Eco 7 Michael Robertson, 2012-11 Have you ever been confused when people talk about sustainable living? Do you want to know about the real Holy Land, the one that doesn't get shown on the news? Ever wondered what living in a communal village would really be like? In September of 2011, the author went to Israel to answer all these questions for himself. Eco 7: Zionists, Green Freaks, and Hasidic Hippies is the insightful and inspiring memoir of his five months on the Hava-ve-Adam Ecological farm in central Israel. Along the way, he does indeed meet Zionists, green freaks, and Hasidic hippies, and he learns from sometimes painful experience the fine art of vagabonding in a foreign country. Over time, he comes to understand the true meaning of not just permaculture but also family and community. Far from being a war-torn military

state, this book shows an Israel that is alive and ever-changing, as well as a study in contrasts, through the eyes of one who was there.

A man-made or natural global disaster could strand you for months, years, or forever with no electricity, no water from the taps, no grocery stores, no city services, and no government. Further, you'll be surrounded by countless others who didn't prepare—the very same people who mock survivalists by calling them paranoid pessimists and worse. But survivalists are the ultimate optimists. They believe that they will succeed—no matter what happens to the rest of the world—if only they can assemble the right supplies and learn the right survival techniques. Author Jim Ballou introduces you to the essential skills and mind-set you will need to survive a complete, long-term shift in the way the world operates. He tells you what items you need to assemble now and what skills will be priceless later. Learn how to assemble a survival workshop, recycle and salvage everything, develop survival bartering skills, prepare and store caches, and much, much more. More than a blueprint for bad times ahead, this informative guide may inspire you to attain a new level of self-sufficiency. If knowledge is power, then you have access to unlimited power right now. You Can Survive! Jere Franklin, 2018-06-28 A plea appears in USA Today from a concerned young father: “Does anyone care anymore? Will someone please, please help me save my son?” —Edward Moats, Tarpon Springs, FL. A young boy leaves a message: “Hey! This is an 11-year-old kid named Jacob. One of my friends was driving by and found this book on the ground. They picked it up. It said You Can Survive! by Jere Franklin. They gave me the book. I have read this book over, and over, and over. It just speaks to me. There's a lot of problems going on in my family ... like ... my Dad is gone ... and other stuff [obvious emotional turmoil in Jacob's unsteady voice ending in a heavy sigh]. I just wanted to thank you for your book. It really means a lot to me.” If there was a plan whereby you could avoid most disasters, wouldn't you want to know about it? If you would, then you need to read this book. It includes chapters on the joys of country living, medical preparation for the end time, wilderness survival, log cabin building, a garden-to-kitchen cookbook, a financial plan, and inspirational stories of faith. In the near future, this information will be invaluable. “Any reader who applies himself diligently to this book will be rewarded and uplifted. A sincere and practical outline for survival and revival.” —Lincoln Steed, Editor, Liberty magazine.

Primal Nate Summers, Jon Young, 2019-09-19 TV survival shows and survival schools are more popular than ever; Paleo diets are proving to be more than just a passing trend; and free-range parenting is gaining steady momentum. So in an age when living in a modern society often equates to comfort and ease, why is it that we are so interested in these primal aspects of being human when they are no longer really necessary? Why are we still so fascinated with making fire or stone tools in this social media-driven digital age? Why are we urging our children to run back out into the wild? The answer to all of these questions—to why we seek out the natural world—stares us in the mirror every day: We long to fulfill our natural destiny as upright-walking hunter-gatherer-nomads. It's who we are. *Primal* explores the natural human desire—the primal desire—to fulfill our original design. From the telling of anecdotes and stories from author Nate Summer's twenty years as a survival specialist to conversations with world-renown survival and human nature specialists to digging into the rewilding and free-range parenting trends, Nate explores how humans have—and continue to—pursue “survival” situations to fulfill their deep, soulful longings.
