Keyness in Texts Marina Bondi, Mike Scott, 2010-11-11 This is corpus linguistics with a text linguistic focus. The volume concerns lexical inequality, the fact that some words and phrases share the quality of being key – and thereby reflect or promote important themes – in some textual contexts, while others do not. The patterning of words which differ in their centrality to text meaning is of increasing interest to corpus linguistics. At the same time software resources are yielding increasingly more detailed ways of identifying and studying the linkages between key words and phrases in text databases. This volume brings together work from some of the leading researchers in this field. It presents thirteen studies organized in three sections, the first containing a series of studies exploring the nature of keyness itself, then a set of five studies looking at keyness in specific discourse contexts, and then three studies with an educational focus.

Political Discourse in Central, Eastern and Balkan Europe Martina Berrocal, Aleksandra Salamurović, 2019-07-15 This edited volume offers new insights into contemporary political discourses in Slavic speaking countries by focusing on discursive and linguistic means deployed in relevant genres, such as parliamentary discourse, commemorative and presidential speeches, mediated communication, and literal and philosophical essays. The depth of the linguistic analysis reflects different levels of linkage between language and social practice constituting the discourse. The theoretical and methodological approaches discussed range from interactional pragmatics over corpus linguistics to CDA. The chapters contain original language material in Russian, Polish, Czech, Croatian, Serbian and Macedonian, and the authors address issues such as the affiliation to different political and social groups within parliamentary settings, national identity, gender and minorities, as well as cultural memory and reconciliation.

Stage Combat Arts Christopher DuVal, 2016-01-28 The art of armed and unarmed stage combat thrills actors and audiences alike the world over. This book details many of the foundational techniques used by actors studying stage combat and actor-movement disciplines. A variety of specific training exercises are described that connect the actor's imagination to a cohesive and meaningful actor-training curriculum – integrating stage combat with the actor's process of developing a fully embodied awareness of the physical life of the character. Developing physical awareness and dexterity is an essential component of an actor's training and rehearsal processes. Engagement, connection, the ability to listen and respond with authenticity, clarity, flexibility, intentionality, tactical response, variety are all helpful aspects for the actor studying combat

movement. With practical exercises and expert advice, Stage Combat Arts allows the actor to further hone their emotional connection and extension, breath and voice, intention and focus, movement and freedom, and their ability to connect physically to imagery and text – disciplines that are at the foundation of actor-training – all through the art of combat movement.

The Linguistic Challenge of the Transition to Secondary School Alice Deignan,Duygu Candarli,Florence Oxley,2022-12-30 This book provides a unique analysis and description of the linguistic challenges faced by school students as they move from primary to secondary school, a major transition, which some students struggle with emotionally and academically. The study:

- draws on a bespoke corpus of 2.5 million words of written materials and transcribed classroom recordings, provided by the project's partner schools;
- combines quantitative and qualitative approaches to the corpus data to explore linguistic variation across school levels, registers and subjects;
- describes the procedures of corpus compilation and analysis of written and spoken academic language, showing how modern corpus tools can be applied to this far-reaching social and educational issue;
- uncovers differences and similarities between the academic language that school children are exposed to at primary and secondary school, contrasting this against the backdrop of the non-academic language that they encounter outside school.

This book is important reading for advanced students and researchers in corpus linguistics, applied linguistics and teacher education. It carries implications for policymakers and schools looking to support students at this critical point in their schooling. The Open Access version of this book, available at <http://www.taylorfrancis.com>, has been made available under a Creative Commons Attribution-Non Commercial-No Derivatives (CC-BY-NC-ND) 4.0 license.

