy here.

Indian Depredations in Texas John Wesley Wilbarger, 2023-12-26 John Wesley Wilbarger's *Indian Depredations in Texas* is an exhaustive historical account of conflicts between Native American tribes and settlers in Texas during the 19th century. Written in a narrative style that blends detailed documentation with personal anecdotes, the book serves as both a chronicle and a cultural critique of the complexities surrounding frontier life. Wilbarger examines not only the violence and destruction wrought during these encounters but also the sociopolitical circumstances that led to such conflicts, providing an indispensable context for understanding Texas's tumultuous history during this era. A veteran of the Texas Revolution and a passionate advocate for the settler's perspective, John Wesley Wilbarger utilized his firsthand experiences and deep-seated beliefs to articulate the trials faced by Texans. His role as a surveyor and an early Texian settler enriched his narrative with authenticity, while his interactions with both sides of the conflict inform a balanced yet pointed reflection on the era's sociopolitical dynamics. This background uniquely positions him to chronicle events with a clear eye towards preserving the memories that shaped modern Texas. This book is highly recommended for historians, students, and anyone interested in the complexities of early Texan history. Wilbarger's work not only provides crucial insights into the past but also raises important questions about the narratives we construct around identity and conflict in American history.

Afrocentrism Stephen Howe, 1999-08-17 For centuries, racist, colonial, and Eurocentric bias has blocked or distorted knowledge of Africans, their histories and cultures, resulting in a counter mythology claiming the innate superiority of African-descended peoples. In this provocative study, historian Stephen Howe challenges this Afrocentric rewriting of African history. 16 photos. Copyright © Libri GmbH. All rights reserved.
