

Albert Camus Le Premier Homme

Kate Marsh, Nicola Frith

Albert Camus ,2007

The First Man Albert Camus,1996-08-06 From the Nobel Prize-winning author comes the story of Jacques Cormery, a boy who lived a life much like his own, with the sights, sounds and textures of a childhood steeped in poverty and a father's death yet redeemed by the beauty of Algeria and the boy's attachment to his mother. A work of genius. —The New Yorker Published thirty-five years after its discovery amid the wreckage of the car accident that killed Camus, *The First Man* is the brilliant consummation of the life and work of one of the 20th century's greatest novelists. Translated from the French by David Hapgood. *The First Man* is perhaps the most honest book Camus ever wrote, and the most sensual...Camus is...writing at the depth of his powers...It is Fascinating...*The First Man* helps put all of Camus's work into a clearer perspective and brings into relief what separates him from the more militant literary personalities of his day...Camus's voice has never been more personal. —The New York Times Book Review

The Development of Albert Camus's Concern for Social and Political Justice Mark Orme,2007 Chronological in character, the book seeks to evaluate the evolution of Camus's lifelong preoccupation with sociopolitical justice, as expressed in a range of nonfictional genres (essays, journalism, articles, speeches, notebooks, and personal correspondence), where the writer's own concerns come directly to the fore..

French XX Bibliography William J. Thompson,2006-09 Provides a listing available of books, articles, and book reviews concerned with French literature since 1885. This work is a reference source in the study of modern French literature and culture. The bibliography is divided into three major divisions: general studies, author subjects (arranged alphabetically), and cinema.

"Ces forces obscures de l'âme" Christine Margerrison,2008-01-01 This is the first major investigation of Camus's prose fiction to explore the developing presentation of women, from the author's earliest writings to his last, unfinished novel. Avoiding the traditional relegation of this subject to an emotional or private sphere, it traces Camus's intellectual development in order to demonstrate the centrality of this subject to Camus's work as a whole. If the Absurd, constructed over the body of the "real" woman, liberates the writer to follow a "true path" of literary creation, the impending loss of his Algerian homeland impells a return to "all that he had not been free to choose", the ties of blood. These conflictual and

unresolved ties are here investigated, in conjunction with the presentation of mythical female figures expressing Camus's darkest fears, partly voiced in other writings, concerning that "other" Algeria for which he would never fight. Exploring complex interconnections between sexuality, "race" and colonialism, this volume is pertinent to all who are interested in the writings of Camus, particularly those seeking relevant new ways of approaching his work.

In Search of Roots Judy Ann Davis, 1995

Albert Camus in the 21st Century, 2008-01-01 In the first decade of a new century, this collection of bilingual essays examines Camus's continuing popularity for a new generation of readers. In crucial respects, the world Camus knew has changed beyond all recognition: decolonization, the fall of the Iron Curtain, a new era of globalization and the rise of new forms of terrorism have all provoked a reconsideration of Camus's writings. If the Absurd once struck a particular chord, Meursault is as likely now to be seen as a colonial figure who expresses the alienation of the settler from the land of his birth. Yet this increasing orthodoxy must also take account of the reasons why a new community of Algerian readers have embraced Camus. Equally, once isolated because of his anti-Communist stance, Camus has been taken up by disaffected members of the Left, convinced that new forms of totalitarianism are abroad in the world. This volume, which ranges from interpretations of Camus's literary works, his journalism and his political writings, will be of interest to all those seeking to re-evaluate Camus's work in the light of ethical and political issues that are of continuing relevance today.

Writing Marginality in Modern French Literature Edward J. Hughes, 2001-04-23 Writing Marginality in Modern French Literature, first published in 2001, explores how cultural centres require the peripheral, the outlawed and the deviant in order to define and bolster themselves. It analyses the hierarchies of cultural value which inform the work of six modern French writers: the exoticist Pierre Loti; Paul Gauguin, whose *Noa Noa* enacts European fantasies about Polynesia; Proust, who analyses such exemplary figures of exclusion and inclusion as the homosexual and the xenophobe; Montherlant, who claims to subvert colonialist values in *La Rose de sable*; Camus, who pleads an alienating detachment from the cultures of both metropolitan France and Algeria; and Jean Genet. Crucially Genet, who was typecast as France's moral pariah, in charting Palestinian statelessness in his last work, *Un Captif amoureux* (1986), reflects ethically on the dispossession of the Other and the violence inherent in the West's marginalization of cultural difference.

Performing the Pied-Noir Family Aoife Connolly, 2020-10-16 The impact of the Algerian War (1954-1962) continues to resonate in France, where the subject was long repressed in the collective psyche. This book sheds new light on a memory community at the heart of the conflict: the million European settlers known as the *pieds-noirs*, who migrated to France as the war reached its bloody end. Aoife Connolly draws on theories of performativity to explore autobiographical and fictional narratives by the settlers in over 30 canonical and non-canonical works of literature and film produced from the colony's

imminent demise up to the present day. Connolly focuses on renewed attachment to the family in exile in a comprehensive analysis of settler masculinity, femininity, childhood, and adolescence that uncovers neglected representations, including homosexual and Jewish voices. Findings on the construction of a post-independence identity and collective memory have broader implications for communities affected by colonization and migration. Scholars of French Studies, Postcolonial Studies, Cultural Studies, Gender and Identity Studies, Memory Studies and Migration Studies will find this book particularly useful.

