

The Council Of Seven Lights

Thomas E. Bullard

The Council of Seven Lights George W. van Tassel, 2020-06-04 In his book of 1958: The Council of Seven Lights, George van Tassel produced a compilation of communications describing a reality that many of us are not familiar with. Much of the information is complex and was not easily understood. The subject matters include the cycling of twelve densities, the progressed evolution of planets, and the connection between gravity and electricity. He takes the reader far beyond our atmosphere to give technical data on the lines of energy, the conditions of space. He describes polarity, its positive and negative aspects, and applies theory to fact so the reader can understand every point he makes. The beginning of all creation has the same meaning as the ending of all creation, for all things have always existed and always will exist. Everything anyone has ever been or will ever be, he is now. This is a truth often overlooked in man's search for understanding. He forgets God was all there was, and therefore all there is now or will ever be. Van Tassel writes that religion and science are the same thing, the only difference being that they are two opposite viewpoints. Just as a wall is a wall regardless of which side one stands on, so are science and religion, life itself. According to Van Tassel, the Bible is an accurate history of events repeating themselves in cycles. He says there are predictions referring to spaceships throughout the Bible, among them the prophecy that there will be a day when the ships will come to take the people who are ready, leaving those who are not prepared to face the cataclysmic destruction inevitably approaching. This book explains the vortices of the human body that are responsible for the reasons that certain individuals affect one so strongly on meeting, a violent, a strong attraction without apparent cause, and also explain a person's effect on each others. In The Council of Seven Lights, the reader will find many absorbing facets of knowledge - new data on atmospheric conditions, further information about space ships, and for the searcher who desires more understanding of the greater pattern of life, a philosophy well worth studying. The Gods Have Landed James R. Lewis,1995-01-01 This is a comprehensive account of the religious dimensions of the UFO/flying saucer experience.

Through Alien Eyes Wesley H. Bateman,2001-04-01 The accounts given by extraterrestrials in this volume are about events that occurred in our solar system many millions of years ago. In that ancient time the solar system consisted of four planets and four radiar systems that orbited the central sun. The four planets of the solar system are known today as Venus, Earth, Mars and a now-totally shattered world that was called Maldec. The term radiar applies to the astronomical bodies we presently call Jupiter, Saturn, Uranus and Neptune. The original satellites of these radiars are generally called moons by Earth astronomers, but the extraterrestrials prefer to call them planetoids. This book reflects the personal views of a number of different types of extraterrestrials regarding the state of the local solar system and the state of the Earth.

Extraordinary Encounters Jerome Clark,2000-12-15 Here is the first A-Z encyclopedia to explore the convictions held by many in the modern day world that extraterrestrials, angels, fairy-folk, and other-dimensional intelligences regularly interact with human beings. *Extraordinary Encounters: An Encyclopedia of Extraterrestrials and Otherworldly Beings* is the first ever illustrated A-Z encyclopedia to explore these fascinating modern day beliefs, personalities, beings, and events. Among the beings you'll meet in its pages are Abraham, a collection of highly evolved entities that speak in one voice; Metranon, the divine interface between God and the Outer Worlds (and sometime Old Testament angel); and The Planetary Council, whose members include Jove, Merlin, Quetzalcoatl, and Lao-Tzu.

Sherman Exposed John Sherman, 2012-10-09 Both brilliant and funny, John Sherman has a loyal following. Features the best of Climbing magazine's Verm's World. Insightful and often irreverent profiles of some of North America's best climbers. Outrageous, talented, and a force to be reckoned with, John Sherman is always willing to spout an opinion that's sure to raise eyebrows. This rowdy collection of biting satire, parody profiles, barely restrained rants, and genuine reflections on climbing's unsung heroes is no different. Blending his juiciest Verm's World columns from Climbing magazine with previously unpublished (or, perhaps, unpublishable?) stories, Sherman pulls no punches, even on himself. From his college exploits in building on the Berkeley campus, to his quest for the Fab 50, to his years as a nomadic boulderer, Sherman shares the best, and the worst, he has found in the people and places he encountered along the way. Climbers will discover valuable excuse-making techniques in *The Dog Ate My Belay Plate*; they will aspire to the very un-PC All Vermin Team; and they will challenge themselves with *The Verm's World History Aptitude Test*. Who could ask for more?

