Self-education: Twelve Chapters for Young Thinkers Edwin Paxton Hood,1851

Self-Help Books Sandra K. Dolby,2010-10-01 Understanding instead of lamenting the popularity of self-help books Based on a reading of more than three hundred self-help books, Sandra K. Dolby examines this remarkably popular genre to define self-help in a way that's compelling to academics and lay readers alike. Self-Help Books also offers an interpretation of why these books are so popular, arguing that they continue the well-established American penchant for self-education, they articulate problems of daily life and their supposed solutions, and that they present their content in a form and style that is accessible rather than arcane. Using tools associated with folklore studies, Dolby then examines how the genre makes use of stories, aphorisms, and a worldview that is at once traditional and contemporary. The overarching premise of the study is that self-help books, much like fairy tales, take traditional materials, especially stories and ideas, and recast them into extended essays that people happily read, think about, try to apply, and then set aside when a new embodiment of the genre comes along.

Secrets of Self-Learning Purnima Banerjee,Dr. Gurudas Bandyopadhyay,2024-10-29 Secrets of Self-Learning is the ultimate guide for anyone seeking to control their personal and professional development for a meaningful life.. Self-Study in Physical Education Teacher Education Alan Ovens, Tim Fletcher, 2014-05-22 In this in-depth examination of self-study as a research methodology, an international selection of physical education scholars share their ideas and experiences and consider the value of self-study as a vector for highlighting the emerging conflicts, dilemmas, and debates currently developing in teaching and teacher education pedagogies. A vital new addition to Springer's series *Self-Study of Teacher Education Practices*, the volume is divided into three sections assessing the significance of the approach itself, offering detailed subject-relevant case studies, and exploring the nuances and controversies attending the evolution of the methodology. The contributors show how self-study enables reflexivity in pedagogical practice, a notable lacuna in current critical research, and at the same time they make the technique accessible to scholars of physical education wanting a practicable introduction to the subject. The analysis also explores the implications of applying self-study to pedagogy itself, to the curriculum, and to human movement and educational practice more generally. By embracing more organic, emergent notions of research practice and learning, the book achieves a broader and more inclusive survey of pedagogical work in physical education teacher education that fully acknowledges the complexities of the field.

Self-Directed Learning for the 21st Century: Implications for Higher Education Elsa Mentz, Josef de Beer, Roxanne Bailey, Per B. Bergamin, Chantelle Bosch, Adri du Toit, Roelien Goede, Aubrey Golightly, David W. Johnson, Roger T. Johnson, Corné Kruger, Dorothy Laubscher, Anita Lubbe, Jako Olivier, Christo van der Westhuizen, Sukie van Zyl, 2019-12-12 This book is devoted to scholarship in the field of self-directed learning in the 21st century, with specific reference to higher education. The target audience of the book includes scholars in the field of self-directed learning and higher education. The book contributes to the discourse on the quality of education in the 21st century and adds to the body of scholarship in terms of self-directed learning, and specifically its role in higher education. Although all the chapters in the book directly address self-directed learning, the different foci and viewpoints raised make the book a rich knowledge bank of work on self-directed learning.

Mastering Self Donald G. Hanna, 2016-03-18 Mastering self often desired, seldom achieved, and easier said than done. It is an arduous, lifelong process of becoming. A journey not a destination. A direction not perfection. A discipline not a diversion. Mastering self does not naturally exist in the human condition. It must be cultivated by lifelong learning. Mastering Self is for critical thinkers wanting to become what they should be. It provides:

- a paradigm to clarify your core ethos and code of

conduct; • a template to evaluate your fundamental beliefs, principles, and values; • a lens to view your world; • a grid to filter your thoughts, decisions, and actions; • a linchpin to stabilize your life; • a blueprint to comprehend your bearing in life's journey and destination; and • a benchmark to measure significance in your life. Mastering Self presents relevant principles and commentary applicable to leading self and others. Understanding them strengthens interpersonal relationships. Embracing them increases personal influence. Practicing them benefits anyone responsible for other people. A comprehensive reference for leaders, this handbook is based on timeless truths and virtues for reference, reflection, or contemplative study. It provides a biblical worldview for perspective and old-school insight for today's culture. Mastering Self includes two primers with commentary, white papers regarding issues in life, the authors' Scot heritage influence, and memoirs. The primers are written from a practitioner's perspective gained from twenty-four years leading three police departments, teaching command officers at police academies, and teaching leadership at a university. The white papers juxtapose personal worldview and ethos with God's Word and manner of living. They reveal a deep conviction that God counsels and confides in those who fear Him (Ps. 25:14) and honors those who honor Him (1 Sam. 2:30). These papers result from reading, teaching, writing, and pondering to keep my heart with all diligence regarding issues in life (Prov. 4:23) often in the counsel chamber of God. This work is a labor of love and pertains to life's ultimate question: God or self?

Self-education; or, The value of mental culture William Robinson (author of Self-education.), 1845

Learning through Collaboration in Self-Study Brandon M. Butler, Shawn Michael Bullock, 2022-02-08 Self-study is inherently collaborative. Such collaboration provides transparency, validity, rigor and trustworthiness in conducting self-study. However, the ways in which these collaborations are enacted have not been sufficiently addressed in the self-study literature. This book addresses these gaps in the literature by placing critical friendship, collaborative self-study and community of practice at the forefront of the self-study of teaching. It highlights these forms of collaboration, how the collaboration was developed and enacted, the challenges and tensions that existed in the collaboration, and how practice and identity developed through the use of these forms of collaboration. The chapters serve as exemplars of enacting these forms of collaboration and provide researchers with an additional base of literature to draw upon in their scholarly writing, teaching of self-study, and their enactment of collaborative self-study spaces.

Outstanding Books for the College Bound Angela Carstensen, 2011-05-27 More than simply a vital collection development tool, this book can help librarians help young adults grow into the kind of independent readers and thinkers who will flourish at college.

Writing as a Method for the Self-Study of Practice Julian Kitchen, 2022-01-01 This book focuses on the writing process in the self-study of teaching and teacher education practices. It addresses writing as an area in which teacher educators can develop their skills and represents how to write in ways that are compatible with self-study's orientations towards the inquiry, both personal and on practice. The book examines effective self-study writing with chapters written by experienced self-study practitioners. In addition to considering elements of writing as a method for the self-study of practice, it delves into the cognitive processes of real writers making explicit their writing practices. Practical suggestions are connected to the lived experiences of self-study practitioners making sense of their field through the process of writing. This book will be of interest to doctoral and novice self-study writers, and experienced authors seeking to develop their practice. It demonstrates that writing as a method of inquiry in self-study and beyond can be learned, modeled and taught.
