The Bible in Motion Rhonda Burnette-Bletsch,2016-09-12 This two-part volume contains a comprehensive collection of original studies by well-known scholars focusing on the Bible's wide-ranging reception in world cinema. It is organized into sections examining the rich cinematic afterlives of selected characters from the Hebrew Bible and New Testament; considering issues of biblical reception across a wide array of film genres, ranging from noir to anime; featuring directors, from Lee Chang-dong to the Coen brothers, whose body of work reveals an enduring fascination with biblical texts and motifs; and offering topical essays on cinema's treatment of selected biblical themes (e.g., lament, apocalyptic), particular interpretive lenses (e.g., feminist interpretation, queer theory), and windows into biblical reception in a variety of world cinemas (e.g., Indian, Israeli, and Third Cinema). This handbook is intended for scholars of the Bible, religion, and film as well as for a wider general audience.

Azuma Old Japanese John Kupchik,2023-10-24 Azuma Old Japanese is an areal term for the two major dialects of Eastern

('Azuma') Japan during the eighth century: Eastern Old Japanese and Tōpo-Suruga Old Japanese. This volume is an exhaustive, comparative reference grammar based on the linguistic data contained in the Man'yōshū poetic anthology (759 CE). It contains chapters dedicated to the different lexical categories, the lexicon, the phonology, and the historical development. This volume serves to fill the last remaining gap in English language scholarship on the grammar of premodern Japanese dialects, and significantly contributes to our understanding of the historical development of the earliest attested Japanese dialects. It also contains an extensive reconstruction of Proto-Japanese.