You Are Meant to Be Loved Louresta Dodson-Lankard,2021-03-03 In my search for total truth (fear and all), I unlocked a kaleidoscope of questions: Who, what, when, where and why, am I? God answered (and still is) and reassured me. He made us all to be loved by him, And we are all attempting to survive in a sick, broken and fallen matrices of a spiritually warped and insane world, ran by the prince of darkness. A world that cyclically descends into chaos, pandemonium and dementia across the world. The culprits, spirits of Ignorance, shame, guilt, and fear, opens doors of attacks by Satan and his minions manipulating societies, utilizing our free will decisions. Alien Revelation - They're Here George Ljepojevic,2015-01-09 This book is most unorthodox research, covering the existence of aliens from an understanding of the dogmas of Freemasonry, (from the perspective of the author's real life experiences), and its esoteric teachings that date back to the times before Jesus Christ. It is the journey of the author's

experiences that started in earnest after his profound experience in Vietnam. The book takes you on a journey of not only self-discovery but also answers questions as they are asked - in laymen's terms. Nowhere will you see fancy words, there is no need for them, the author writes as he speaks. His Masonic journey was to take a major detour as such because his curiosity was to take him into uncharted waters. We as individuals are but a drop in the ocean. You can not fathom the immensity of infinity, it must have a starting point. A point itself has shape and when shape dissolves it blends to the source whence it comes from. The oceans belong to matter, as thoughts belong to space. Herein you will find insight as to how and to what end the daily lives of countless generations are consciously controlled through religion and politics, war and the economy, esoteric, sacred and historic influences, aliens and their governments, the theory and application of conspiracy theories, the ongoing engineering of our environment but more importantly, how we are not alone through these many existences and who coordinates our `realities` which are the illusion supporting their agenda - the new world order! Herein you will find everything from SETI and all appertaining thereto, to the nature of Chemtrails phenomena and its less palatable applications, to the name of Marduk and Catholicism Truths, to the interesting prophecies of Baba Vanga, (the Balkan visionary who spoke of aliens back in the early 1930s, which was interesting as she was not an educated person, a blind peasant with the gift of prophecy, also, interestingly, she mentioned that Islam was to make its presence in Rome), and so on and so forth, in brief, a roller coaster ride awaits you. These are the truths the author, a foot-soldier of Steven M. Greer, invites you to partake in, that We all partake of the same source. All worlds' realities are based on the thoughts projected in its many guises. Whatever the individual wants to discover cannot be understood without the input of another being, that also includes the, quote `aliens`. Nothing exists outside the circle, for the circle is both macro-cosmic and micro-cosmic, both being connected, and that connection is you.

The Myth and Mystery of UFOs Thomas E. Bullard, 2016-10-17 When United Airlines workers reported a UFO at O'Hare Airport in November 2006, it was met with the typical denials and hush-up that usually accompany such sightings. But when a related story broke the record for hits at the Chicago Tribune's website, it was clear that such unexplained objects continued to occupy the minds of fascinated readers. Why, wonders Thomas Bullard, don't such persistent sightings command more urgent attention from scientists, scholars, and mainstream journalists? The answer, in part, lies in Bullard's wide-ranging magisterial survey of the mysterious, frustrating, and ever-evolving phenomenon that refuses to go away and our collective efforts to understand it. In his trailblazing book, Bullard views those efforts through the lens of mythmaking, discovering what UFO accounts tell us about ourselves, our beliefs, and the possibility of visitors from beyond. Bullard shows how ongoing grassroots interest in UFOs stems both from actual personal experiences and from a cultural mythology that defines such encounters as somehow alien-and how it views relentless official denial as a part of conspiracy to hide the truth. He also describes how UFOs have catalyzed the evolution of a new but highly fractured belief system that borrows heavily

