1,000 Books to Read Before You Die James Mustich, 2017-03-28 "The ultimate literary bucket list." —The Washington Post "If there's a heaven just for readers, this is it." —O, The Oprah Magazine Celebrate the pleasure of reading and the thrill of discovering new titles in an extraordinary book that's as compulsively readable, entertaining, surprising, and enlightening as the 1,000-plus titles it recommends. Covering fiction, poetry, science and science fiction, memoir, travel writing, biography, children's books, history, and more, *1,000 Books to Read Before You Die* ranges across cultures and through time to offer an eclectic collection of works that each deserve to come with the recommendation, You have to read this. But it's not a proscriptive list of the "great works"—rather, it's a celebration of the glorious mosaic that is our literary heritage. Flip it open to any page and be transfixed by a fresh take on a very favorite book. Or come across a title you always meant to read and never got around to. Or, like browsing in the best kind of bookshop, stumble on a completely unknown author and work, and feel that tingle of discovery. There are classics, of course, and unexpected treasures, too. Lists to help pick and choose, like *Offbeat Escapes*, or *A Long Climb, but What a View*. And its alphabetical arrangement by author assures that surprises await on almost every turn of the page, with Cormac McCarthy and *The Road* next to Robert McCloskey and *Make Way for*

Ducklings, Alice Walker next to Izaak Walton. There are nuts and bolts, too—best editions to read, other books by the author, “if you like this, you’ll like that” recommendations, and an interesting endnote of adaptations where appropriate. Add it all up, and in fact there are more than six thousand titles by nearly four thousand authors mentioned—a life-changing list for a lifetime of reading. “948 pages later, you still want more!” —THE WASHINGTON POST

George Meredith Stewart Marsh Ellis, 1920 George Meredith, 1828-1909, was an English novelist and poet of the Victorian era. This book is of particular interest to scholars interested in his early life, his relationships with his friends, his marriages, and of his work as a journalist. Discussions of his literary output are viewed partially through those relationships, which can be seen as chatter about Harriet, the book is, nevertheless, replete with quotations from people who knew him during all the phases of his life.

Improving Reading Comprehension of Self-Chosen Books Through Computer Assessment and Feedback Keith James Topping,2022-07-12 Schools around the world use online programs like Accelerated Reader and Reading Counts to improve students' reading comprehension of real books, but how can such software be used most effectively? In this unique resource, researcher Keith Topping analyzes independent research studies and brings you best practices on quality implementation to enhance effectiveness. He explains the evidence base for the programs in a comprehensible way and addresses many common questions, such as Does it work?, How should it be implemented to make it work?, and Is it cheaper and more efficient in teacher time than what we were doing before? He also discusses best practices for using the assessment data, for tailoring implementation in elementary vs. high schools, and for working with disadvantaged students. Appropriate for teachers, literacy coaches, curriculum leaders, and other stakeholders, the book will provide you with a strong research foundation and easily accessible information to help you fine-tune your understanding of the reading programs and implement them more successfully in your schools and classrooms.

Creating Critical Classrooms Mitzi Lewison,Christine Leland,Jerome C. Harste,2014-08-07 This popular text articulates a powerful theory of critical literacy—in all its complexity. Critical literacy practices encourage students to use language to question the everyday world, interrogate the relationship between language and power, analyze popular culture and media, understand how power relationships are socially constructed, and consider actions that can be taken to promote social justice. By providing both a model for critical literacy instruction and many examples of how critical practices can be enacted in daily school life in elementary and middle school classrooms, *Creating Critical Classrooms* meets a huge need for a practical, theoretically based text on this topic. Pedagogical features in each chapter • Teacher-researcher Vignette • Theories that Inform Practice • Critical Literacy Chart • Thought Piece • Invitations for Disruption • Lingering Questions New in the Second Edition • End-of-chapter Voices from the Field • More upper elementary-grade examples • New text sets

Reading Circles, Novels and Adult Reading Development Sam Duncan, 2012-02-23 Adult literacy teachers are constantly searching for effective, engaging and distinctly 'adult' ways to develop adult emergent reading and, for at least the past two hundred years, adults have formed themselves into reading circles to read and discuss novels on a weekly or monthly basis. Why then are reading circles rarely used, or studied, in formal adult literacy provision? This book explores adult reading development, novel reading and reading circles in the context of a wider examination of reading pedagogies and practices in the English-speaking world. It discusses reading as both an individual and a communal act and investigates the relationship between literature and literacy development, practice and pedagogy (including a reassessment of the controversial approaches of reading aloud and phonics for adults). Sam Duncan reviews a case study of an adult reading circle in a large London further education college and identifies the wider implications for the teaching and learning of adult emergent reading, for the use and understanding of reading circles and for how we understand the novel reading experience more broadly.