Language, Corpus and Empowerment Luke Collins,2015-02-20 Language, Corpus and Empowerment applies a novel corpus-driven approach to the exploration of the concept of empowerment in healthcare. The book proposes an innovative corpus-based methodology for finding evidence of empowerment in language use, using data from a video intervention delivered to families of deaf children, as well as assessing the effects of the intervention on the family. Language, Corpus and Empowerment provides a working definition of empowerment which incorporates concepts from linguistics and learning theory; uses corpus analysis to provide evidence of how video interventions can transform people's perspectives; examines this new methodology as a potential tool for analysing conversational data longitudinally and at a case-by-case level; demonstrates how a corpus-based methodological approach can be applied in conjunction with other language-based approaches, such as discourse analysis and conversation analysis, to explore the ways in which complex social processes occur in interaction; makes a valuable development in the assessment of the impact of healthcare interventions and the language of empowerment. Insightful and ground-breaking, Language, Corpus and Empowerment is essential reading for anyone undertaking research within corpus linguistics.

The Language of Mass Shooter Manifestos Emily Powell,2025-05-30 Bringing together scholarship from corpus

linguistics, forensic linguistics, and criminology, this book offers a nuanced exploration of moral agency in the pre-crime narratives of offenders. The volume seeks to complement existing literature in forensic linguistics, which often explore criminal narratives elicited after the crime with the benefit of hindsight, by examining texts written in the midst of events. Analyses draw on a corpus of over 200,000 words of manifestos and diaries written by four 'lone attackers' who perpetrated mass shootings, and put together accounts of their lives and the preparation for their crimes. Incorporating stylistic approaches to non-fiction texts with those from corpus linguistics, Powell explores the ways in which these texts influence perpetrators and future offenders and, more broadly, the role of narrative as it relates to harmful actions. A closing section includes a taxonomy of moral agency which may serve as the foundation for future research on understanding agency, responsibility, and offending from a linguistic perspective. This book will be of interest to scholars in forensic linguistics, corpus linguistics, stylistics, and criminology.

Writing Performative Shakespeares Rob Conkie, 2016-02-24 This original and innovative study offers the reader an inventive analysis of Shakespeare in performance.

Shakespeare, Trauma and Contemporary Performance Catherine Silverstone, 2012-02-06 *Shakespeare, Trauma and Contemporary Performance* examines how contemporary performances of Shakespeare's texts on stage and screen engage with violent events and histories. The book attempts to account for – but not to rationalize – the ongoing and pernicious effects of various forms of violence as they have emerged in selected contemporary performances of Shakespeare's texts, especially as that violence relates to apartheid, colonization, racism, homophobia and war. Through a series of wide-ranging case studies, which are informed by debates in Shakespeare, trauma and performance studies and developed from extensive archival research, the book examines how performances and their documentary traces work variously to memorialize, remember and witness violent events and histories. In the process, Silverstone considers the ethical and political implications of attempts to represent trauma in performance, especially in relation to performing, spectatorship and community

formation. Ranging from the mainstream to the fringe, key performances discussed include Gregory Doran's Titus Andronicus (1995) for Johannesburg's Market Theatre; Don C. Selwyn's New Zealand-made film, The Maori Merchant of Venice (2001); Philip Osment's appropriation of The Tempest in This Island's Mine for London's Gay Sweatshop (1988); and Nicholas Hytner's Henry V (2003) for the National Theatre in London.

Exploring Psychoanalytic Concepts through Culture, the Arts and Contemporary Life Margaret Lush, Kate Robertson, 2025-04-24 This book explores how psychoanalytic ideas and thinking enhance our understanding and engagement with the creative arts and contemporary life. Many of us love to read poetry and novels and enjoy the performing arts. All of us take part in contemporary life. But how might a psychoanalytic perspective deepen our understanding or enhance our experience in these areas? What might we discover when we explore the unconscious dimensions of particular cultural artefacts and activities? Based on the work of the longstanding Psychoanalytic Studies course at the Tavistock, contributing authors draw on their experience of infant observation and psychoanalytic theory and apply them to explorations of culturally diverse and wide-ranging topics such as social work, literature, the act of littering, a Palestinian poem, and even a chart-topping Korean pop song. Blending a deep understanding of clinical work and a broad range of artistic endeavours, this book will be key reading for psychoanalysts, psychotherapists, and anyone interested in understanding how psychoanalysis can inform art and life.
