The Horse in Australia Derek Ballantine,1976

**Barefoot in the Bindis** Angela Wales,2019-03-26 A circle of pine trees, a sagging wire fence, and a roof that was once painted red. 'There it is,' said Dad. In 1953, after doctors prescribed fresh country air for his health, Scottish-born Robert Wales uprooted his young family from the city life of Sydney and set out to establish a sheep farm in the bush. What he lacked in experience and expertise, he made up for in enthusiasm. Or so he hoped. When the family arrived on a lonely hill in northern New South Wales, they had no electricity, no running water, no telephone and no choice but to make that tangle of bush their home. From Angela Wales, eldest of the five kids, comes this extraordinarily vivid and evocative account of the next ten years as they tried to tame six thousand acres and navigate the challenges of country life. Filled with drama and hilarity, joy and back-breaking toil, Barefoot in the Bindis portrays a childhood spent in the bush, and is a sensational picture of Australia past.

Critical Geographies of Cycling Glen Norcliffe, 2016-03-09 Examining cycling from a range of geographical perspectives, this book uses historical and contemporary case studies to look at the history, politics, economy and culture of cycling. Pursuing a post-structural position in viewing understandings of the bicycle as contingent upon time and place, author Glen Norcliffe argues for the need for widespread processes such as gendered use of the bicycle, the Cyclists' Rights Movement, and the globalization of bicycle-making to be interpreted in different ways in different settings. With this in mind, the essays in the book are divided into two sections: relational aspects are examined as Spaces of Cycling which treats technological development, innovation, and the location of production and trade of cycles, while Places of Cycling interprets specific sites of consumption - the streets of the city, in the cycling clubs, among men and women, and at the trade show. Written from a geographer's integrative perspective to offer a broad understanding of cycling, this book will also be of interest to other social scientists in urban studies, cultural studies, technology and society, sociology, history and environmental planning.
