**On Political Economists and Political Economy** Professor Geoffrey Harcourt, 2013-10-08 Included in this volume are papers which are recognized as some of the foundations of post-Keynesian Economics, analysing problems set in historical time and starting from 'real world' observations. The book reflects Geoff Harcourt's contribution to economic debate over more than three decades. It also includes intellectual biographies of some of the most prominent and leading unorthodox economists, such as Kenneth Boulding, Eric Russell and Lorie Tarshis.

**A Question of Commitment** Susan Lever, 2020-07-29 In the years since the Second World War, Australia has seen a period of literary creativity which outshines any earlier period in the nation's literary history. This creativity has its beginnings in the arguments and alignments which emerged at the end of the War, and the changes in perceptions of art and society which occurred during the fifties and early sixties. A Question of Commitment examines the attitudes of writers as diverse as James McAuley, Frank Hardy, Judith Wright, Patrick White and A. D. Hope, as they responded to a changing Australian society during the postwar years. Through their work and that of many others, it considers the debates about literary nationalism, the artistic politics of the Cold War, the threat of technology to art in the Atomic Age, and the nature of the writer's role in the new society. It documents the way in which the political commitments of some writers and the resistance to commitment of others were challenged by political and social changes of the late fifties. Susan McKernan's lively exploration of Australia's writers in a time of innovation provides the reader with the context needed to understand the creative choices they made and, in so doing, introduces wider intellectual and cultural issues which remain relevant to this day.

**When London Calls** Stephen Alomes, 1999-10-11 For thousands of young Australians the tearful dockside farewell was a rite of passage as they boarded ships bound for London. For some the journey was an extended holiday, but for many actors, painters, musicians, writers and journalists, leaving Australia seemed to be the only path to personal and professional fulfilment. This book, first published in 2000, is a collective biography of those people who found themselves categorised as expatriates - people such as Leo McKern, Dame Joan Sutherland, Barry Tuckwell, Don Banks, Phillip Knightley, John Pilger, Peter Porter, Richard Neville, Jill Neville and 'megastars' Barry Humphries, Germaine Greer and Clive James. The book tells of choices they made about career and country, yet it is also a cultural history that traces shifts in the complex relationship between Australia and Britain, as the supposed colonial backwater began to develop its own cultural identity.

The Offensive Art Leonard Freedman,2008-11-30 The Offensive Art is an arch and sometimes caustic look at the art of political satire as practiced in democratic, monarchical, and authoritarian societies around the world over the past century-together with the efforts by governmental, religious, and corporate authorities to suppress it by censorship, intimidation, policy, and fatwa. Examples are drawn from the full spectrum of satiric genres, including novels, plays, verse, songs, essays, cartoons, cabarets and revues, movies, television, and the Internet. The multicultural and multimedia breadth and historical depth of Freedman's comparative approach frames his novel assessment of the role of political satire in today's post-9/11 world, and in particular the cross-cultural controversies it generates, such as the global protests against the Jyllands-Posten cartoons. In a tongue-in-cheek style peppered with the world's best one-liners from the last century, The Offensive Art recounts the acrimonious and often perilous cat-and-mouse games between political satirists and their censors and inhibitors through the last century in America (especially FDR, LBJ, Nixon, Reagan, Clinton, and Bush II and in wartime), Britain (especially Churchill, Thatcher, Blair and the Royals), Germany (Hitler to the present), Russia (Stalin to the present), China (Mao to the present), India (from the Raj on), and the Middle East (from 1920s Egypt to today). Freedman focuses on the role and transformation of satire during shifts from authoritarian to democratic systems in such places as South Africa, Argentina, and Eastern Europe. He surveys the state of satire throughout the world today, identifying the most dangerous countries for practitioners of the offensive art, and presents his findings as to the political efficacy of satire in provoking change.

*Being Christian after Christendom* David Rietveld,2023-04-12 The social landscape has radically changed over the past fifty years. Christians were once respected, sought out, and trusted. Now we are blamed, marginalized, and viewed with suspicion. In this book, David Rietveld explains what, how, and why this has happened, in a way that the average person can understand. He begins with Christendom, where both Christians and non-Christian held shared beliefs and values. He explains the church's role, and how evangelism and discipleship worked in that era. He then tracks the changes that have occurred and clarifies what and why things are now different. Insightful, broad explanations are illustrated by real-life examples, and woven together so that readers can see the patterns in the new twenty-first-century Western landscape. If you are seeking a thoughtful overview of what is going on in our world and how this relates to being a Christian in a local church, this book is a great introduction.