Writing French Algeria Peter Dunwoodie, 1998-11-26 Writing French Algeria is a groundbreaking study of the European literary discourse on French Algeria between the conquest of 1830 and the outbreak of the Algerian War in 1954. For the first time in English, this intertextual reading reveals the debate conducted within Algeria - and between colony and metropole - that aimed to forge an independent cultural identity for the European settlers. Through astute discussions of various texts, Peter Dunwoodie maps the representation of Algeria both in the dominant nineteenth-century discourse of Orientalism, via the *littérature d'escale* of writers such as Gautier or Fromentin, and in the colonial writing of Louis Bertrand, Robert Randau, and the 'Algerianists' who played a critical role in the construction of the new 'Algerian'. Dunwoodie shows how this ultimate construction relied on an extremely selective process which marginalized the indigenous people of the Maghreb in order to rediscover the country's 'Latin' roots. The book also focuses on the dialogism operative in the works of *École d'Alger* writers like Gabriel Audisio, Albert Camus, and Emmanuel Roblès, interrogating the way in which their voices countered the closure of those earlier strategies and yet still articulated the unresolvable dilemma of an inherently unstable and impermanent minority whose identity remained grounded in otherness.

The Blood of the Colony Owen White, 2021-01-12 The surprising story of the wine industry's role in the rise of French Algeria and the fall of empire. "We owe to wine a blessing far more precious than gold: the peopling of Algeria with Frenchmen," stated agriculturist Pierre Berthault in the early 1930s. In the last decades of the nineteenth century, Europeans had displaced Algerians from the colony's best agricultural land and planted grapevines. Soon enough, wine was the primary export of a region whose mostly Muslim inhabitants didn't drink alcohol. Settlers made fortunes while drawing large numbers of Algerians into salaried work for the first time. But the success of Algerian wine resulted in friction with French producers, challenging the traditional view that imperial possessions should complement, not compete with, the metropole. By the middle of the twentieth century, amid the fight for independence, Algerians had come to see the rows of vines as an especially hated symbol of French domination. After the war, Algerians had to decide how far they would go to undo the transformations the colonists had wrought—including the world's fourth-biggest wine industry. Owen White examines Algeria's experiment with nationalized wine production in worker-run vineyards, the pressures that resulted in the failure of that experiment, and the eventual uprooting of most of the country's vines. With a special focus on individual

experiences of empire, from the wealthiest Europeans to the poorest laborers in the fields, *The Blood of the Colony* shows the central role of wine in the economic life of French Algeria and in its settler culture. White makes clear that the industry left a long-term mark on the development of the nation.

Continental Drift Emily Apter, 1999-06 From xenophobic appropriations of Joan of Arc to Afro-futurism and cyberpunk, the national characters of the colonial era often seem to be dissolving into postnational and virtual subjects. In *Continental Drift*, Emily Apter deftly analyzes the French colonial and postcolonial experience as a case study in the erosion of belief in national destiny and the emergence of technologically mediated citizenship. Among the many topics Apter explores are the fate of national literatures in an increasingly transnational literary climate; the volatile stakes of Albert Camus's life and reputation against the backdrop of Algerian civil strife; the use of literary and theatrical productions to script national character for the colonies; belly-dancing and aesthetic theory; and the impact of new media on colonial and postcolonial representation, from tourist photography to the videos of Digital Diaspora. *Continental Drift* advances debates not just in postcolonial studies, but also in gender, identity, and cultural studies; ethnography; psychoanalysis; and performance studies.

France's Lost Empires Kate Marsh, Nicola Frith, 2011-01-01 This collection of essays investigates the fundamental role that the loss of colonial territories at the end of the Ancient Regime and post-World War II has played in shaping French memories and colonial discourses. In identifying loss and nostalgia as key tropes in cultural representations, these essays call for a re-evaluation of French colonialism as a discourse informed not just by narratives of conquest, but equally by its histories of defeat.

The Algerian War in Film Fifty Years Later, 2004-2012 Anne Donadey, 2020-10-07 The Algerian War in Film Fifty Years Later, 2004?-2012 examines the cultural, political, and aesthetic significance of narrative films made during the fiftieth-anniversary period of the war, between 2004 and 2012. This period was a fruitful one, in which film became a central medium generating varied representations of the war, and Anne Donadey argues that the fiftieth-anniversary film production contributed to France's move from a period of the return of the repressed to one of difficult anamnesis. Donadey provides a close analysis of twenty narrative films made during this period on both side of the Mediterranean, observing that while some films continue to center on the point of view of only one stake-holding group, a number of films open up new opportunities for multicultural French audiences to envision the war through the eyes of Algerian characters on-screen, and other films bring memories from various groups together in thoughtful articulations that represent the complexity of the situation. Donadey takes this analysis a step further to analyze what types of gendered representations emerge in these films, given the important participation of Algerian women in the revolutionary war. Scholars of Francophone studies, film, women's studies, and history will find this book particularly useful.

Gender. Nation. Text. Lorraine Kelly, Tina-Karen Pusse, Jennifer Wood, 2017 This collection explores the multifarious

manifestations of gender intrinsic to national ideologies, the use of gender in the construction and development of nation states, and the role of political, literary, and cinematographic discourses in cultural debates that define national and international borders in post-colonial societies. The selected essays focus primarily on Europe and Latin America and consider the implications of colonialism, dictatorship, and the transition to democracy on national identities as well as the deliberate use of gendered language and images in the development of discourses of hegemony, frequently used to underpin support for individual political regimes, or as a call to arms to defend national patrimony.
