The Procaccini and the Business of Painting in Early Modern Milan Angelo Lo Conte, 2020-12-30 The book investigates the lives and careers of the Procaccini brothers: Camillo (1561-1629), Carlo Antonio (1571-1631) and Giulio Cesare (1574-1625), the most important family of painters working in northern Italy at the start of the seventeenth century. The Procaccinis' work is here analysed by interconnecting their individual stories and understanding their success as the combination of mutual artistic choices, a high level of specialization and precise business organization. The book looks at this family of painters as entrepreneurs, emphasizing their conscious response to the requests of public and private patrons, as well as their ability to balance instances of originality and imitation in an era characterized by a wide range of artistic opportunities, including religious commissions, national and international patronage and multifaceted markets. This book will be of interest to scholars studying art history, early modern studies, the art market, Italian studies and Italian history.

El Greco - The Cretan Years Nikolaos M. Panagiotakes, translated by John C. Davis, 2016-12-05 Exploring all the available sources, this study, which until now was only available in Greek, presents us with an account of El Greco's life up to the time he left Crete for Italy in 1567 at the age of twenty-six, already an accomplished professional painter. Nikolaos Panagiotakes provides a thorough assessment of earlier research on Crete of the 16th century then goes on to present new conclusions on the life of El Greco deriving from the author's firsthand reading of Venetian archive material, including questions relating to his birthplace, family, name, religious affiliation, and apprenticeship as a painter. The evidence

indicates that El Greco was an established professional 'master painter' earlier than had previously been thought and also that he had a family before leaving Crete, thus perhaps explaining why he did not later marry Jerónima de las Cuevas, with whom he had a son in Toledo. This work marks a valuable contribution to El Greco scholarship, particularly in its thoroughly substantiated assessment of the evidence regarding the formative years in the life of El Greco, one of the greatest of all European artists.

Encyclopedia of Italian Renaissance & Mannerist Art: Abacco to Lysippus Jane Turner, 2000 The two alphabetically arranged volumes cover all of the major artistic developments in Italy from c.1300 to c.1600, a period that marks the Renaissance of the humanistic spirit of classical antiquity. All three periods of the Renaissance are covered: early, high and late.

Apostolic Iconography and Florentine Confraternities in the Age of Reform Douglas N. Dow, 2017-07-05 Focusing on artists and architectural complexes which until now have eluded scholarly attention in English-language publications, Apostolic Iconography and Florentine Confraternities in the Age of Reform examines through their art programs three different confraternal organizations in Florence at a crucial moment in their histories. Each of the organizations that forms the basis for this study oversaw renovations that included decorative programs centered on the apostles. At the complex of Gesù Pellegrino a fresco cycle represents the apostles in their roles as Christ's disciples and proselytizers. At the oratory of the company of Santissima Annunziata a series of frescoes shows their martyrdoms, the terrible price the apostles paid for their mission and their faith. At the oratory of San Giovanni Battista detto dello Scalzo a sculptural program of the apostles stood as an example to each confratello of how Christian piety had its roots in collective effort. Douglas Dow shows that the emphasis on the apostles within these corporate groups demonstrates how the organizations adapted existing iconography to their own purposes. He argues that their willful engagement with apostolic themes reveals the complex interaction between these organizations and the church's program of reform.

Andrea del Sarto Julian Brooks, Denise Allen, Xavier F. Salomon, 2015-06-23 The great Renaissance artist Andrea del Sarto (1486-1530) rivals Leonardo da Vinci as one of history's most accomplished draftsmen. Moving beyond the graceful elegance of his contemporaries, such as Raphael and Fra Bartolommeo, he brought unprecedented realism to his drawings through the rough and rustic use of chalk in his powerfully rendered life and compositional studies. With an immediacy few other Renaissance artists possess, del Sarto's work has proven to be inspirational and compelling to later audiences, with admirers such as Degas and Redon. This lavishly illustrated book reveals del Sarto's dazzling inventiveness and creative process, presenting fifty core drawings on paper together with a handful of paintings. The first publication to look to del Sarto's working practice through a close examination of his art from across all the world's major collections, this volume analyzes

new studies of his panel underdrawings as well. The depth and breadth of its research make this book an important contribution to the study of del Sarto and Florentine Renaissance workshop practice. This volume is published to accompany an exhibition on view at the J. Paul Getty Museum from June 23 through September 13, 2015, and at the Frick Collection in New York from October 6, 2015, though January 10, 2016.

Caravaggio Sybille Ebert-Schifferer,2012-06-05 The young Michelangelo Merisi da Caravaggio (1571–1610) created a major stir in late-sixteenth-century Rome with the groundbreaking naturalism and highly charged emotionalism of his paintings. One might think, given the vast number of books that have been written about him, that everything that could possibly be said about the artist has been said. However, the author of this book argues, it is important to take a fresh look at the often repeated and widely accepted narratives about the artist's life and work. Sybille Ebert-Schifferer subjects the available sources to a critical reevaluation, uncovering evidence that the efforts of Caravaggio's contemporaries to disparage his character and his artwork often sprang from their own cultural biases or a desire to promote the artistic achievements of his rivals. Contrary to repeated claims in the literature, the painter lacked neither education nor piety, but was an extremely accomplished technician who developed a successful marketing strategy. He enjoyed great respect and earned high fees from his prestigious clients while he also inspired a large circle of imitators. Even his brushes with the law conformed to the behavioral norms of the aristocratic Romans he sought to emulate. The beautiful reproductions of Caravaggio's paintings in this volume make clear why he captivated the imagination of his contemporaries, a reaction that echoes today in the ongoing popularity of his work and the fierce debate that it continues to provoke among art historians.