*The Newspapers Handbook* Richard Keeble,2006-06-28 The Newspapers Handbook is the first comprehensive guide to the job of the newspaper reporter. It offers advice on a range of different types of newspaper writing, looks at how newspapers cover events and shows how reporting styles can differ in mainstream and non-mainstream newspapers. In this new edition, Richard Keeble explores the theoretical, moral and political dimensions of a journalist's job and examines changing newspaper ownership structures and recent ethical controversies.

**Sir Frank Packer** Bridget Griffin-Foley,2014-03-19 Legendary media baron Sir Frank Packer was pugnacious, autocratic

and always controversial. After joining forces with Labor politician E.G. Theodore to establish Australian Consolidated Press and the Women's Weekly in the 1930s, his empire grew to encompass newspapers, magazines and the Nine television network.

A Concise History of Australia Stuart Macintyre, 2016 This fourth edition investigates the key factors - social, economic and political - that continue to shape modern-day Australia.

**Australian Liberals and the Moral Middle Class** Judith Brett, 2003-11-06 The Liberal Party of Australia was late to form in 1945, but the traditions and ideals upon which it is founded have been central to Australian politics since Federation. This 2003 book, by award-winning author and leading Australian political scientist Judith Brett, provides the very first complete history of the Australian liberal tradition, and then of the Liberal Party from the second half of the twentieth century. The book sparkles with insight, particularly in its sustained analysis of the shifting relationships between the experiences of the moral middle class and Australian liberals' own self understandings. It begins with Alfred Deakin facing the organised working class in parliament and ends with John Howard, electorally triumphant but alienated from key sections of middle class opinion. This book is destined to become the definitive account of Australian liberalism, and of the Liberal Party of Australia.

*Cultures and Disasters* Fred Krüger, Greg Bankoff, Terry Cannon, Benedikt Orłowski, E. Lisa F. Schipper, 2015-04-24 Why did the people of the Zambesi Delta affected by severe flooding return early to their homes or even choose to not evacuate? How is the forced resettlement of small-scale farmers living along the foothills of an active volcano on the Philippines impacting on their day-to-day livelihood routines? Making sense of such questions and observations is only possible by understanding how the decision-making of societies at risk is embedded in culture, and how intervention measures acknowledge, or neglect, cultural settings. The social construction of risk is being given increasing priority in understand how people experience and prioritize hazards in their own lives and how vulnerability can be reduced, and resilience increased, at a local level. *Culture and Disasters* adopts an interdisciplinary approach to explore this cultural dimension of disaster, with contributions from leading international experts within the field. Section I provides discussion of theoretical considerations and practical research to better understand the important of culture in hazards and disasters. Culture can be interpreted widely with many different perspectives; this enables us to critically consider the cultural boundedness of research itself, as well as the complexities of incorporating various interpretations into DRR. If culture is omitted, related

issues of adaptation, coping, intervention, knowledge and power relations cannot be fully grasped. Section II explores what aspects of culture shape resilience? How have people operationalized culture in every day life to establish DRR practice? What constitutes a resilient culture and what role does culture play in a society's decision making? It is natural for people to seek refuge in tried and trust methods of disaster mitigation, however, culture and belief systems are constantly evolving. How these coping strategies can be introduced into DRR therefore poses a challenging question. Finally, Section III examines the effectiveness of key scientific frameworks for understanding the role of culture in disaster risk reduction and management. DRR includes a range of norms and breaking these through an understanding of cultural will challenge established theoretical and empirical frameworks.

*Fred Schepisi* Tom Ryan,2017-03-31 In the New Yorker, Stephen Schiff has described Fred Schepisi (b. 1939) as “probably the least-known great director working in the mainstream American cinema—a master storyteller with a serenely muscular style that can make more flamboyant moviemakers look coarse and overweening.” Schepisi’s launch in Australia during the country’s film renaissance of the 1970s and his ongoing international work have rightfully earned him a reputation as an actors’ director. But he has also become a skillful stylist, forging his own way as he works alongside a talented team of collaborators. This volume includes twenty interviews with Schepisi and two with longtime collaborators, cinematographer Ian Baker and composer Paul Grabowsky. The interviews trace the filmmaker’s career from his beginnings in advertising, through his two early Australian features—*The Devil’s Playground* and *The Chant of Jimmie Blacksmith*—to his subsequent work in the United States and beyond on films as various as *Plenty*, *Roxanne*, *A Cry in the Dark*, *The Russia House*, *Six Degrees of Separation*, *Empire Falls*, *Last Orders*, and *Eye of the Storm*. Schepisi’s films are diverse thematically and visually. In what is effectively a master class on film direction, Schepisi discusses his creative choices and his work with actors and collaborators behind the scenes. In the process, he provides a goldmine of insights into his films, his filmmaking style, and what makes him tick as an artist.

