

Sacred And Terrible Air

Gustave Flaubert

End-Game Lorenzo DiTommaso, James Crossley, Alastair Lockhart, Rachel Wagner, 2024-09-02 Video games are a global phenomenon, international in their scope and democratic in their appeal. This is the first volume dedicated to the subject of apocalyptic video games. Its two dozen papers engage the subject comprehensively, from game design to player experience, and from the perspectives of content, theme, sound, ludic textures, and social function. The volume offers scholars, students, and general readers a thorough overview of this unique expression of the apocalyptic imagination in popular culture, and novel insights into an important facet of contemporary digital society.

The World Politics of Disco Elysium Vic Castro, Nicholas Kiersey, 2025-06-30 The World Politics of Disco Elysium analyzes the distinctive political claims and original arguments on a wide range of international political issues of the highly-acclaimed Marxist video game *Disco Elysium* (2019), which takes place in a speculative fictional world anchored in a post-Soviet Estonian perspective. *Disco Elysium* (2019) has been repeatedly acclaimed as one of the best video games of all time. This detective role-playing game unfolds in a city ruined by a failed communist revolution and occupied by a foreign coalition. Furthering recent work in International Relations and popular culture, this book claims that the cognitive estrangement of speculative fiction can produce theoretical and political novelty, beyond merely reflecting existing political dynamics. By placing a metaphor for the Estonian capital Tallinn at the centre of a world, *Disco Elysium* produces an estranged Estonian perspective on world politics that challenges dominant Anglo-American views of International Relations, while also undermining the opposition between a coherent West and a colonized Rest. The contributors, from International Relations and Cultural Studies, discuss the game's claims on topics such as capitalism, (neo)liberalism, foreign intervention, law enforcement, fascism, colonialism, gender, disability, violence, memory, revolutionary politics, the European Union, political realism and international security. *The World Politics of Disco Elysium* will be of great interest to students and scholars researching the politics of popular culture, post-Soviet politics, non-Western International Relations, as well as game studies and cultural studies.

El siglo de los videojuegos Jorge Morla, Borja Vaz, 2023-05-03 Un ensayo perspicaz y convincente que acerca tanto a gamers como a analógicos al medio cultural que más impacto económico y social tiene en el mundo: los videojuegos. ¿A qué se debe el magnetismo que los videojuegos ejercen sobre los jóvenes? ¿Existen razones objetivas para mirar con

condescendencia al entretenimiento digital? ¿Ha desplazado irremediabilmente a otras formas de cultura? ¿Es quizás el arte más importante de nuestro tiempo? Nos guste o no, hay un hachazo generacional que separa a quienes han recibido impactos culturales casi de forma hegemónica del mundo digital y quienes, anclados en estereotipos superados y sin una prensa que les traduzca la idiosincrasia de los videojuegos, van quedándose rezagados en el ecosistema cultural que se va imponiendo. Borja Vaz y Jorge Morla, periodistas expertos en el mundo digital, establecen con este libro un doble diálogo. Por un lado, con las nuevas generaciones, para reivindicar y fiscalizar el potencial artístico de los videojuegos; por otro, con las generaciones desconectadas del medio interactivo, para revelar su potencial creativo y el modo en que está cambiando sus vidas. El futuro se parecerá a un videojuego, y lo mejor es tener las claves para ganar la partida. La crítica ha dicho... «Un estupendo mapa del medio más pujante y ambicioso de nuestro tiempo. Imprescindible para todo aquel que quiera saber por dónde van los tiros de la cultura actual». Juan Gómez-Jurado «Un libro necesario, orientador, claro y objetivo. Si la cultura es el conjunto de marañas antropológicas que nos ocultan (lo inhóspito de) la realidad, el arte es la parte de la cultura que oculta la realidad fingiéndola. Hoy en la vanguardia de este fingimiento se encuentran los videojuegos. Y este libro explica el porqué». Gregorio Luri «Mi completa admiración por este libro y este arte ultracontemporáneo para todas las edades. Me parece que es un campo magnético idóneo para la experimentación de lenguajes y una llave maestra para el cerebro del futuro». Alfonso Armada

After the Flood Lydia Barnett, 2019-07-02 How the story of Noah's Flood was central to the development of a global environmental consciousness in early modern Europe. Winner, Morris D. Forkosch Prize, Journal of the History of Ideas Many centuries before the emergence of the scientific consensus on climate change, people began to imagine the existence of a global environment: a natural system capable of changing humans and of being changed by them. In *After the Flood*, Lydia Barnett traces the history of this idea back to the early modern period, when the Scientific Revolution, the Reformations, the Little Ice Age, and the overseas expansion of European empire, religion, and commerce gave rise to new ideas about nature, humanity, and their intersecting histories. Recovering a forgotten episode in the history of environmental thought, Barnett brings to light the crucial role of religious faith and conflict in the emergence of a global environmental consciousness. Following Noah's Flood as a popular topic of debate through long-distance networks of knowledge from the late sixteenth through the early eighteenth centuries, Barnett reveals how early modern earth and environmental sciences were shaped by gender, evangelism, empire, race, and nation.

The Memoirs of an Immigrant Joseph Molitorisz,2001-10 Seventy years. A lifetime beginning in a tranquil Hungarian village, growing in a tragic time of political and ideological turmoil, the horrors of the Second World War, the humiliation of imprisonment in an American POW camp, the tyranny of Bolshevism, the crushing defeat of the 1956 Hungarian Revolution. This is a captivating account of the nightmarish side of the 20th Century. Then, joining the tens of thousands of other refugees, the author's search for a better life begins. Destination: America, the land of freedom. But life in the adopted homeland is marked by struggle and dogged determination to make good on a dream. The author unflinchingly chronicles the immigrant experience. This book is for readers who have the strong urge to look beyond the surface of what has been purported to be the 20th Century. This is not a writing of history. It is rather the writing of a life through which history reveals itself to those who have a receptive, critical mind and an open, compassionate heart.

Curtis, as well as beautiful artwork by Charles Marion Russell and Frederic Remington, this illustrated volume helps bring these remarkable stories to life.