from the human past and mythic themes and which UFO witnesses and researchers use to make sense of such phenomena and our place in the cosmos. Bullard's book takes in the whole spectrum of speculations on alien visitations and abductions, magically advanced technologies, governmental conspiracies, varieties of religious salvation, apocalyptic fears, and other paranormal experiences. Along the way, Bullard investigates how UFOs have inspired books, movies, and television series; blurred the boundaries between science, science fiction, and religion; and crowded the Internet with websites and discussion groups. From the patches of this crazy quilt, he posits evidence that a genuine phenomenon seems to exist outside the myth. Enormously erudite and endlessly engaging, Bullard's study is a sky watcher's guide to the studies, stories, and debates that this elusive subject has inspired. It shows that, despite all the competing interests and errors clouding the subject, there is substance beneath the clutter, a genuinely mysterious phenomenon that deserves attention as more than a myth.

Places Beyond Belief Michael K. Yen, 2020-08-13 In 2017, Michael completed the first book in his planned trilogy, *From Physical to Metaphysical in Four Steps and One Giant Leap* where he explored how we can separate from our materialistic attachment by seeing past our bodies, our emotions, and our thoughts. After these three steps, Michael illustrated how by enhancing and refining our life energy, we can take one giant leap into metaphysical consciousness. In *Places Beyond Belief*, he expands on the concepts raised in the first book and also details some of his out-of-body experiences (OBE) that offer direct evidence of how the non-physical envelops our material reality. Michael also tells the story of how encounters in material reality with ghosts, qigong masters, psychics, a living Buddha, and extraterrestrials prepared him for having OBEs. Building on the events covered in the first book, Michael recounts how in trying to uncover the true nature of his UFO experiences, he turned to using OBEs as a way to find answers about the reality of the beings he encountered. What he found was not what he expected and led to his discovery of the field of spirit-release therapy and the large body of psychological literature that the subject has produced since William Baldwin's *Spirit Releasement Therapy: A Technique Manual* was published in 1995. While disclosing intimately personal experiences to illustrate his points, Michael also takes time to discuss the big issues of the day, highlighting how personal and spiritual development is intricately linked to how well we live in the material world. Coming three years after his first book, *Places Beyond Belief* follows Michael's journey deeper into the metaphysical world that he was only first discovering when he wrote *One Giant Leap*. By daring to let direct experience be the guide, Michael went to places beyond belief, and came back to write about it.

UFO Religion Gregory L. Reece, 2007-08-20 Lines laid across the plain near the Peruvian site of Nazca have been explained as ancient roads or features of a long-forgotten religious calendar. So why did Erich von Daniken interpret these markings as the contours of a huge galactic spaceport? In his assessment of the uncanny and frequently eerie world of UFO-logy, Gregory L. Reece travels deep into a mindset which believes that the gods of mythology were really visitors from the stars. Venturing into the Mojave Desert to watch the night skies for flying saucers; exploring Nevada's top-secret installation

'Area 51'; and visiting Roswell, famous site of a supposed saucer crash in 1947, the author's quest for the truth brings him more than he bargained for. He has his atomic structure recharged in a machine supposedly designed by extraterrestrial technology, encounters a whole galaxy of alien life-forms, and meets those who claim themselves to have been abducted by UFOs. Along the way, he tries to make sense both of the sinister 'Men in Black' and of lethal 'Tall Whites', deadly aliens who liquidate human beings without mercy. What is it about flying saucer culture that speaks to people with an apparently religious intensity and fervour? For those looking for the answers, UFO Religion is the definitive guide and handbook to one of the most extraordinary and compelling cults of our times.
