Afoot and Afield: Las Vegas and Southern Nevada Brian Beffort, 2010-10-01 Beyond the bright lights of one of the city's fastest growing metropolitan areas is some of the most rugged, beautiful, and remote country around. Popular destinations such as Red Rock Canyon, Valley of Fire, Death Valley, and Mt. Charles are covered, plus lesser-known areas such as Anniversary Narrows, Arrow Canyon, Bowl of Fire, and the Wee Thump Joshua Tree Wilderness. Each trip showcases the diversity of this region, from the geological wonders and rare life forms surviving in Mojave National Preserve to ancient petroglyphs. The hikes range from easy strolls to challenging treks and include distance, time, elevation change, difficulty, and trail-use notes. A custom map accompanies every description, and GPS waypoints are given for key locations.

Outdoor Recreation David Huddart, Tim Stott, 2019-10-25 This textbook presents a comprehensive overview of the environmental impacts of various types of outdoor recreation, and how these can be best managed. As a field of study, recreational ecology is both multidisciplinary and interdisciplinary, and the authors seek to develop a deeper understanding of both the role and function of the factors that influence visitor numbers and their impact. An accessible and comprehensive textbook, it features numerous types of outdoor recreational activities including hill walking, rock climbing, mountain marathons, skiing, scuba diving and more. Drawn from several global case studies, the authors estimate the current and future numbers involved in outdoor recreation, and how best these numbers can be managed. Effective visitor impact management actions arise from collaboration between recreation ecologists, social scientists, experienced recreation

managers, recreation stakeholders and the recreationalists themselves: as such, this book will be multi-disciplinary in scope. This practical and engaging textbook will be invaluable to students and scholars of outdoor recreation and adventure tourism as well as practitioners and managers working in the field.
