**The matter of miracles** Helen Hills, 2021-02-02 This book investigates baroque architecture through the lens of San Gennaro's miraculously liquefying blood in Naples. This vantage point allows a bracing and thoroughly original rethink of the power of baroque relics and reliquaries. It shows how a focus on miracles produces original interpretations of architecture, sanctity and place which will engage architectural historians everywhere. The matter of the baroque miracle extends into a rigorous engagement with natural history, telluric philosophy, new materialism, theory and philosophy. The study will transform our understanding of baroque art and architecture, sanctity and Naples. Bristling with new archival materials and historical insights, this study lifts the baroque from its previous marginalisation to engage fiercely with materiality and potentiality and thus unleash baroque art and architecture as productive and transformational.

**Geotechnical Engineering for the Preservation of Monuments and Historic Sites III** Renato Lancellotta, Carlo Viggiani, Alessandro Flora, Filomena de Silva, Lucia Mele, 2022-06-15 The conservation of monuments and historic sites is one of the most challenging problems facing modern civilization. It involves, in inextricable patterns, factors belonging to different fields (cultural, humanistic, social, technical, economical, administrative) and the requirements of safety and use appear to be (or often are) in conflict with the respect of the integrity of the monuments. The complexity of the topic is such that a shared framework of reference is still lacking among art historians, architects, structural and geotechnical engineers. The complexity of the subject is such that a shared frame of reference is still lacking among art historians, architects, architectural and geotechnical engineers. And while there are exemplary cases of an integral approach to each building element with its static and architectural function, as a material witness to the culture and construction techniques of the original historical period, there are still examples of uncritical reliance on modern technology leading to the substitution from earlier structures to new ones, preserving only the iconic look of the original monument. Geotechnical Engineering for the Preservation of Monuments and Historic Sites III collects the contributions to the eponymous 3rd International ISSMGE TC301 Symposium (Naples, Italy, 22-24 June 2022). The papers cover a wide range of topics, which include: - Principles of conservation, maintenance strategies, case histories - The knowledge: investigations and monitoring - Seismic risk, site effects, soil structure interaction - Effects of urban development and tunnelling on built heritage - Preservation of diffuse heritage: soil instability, subsidence, environmental damages The present volume aims at geotechnical engineers and

academics involved in the preservation of monuments and historic sites worldwide.

**The Shepherd of Hermas as Scriptura Non Grata** Robert D. Heaton, 2023-04-24 Composed within the first Christian century by a Roman named Hermas, the Shepherd remains a mysterious and underestimated book to scholars and laypeople alike. Robert D. Heaton argues that early Christians mainly received the Shepherd positively and accepted it unproblematically alongside texts that would ultimately be canonized, requiring decisive actions to exclude it from the late-emerging collection of texts now known as the New Testament. Freshly evaluating the evidence for its popularity in patristic treatises, manuscript recoveries, and Christian material culture, Heaton propounds an interpretation of the Shepherd of Hermas as a book meant to guide his readers toward salvation. Ultimately, Heaton depicts the loss of the Shepherd from the closed catalogue of Christian scriptures as a deliberate constrictive move by the fourth-century Alexandrian bishop Athanasius, who found it useless for his political, theological, and ecclesiological objectives and instead characterized it as a book favored by his heretical enemies. While the book's detractors succeeded in derailing its diffusion for centuries, the survival of the Shepherd today attests that many dissented from the church's final judgment about Hermas's text, which portends a version of early Christianity that was definitively overridden by devotion to Christ himself, rather than principally to his virtues.

**Taste of Naples** Marlena Spieler, 2023-06-14 "A love letter to the history, traditions and culinaria of one of the richest and most complex regions of Italy." —Stanley Tucci In other places, it might seem trite or cliché to say that love is an essential component of cooking, food, and dining. But in the shadow of a still-fuming Vesuvio, the love of everyday life is palpable in Naples: that passion for life is the spirit that guides Neapolitan cuisine. You can taste it in everything. In this tantalizing tour of the culture and cuisine of Napoli, Marlena Spieler reveals the tastes, sights, and sounds of the city and surrounding area (including its islands) in gorgeous detail. Using her own experiences and conversations with others, both tourists and residents alike, she offers us the rich history of this unique culture and cuisine. "Part travel guide, part cook's memoir, this charming little book delivers a true taste of a quirky, elusive city." —Barbara Fairchild, former editor-in-chief of *Bon Appetit* "This book ought to come with bread, to sop up the extra goodness sloshing over the sides." —Clark Wolf, author

of American Cheeses, restaurant consultant, food writer “Traipsing through the foodways of Naples with the legendary Marlena Spieler is pure joy.” —Tia Keenan, author of *The Art of the Cheese Plate* and cheese columnist for *The Wall Street Journal* “Marvelous to read and a joy to cook from.” —Julia della Croce, Italian food expert and James Beard award winning author of *Italian Home Cooking* “[Spieler’s] enthusiasm and knowledge will likely inspire travelers to Italy to add a stop on their trip.” —Publishers Weekly

Adaptive Reuse of Cultural Heritage Luigi Fusco Girard, Antonia Gravagnuolo, 2024-10-12 This open access book addresses the gap in existing knowledge on cultural heritage from a circular economy and sustainable development perspective for cities. It introduces innovative economic, environmental and governance models and evaluation tools tested and validated for adaptive reuse within the “CLIC - Circular models Leveraging Investments in Cultural Heritage Adaptive Reuse” project funded by the European Horizon 2020 Research & Innovation Action Program. The CLIC project is a trans-disciplinary research project bringing together expertise from disciplines such as heritage studies, regeneration and urban development, business management, economics, ecology and social sciences. The research covered in this book, responds to the European Societal Challenge 5 'Climate action, environment, resource efficiency and raw materials', aimed at achieving resource efficient and climate change resilient economy and society through systemic innovation. The CLIC project also unlocks public and private investments in solutions for a more resource efficient, greener and more competitive economy as a key part of smart, inclusive and sustainable growth strategy for Europe and worldwide. This book is fundamental key reading for scholars, professionals and policy makers, demonstrating how the adaptive reuse of cultural heritage, in a systemic perspective, has the potential to stimulate growth, sustainable development, social regeneration, welfare, jobs, income, and livability of urban / territorial settings: to implement the circular economy model. It also provides innovative models and a circular toolkit for financing, reusing and managing cultural heritage based on research outcomes and implementation of experimental models in four pilot European territories covered as case studies.

Mary and Early Christian Women Ally Kateusz, 2019-02-18 This book is open access under a CC BY-NC-ND license. This book reveals exciting early Christian evidence that Mary was remembered as a powerful role model for women leaders—women apostles, baptizers, and presiders at the ritual meal. Early Christian art portrays Mary and other women clergy serving as deacon, presbyter/priest, and bishop. In addition, the two oldest surviving artifacts to depict people at an altar table inside a real church depict women and men in a gender-parallel liturgy inside two of the most important churches in Christendom—Old Saint Peter's Basilica in Rome and the second Hagia Sophia in Constantinople. Dr. Kateusz's research brings to light centuries of censorship, both ancient and modern, and debunks the modern imagination that from the beginning only men were apostles and clergy.

You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. Can I fill out forms in a PDF

file? Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
