Issues in Islamic Law MashoodA. Baderin,2017-07-05 Islamic substantive law, otherwise called branches of the law (furu? al-fiqh), covers the textual provisions and jurisprudential rulings relating to specific transactions under Islamic law. It is to Islamic substantive law that the rules of Islamic legal theory are applied. The relationship between Islamic legal theory and Islamic substantive law is metaphorically described by Islamic jurists as a process of ?cultivation? (istithmar), whereby the qualified jurist (mujtahid), as the ?cultivator?, uses relevant rules of legal theory to harvest the substantive law on specific issues in form of ?fruits? (thamarat) from the sources. The articles in this volume engage critically with selected substantive issues in Islamic law, including family law; law of inheritance; law of financial transactions; criminal law; judicial procedure; and international law (al-siyar). These areas of substantive law have been selected due to their contemporary relevance and application in different parts of the Muslim world today. The volume features an introductory overview of the subject as well as a comprehensive bibliography to aid further research.

Child Marriage in Türkiye Esra Bayhantopçu,2024-04-18 This book provides a critical examination of the problem of

underage marriage in Türkiye through a sociological perspective considering gender perceptions, cultural norms, and historical and political contexts. The author conducts a comprehensive analysis of the problem by focusing on the lived experiences and narratives of women who married before the age of 18. Face-to-face, in-depth, and semi-structured interviews were conducted with 22 women who married at a child age to identify the causes and consequences of the marriage of underage girls and to explore how these women perceive both their own identities and the broader issue of child marriage. Employing critical discourse analysis, the author scrutinizes these interviews through the theoretical lenses of gender, identity, and ideology, all while remaining attuned to feminist perspectives. These combined methodologies allow the author to reveal the hidden dimensions of the problem, examining the feelings, stories, behaviours, and beliefs of real women who have married as children. Finally, constructive solutions are proposed for the elimination of the child marriage problem, not only in Türkiye, but in countries across the world. The book will interest those working and studying in an array of fields, including sociology, gender studies, and Turkish culture and society, as well as anyone with a general interest in the problem of underage marriage.

Islam, Women's Sexuality and Patriarchy in Indonesia Irma Riyani, 2020-11-26 This book explores the intimate marital relationships of Indonesian Muslim married women. As well as describing and analysing their sexual relationships, the book also investigates how Islam influences discourses of sexuality in Indonesia, and in particular how Islamic teachings affect Muslim married women's perceptions and behaviour in their sexual relationships with their husbands. Based on extensive original research, the book reveals that Muslim women perceive marriage as a social, cultural, and religious obligation that they need to fulfil; that they realise that finding an ideal marriage partner is complicated, with some having the opportunity for a long courtship and others barely knowing their partner prior to marriage; and that there is a strong tendency, with some exceptions, for women to consider a sexual relationship in marriage as their duty and their husband's right. Religious and cultural discourses justify and support this view and consider refusal a sin (dosa) or taboo (pamali). Both

discourses emphasise obedience towards husbands in marriage.

Textbook on Muslim Law Rakesh Kumar Singh,

Islam on Trial Chawkat Moucarray, 2022-03-31 In an age of increased globalization, Islam has found itself in crisis.

Extremism, secularization, and ever-increasing encounters with the Christian gospel have raised fundamental questions about the nature of Islam, its development and the future of its relationship with the West. *Islam on Trial* addresses these questions while avoiding the pitfalls of either hostility or naivety. As an Arab Christian from the Middle East, Dr. Chawkat Moucarray has spent his life engaging with Islam both personally and academically. In this book, he provides non-Muslims with a foundation for understanding Muslim faith and practice, while offering insight into the complex relationship between Islam, culture, and politics. The author addresses key controversial theological issues and highlights shared common ground between Christianity and Islam. He challenges members of both religions to engage in genuine dialogue, built on mutual understanding and respect, and to work together for the common good of their societies.

Negotiating Homosexuality in Islam Mehrdad Alipour, 2024-05-13 To enrich the existing debates on Islam and sexual diversity, in the present book, I seek the potential discursive spaces on homosexuality in modern Imāmī legal debates. I have undertaken this research on the thesis that modern Imāmī legal tradition on homosexuality is more flexible and dynamic than one might expect. To address this essential issue, I build the study around the following constructive question: what are the discursive spaces on homosexuality in contemporary reflections within modern Shi'i legal scholarship? Responding to this central query, the study is premised on the notion that Imāmī legal sources consist of a tradition of sacred (textual) sources, intellectual reasoning, a vast stockpile of (often contrasting) interpretations of these sources, and a distinguished methodological repertoire called *ijtihād*. Following the same methodology, in this work, I describe, analyse, and critique such textual-exegetical and intellectual-rational discursive aspects concerning homosexuality.

Sociology of Indian Society CN Shankar Rao, 2004-09 The revision comes 10 years after the first edition and completely overhauls the text not only in terms of look and feel but also content which is now contemporary while also being timeless. A large number of words are explained with the help of examples and their lineage which helps the reader understand their individual usage and the ways to use them on the correct occasion.
