Transforming Curriculum for A Culturally Diverse Society Etta R. Hollins, 2013-10-18 The intention of this book is to engage educators in transforming the public school curriculum for a culturally diverse society. This means more than including knowledge about diverse populations. It means reconceptualizing school practices through debate, deliberation, and collaboration involving the diverse voices that comprise the nation. Certain key questions must be addressed in this process: * What should be the purpose of schooling in a culturally diverse society? * Who should be involved in curriculum planning and what process should be employed? * How is the actualized curriculum differentiated? * What is the relationship between school practices and the structure of the larger society? * How should the curriculum be evaluated? The authors of the essays in this book address critical perspectives from which a framework is constructed for a discourse on planning curriculum for a culturally diverse society. In a substantive introduction, Hollins presents the major themes and overall goals of the book and describes how the readings in each of the four parts are linked to each other and to these themes and goals. Each part begins with critical questions and an overview to provide a framework and a focus for the readings that follow, and concludes with suggested learning experiences.

Multicultural Children's Literature Donna E. Norton, 2009 With the growing number of ethnic minority students in public schools, it is very important for teachers, librarians, and all those who work with children to have an understanding of appropriate multicultural literature. This book and the literature selections are designed to develop heightened sensitivity and understanding of people from various cultures and traditions through the selection of carefully chosen literature. It includes a balance of research about the culture and the literature, a discussion of authentic literature for students from early childhood through young adults, and teaching activities designed to develop higher cognitive abilities. The book uses a unique five-phase approach for the study of multicultural literature that has been field tested.
