New Korean Cinema Darcy Paquet,2010-04-26 New Korean Cinema charts the dramatic transformation of South Korea's film industry from the democratization movement of the late 1980s to the 2000s new generation of directors. The author considers such issues as government censorship, the market's embrace of Hollywood films, and the social changes which led to the diversification and surprising commercial strength of contemporary Korean films. Directors such as Hong Sang-soo,

Kim Ki-duk, Park Chan-wook, and Bong Joon-ho are studied within their historical context together with a range of films including *Sopyonje* (1993), *Peppermint Candy* (1999), *Oldboy* (2003), and *The Host* (2006).

From Deterrence to Engagement Terence Roehrig, 2006-02-20 *From Deterrence to Engagement* provides a comprehensive examination of the U.S.-South Korea defense relationship from 1945 to the present. Using deterrence theory as its framework, this work explores the evolving nature of U.S. interests in a region that became a focal point only after the North Korean invasion in 1950. Author Terence Roehrig addresses the changing nature of the threats to U.S. interests in Korea, especially North Korea's buildup and its efforts to acquire nuclear weapons, and examines specific measures utilized by the United States to implement its deterrence policy. While U.S. policy regarding Korea has changed over the years, this timely and important work argues that although the U.S. commitment to protect its ally has been credible and effective the same cannot be said for its attempts to prevent North Korean nuclear proliferation. *From Deterrence to Engagement* is certain to find an audience amongst scholars of defense policy, national security, and Korean security relations.

Dress History of Korea Kyunghye Pyun, Minjee Kim, 2023-04-20 Bringing together a wealth of primary sources and with contributions from leading experts, *Dress History of Korea* presents the most recent approaches to the interpretation of dress and fashion of Korea. Through close analysis of visual, written, and material sources—some newly excavated or recently re-discovered in global museums—the book reveals how dress and adornment evolved from the period of state formation to the modern era. Authors with a range of academic and curatorial experience discuss the close relation of dress and adornments to the socio-political and cultural history of Korea and place the dress history of Korea within broader contexts in studies of fashion, material culture, museology, and costume design. As in other cultures, modern Korean fashion owes many of its styles to historic dress and this process of adaptation is explored within high fashion and popular culture contexts in ways that benefit historians, curators, and designers alike. With key materials newly available to global readers, *Dress History of Korea* is the indispensable guide to the study of Korean dress and fashion.

The Korean War Bruce Cumings, 2011-07-12 *A BRACING ACCOUNT OF A WAR THAT IS EITHER MISUNDERSTOOD, FORGOTTEN, OR WILLFULLY IGNORED* For Americans, it was a discrete conflict lasting from 1950 to 1953. But for the Asian world the Korean War was a generations-long struggle that still haunts contemporary events. With access to new evidence and secret materials from both here and abroad, including an archive of captured North Korean documents, Bruce Cumings reveals the war as it was actually fought. He describes its origin as a civil war, preordained long before the first shots were fired in June 1950 by lingering fury over Japan's occupation of Korea from 1910 to 1945. Cumings then shares the neglected history of America's post-World War II occupation of Korea, reveals untold stories of bloody insurgencies and rebellions, and tells of the United States officially entering the action on the side of the South, exposing as never before the appalling massacres and atrocities committed on all sides. Elegantly written and blisteringly honest, *The Korean War* is, like

the war it illuminates, brief, devastating, and essential.

The Korean Conundrum Ted Galen Carpenter, Doug Bandow, 2015-03-31 The US seems to be heading directly toward a confrontation with North Korea as Koreans in the south, and nations around the world, anxiously witness mounting tension. Carpenter and Bandow take a look at the twin crises now afflicting US policy in East Asia: the reemergence of North Korea's nuclear weapons program and the growing anti-American sentiment in South Korea. They question whether Washington's East Asia security strategy makes sense with the looming prospect of US troops stationed in South Korea becoming nuclear hostages. Carpenter and Bandow put forth the most provocative solution yet to this gnarled and dangerous situation.

Korean Society Charles Armstrong, Charles K Armstrong, 2006-11-22 Conceptually innovative, up-to-date and timely, the new edition of this successful text examines Korea as one of the most dramatic cases in the world of ordinary citizens participating in the transformation of politics.

Koreans in the Hood Kwang Chung Kim, 1999-07-06 Conflict between Korean Americans and African Americans attracted national attention in the aftermath of the 1992 Rodney King trial in Los Angeles. The news media seized upon the violent riots and depicted Korean shop owners as gun-wielding exploiters of the African American poor. Absent from the barrage of media coverage was the Korean American point of view and experience of the inner city economy and racial relations. This new volume of essays written largely by Korean American scholars adds substantially to our understanding of interracial, multiethnic conflict by examining relations between the Korean American and African American communities in three major American cities: Los Angeles, Chicago, and New York. Edited by sociologist Kwang Chung Kim, the book brings together similar yet contrasting studies of Korean American and African American conflict. Korean Americans find themselves economically powerful, but weak politically. African Americans, however, wield considerable political clout even though they may have little economic power. *Koreans in the Hood* offers the Korean American perspective on coexisting with African Americans in some of the poorest areas of American cities. Each chapter focuses on a particular city and experience, offering a unique opportunity for inter-city comparison as the contributors explore three overt forms of Korean American and African American confrontation: interpersonal dispute, boycott, and mass violence. The first part of the book examines Korean American experience of the conflict in Los Angeles. It then details the social, political, and economic tensions arising from the African American boycott of Korean fruit and vegetable merchants in New York. The final chapters concern the Korean American experience of conflict in Chicago. Throughout, the authors rely on empirical data and seek to trace the roots of conflict, the consequences, and future directions of relations between the two groups. What emerges is an unique account of Korean Americans caught between the poor African American population and the larger, more affluent white population.

The North Korean Army Fyodor Tertitskiy, 2022-09-27 This book focuses on the Korean People's Army (KPA) - the armed forces of North Korea - covering its history, structural organisation and lives of the soldiers and officers within its ranks. Utilising extensive Korean, English, Russian and Chinese language sources, as well as multiple interviews with people who have served in the KPA, this book provides an illuminating insight into the experience of KPA personnel. It presents fascinating and detailed examples of everyday life in the KPA, such as the systems of discipline and reprimands, the experience of women in the army, typical salaries and daily food allowances. The book also succinctly traces the history of the KPA from its foundation under the guidance of the Soviet Union and the experiences of the Korean War, through to the

current iteration under Kim Jong-un. This pioneering work will be of huge interest to students and scholars of North Korea, the Cold War, Military Studies and Communism.