**Settling Day** Kate Howarth,2015-04-01 Kate Howarth's extraordinary life continues in *Settling Day*, which follows on from *Ten Hail Marys*, Howarth's memoir that chronicled her volatile upbringing and the fight to save her son from the forced

adoption practices of the time. Thrust out of her son's life while he is still a toddler, teenaged Kate has to rely on her wits and courage to start life anew. Filled with remorse and an unwavering determination to be reunited with her son, Kate begins a journey as she fights injustice and prejudice to create a better life. She amasses a fortune helping build one of Australia's most successful recruitment companies, only to lose it all in a contentious legal battle. Kate once again manages to rebuild her life after a major injury, but is always haunted by her lost son. *Settling Day* is a remarkable story of resilience that highlights the still prevalent injustices that many women face at work and at home.

Finding a Role? Brian Harrison, 2011-09-09 In 1970 the 'cold war' was still cold, Northern Ireland's troubles were escalating, the UK's relations with the EEC were unclear, and corporatist approaches to the economy precariously persisted. By 1990 Communism was crumbling world-wide, Thatcher's economic revolution had occurred, terrorism in Northern Ireland was waning, 'multi-culturalism' was in place, family structures were changing fast, and British political institutions had become controversial. Seven analytic chapters pursue these changes and accumulate rich detail on changes in international relations, landscape and townscape, social framework, family and welfare structures, economic policies and realities, intellect and culture, politics and government. The concluding chapter ranges chronologically even more widely to bring out the interaction of past and present, then asks how far the UK had by 1990 identified its world role. Like Harrison's *Seeking a Role: The United Kingdom 1951-1970* (2009) - the immediately preceding volume in this series - *Finding a Role?* includes a full chronological table and an ample index of names and themes. This, the first thorough, wide-ranging, and synoptic study of the UK so far published on this period, has two overriding aims: to show how British institutions evolved, but also to illuminate changes in the British people: their hopes and fears, values and enjoyments, failures and achievements. It therefore equips its readers to understand events since 1990, and so to decide for themselves where the UK should now be going.

*The Words That Made Australia* Chris Feik, Robert Manne, 2014-02-26 This is not a book of documents, snippets or worthy speeches. Instead it presents the original essays and the moments of insight that told us what Australia is and could be. These are the essential statements - from historians, reporters, novelists, mavericks and visionaries - that take us from Federation to the present-day, and tell a story of national self-discovery. There is the Frenchman who saw that Australia was a 'workingman's paradise', and the historian who explained why. The two reporters who realised the true significance of Gallipoli and conveyed it to the nation. Russel Ward on the Australian Legend, Robin Boyd on the Australian Ugliness, Donald Horne on the Lucky Country, W.E.H. Stanner on the Great Australian Silence and Anne Summers on Manzone Country. Real Matildas, Cultural Cringers, Future Eaters and Forgotten People - and much more. Memorably written and cohesive, this is the essential sourcebook of the words that made Australia.

**The Rise of the Hispanic Market in the United States** Louis E. V. Nevaer, 2015-06-03 Not only are Hispanics the largest minority group in the United States, but Mexico is fast becoming our major trading partner, surpassing even Japan. In fact, the U.S. now has the fourth largest Spanish-speaking population in the world, after Mexico, Spain, and Argentina. How has this demographic group transformed the U.S. into a bi-lingual nation within the span of a generation? Why do Hispanics resist assimilation and insist on speaking Spanish in public life? And how can businesses effectively reach the emerging Hispanic consumer market with its estimated purchasing power of USD1 trillion by 2010? These questions constitute the single-most important marketing challenge for corporate America in the twenty-first century. This book examines the Hispanic worldview and how it informs people's economic decisions, both in the United States and across North America. It challenges the viewpoint that American culture will soon dominate its NAFTA trading partners, looks carefully at the market for Hispanic goods in the U.S. and the market for our goods throughout the Spanish-speaking world, and shows how marketers are now reaching the Hispanic community domestically. The information and insights found here are essential for teachers, students, and professionals in the fields of international finance and world trade, as well as almost all areas of business, marketing, and strategic planning.
