## Mary Eagleton

*The New Feminist Criticism* Elaine Showalter, 1985 The New Feminist Criticism brings together for the first time the most influential and controversial essays on the feminist approach to literature. These groundbreaking essays by well-known critics offer a much-needed overview of feminist critical theory, and illustrate its practice. In *The New Feminist Criticism* the authors take up a variety of topics. They challenge received notions of literary tradition and shows how women's writing has been systematically excluded, misread, and misinterpreted. They address the relationship of women's writing to ethnicity, separatism, and feminism itself. And they ask how it differs from that of men, with regard to recurrent images, symbols, themes, and plots. Complete with a bibliography of feminist literary theory, *The New Feminist Criticism* is an indispensable introduction to one of the most important intellectual movements of recent times. -- From publisher's description.

**Feminist Literary Theory** Mary Eagleton, 2010-12-20 Now in its third edition, *Feminist Literary Theory* remains the most comprehensive, single volume introduction to a vital and diverse field Fully revised and updated to reflect changes in the field over the last decade Includes extracts from all the major critics, critical approaches and theoretical positions in contemporary feminist literary studies Features a new section, Writing 'Glocal', which covers feminism's dialogue with postcolonial, global and spatial studies Revised chapter introductions provide readers with helpful contextual information while extensive notes offer recommendations for further reading

**Encyclopedia of Feminist Literary Theory** Elizabeth Kowaleski Wallace, 2009-03-23 First Published in 1997. Routledge is an imprint of Taylor & Francis, an informa company.

*Feminist Literary Criticism* Josephine C. Donovan, 2021-03-17 The first major book of feminist critical theory published in the United States is now available in an expanded second edition. This widely cited pioneering work presents a new introduction by the editor and a new bibliography of feminist critical theory from the last decade. This book has become indispensable to an understanding of feminist theory. Contributors include Cheri Register, Dorin Schumacher, Marcia Holly, Barbara Currier Bell, Carol Ohmann, Carolyn Heilbrun, Catherine Stimpson, and Barbara A. White.

**Feminist Readings/feminists Reading** Sara Mills, Lynne Pearce, 1996 As an introduction to feminist literary criticism, which emphasizes the practical issues of applying these often wide-ranging theories to particular texts, this thoroughly revised and updated 2nd edition analyzes several schools of feminist thought. Covers gynocriticism, authentic realism,

Marxism, with new chapters on lesbian feminist theory and post-colonialism. For professionals working in the fields of feminist literary theory, women's studies, and literary theory.

**Feminisms** Robyn R. Warhol, Diane Price Herndl, 1997 In the landmark 1991 edition of *Feminisms*, Robyn Warhol and Diane Price Herndl assembled the most comprehensive collection of American and British feminist literary criticism ever to be published. In this revised edition, the editors have updated the volume, in keeping with the expanded parameters of feminist literary discourse. With the inclusion of more than two dozen new essays, along with a major reorganization of the sections in which they appear, Warhol and Price Herndl have again established the measure for representing the latest developments in the field of feminist literary theory. Believing that the feminist movement can only move forward where difference commands attention, not dismissal or negativism, they have continued the original collection's mission of providing a multiplicity of perspectives and approaches. This anthology contains three new sections (Conflict, Gaze, and Practice) and includes more selections by and about women of color and lesbians. Aimed at academics and the general public alike, this collection is an indispensable guide to the range of practice on campus today in the field of feminist literary criticism.

**Beyond Feminist Aesthetics** Rita Felski, 1989 *Beyond Feminist Aesthetics* has a dual focus. First, Rita Felski gives a critical account of current American and European feminist literary theory, and second, she offers an analysis of contemporary fiction by women, drawing in particular on the genres of the autobiographical confession and the novel of self-discovery, in order to show that this literature raises questions for feminism that cannot be answered in terms of a purely gender based analysis. Felski argues that the idea of a feminist aesthetic is a nonissue that feminists have needlessly pursued; she suggests, in contrast, that it is impossible to speak of masculine and feminine, subversive and reactionary literary forms in isolation from the social conditions of their production and reception. The political value of such works of literature from the standpoint of feminism can be determined only by an investigation of their social functions and effects in relation to the interests of women in a particular historical context. This leads her to argue for an interdisciplinary approach to the analysis of literature which can integrate literary and social theory, and to develop such an approach by drawing upon the model of a feminist counter-public sphere. Rita Felski has produced a closely reasoned, stimulating book that creates a new framework for discussing the relationship between literature and feminist politics. It will interest students and teachers of women's studies, comparative literature, cultural studies, and fiction.

**Changing Subjects** Gayle Greene, Coppélia Kahn, 2012 These twenty autobiographical essays by eminent feminist literary critics explore the process by which women scholars became feminist scholars, articulating the connections between the personal and political in their lives and work. From these diverse histories a collective history emerges of the development of feminism. Offering a spectrum of experiences and critical positions that engage with current debates in

feminism, it will be valuable to teachers and students of feminist theory, women's studies, and the history of the women's movement.

*Feminist Literary Studies* K. K. Ruthven, 1990-09-13 K. K. Ruthven looks at the impact of Marxism, structuralism, and post-structuralism on feminist critical practice.

Feminist Literary Criticism Mary Eagleton, 2014-06-06 Looks at the work of a range of critics, including Elaine Showalter, Kate Millett, Gayatri Chakravorty Spivak and the French feminists. The critical approaches encompass Marxist feminism and contemporary critical theory as well as other forms of discourse. It also provides an overview of the developments in feminist literary theory, and covers all the major debates within literary feminism, including male feminism.

*A History of Feminist Literary Criticism* Gill Plain, Susan Sellers, 2007-08-30 Feminism has transformed the academic study of literature, fundamentally altering the canon of what is taught and setting new agendas for literary analysis. In this authoritative history of feminist literary criticism, leading scholars chart the development of the practice from the Middle Ages to the present. The first section of the book explores protofeminist thought from the Middle Ages onwards, and analyses the work of pioneers such as Wollstonecraft and Woolf. The second section examines the rise of second-wave feminism and maps its interventions across the twentieth century. A final section examines the impact of postmodernism on feminist thought and practice. This book offers a comprehensive guide to the history and development of feminist literary criticism and a lively reassessment of the main issues and authors in the field. It is essential reading for all students and scholars of feminist writing and literary criticism.

*Feminist Theory, Women's Writing* Laurie Finke, 2018-03-15 No detailed description available for Feminist Theory, Women's Writing.

Problems for Feminist Criticism (RLE Feminist Theory) Sally Minogue, 2012-11-12 Feminist criticism has come a long way in the last twenty years. Its development has been rapid, its snowball progress picking up elements of structuralism, deconstruction and psychoanalytic criticism; just as rapidly it has been shedding its own early theories and methodologies. Now it is a critical orthodoxy with its own established canonical texts. Now is the time, then, to begin to question that orthodoxy. In *Problems for Feminist Criticism* five women critics seek to do that, in a spirit of enquiry whose central point of focus is the literature for which feminist critics have offered a re-reading. By reference to a wide range of writers, from Milton to the contemporary poet, with a strong emphasis on the nineteenth-century novel, the contributors ask what we may be losing from literature by adopting the feminist orthodoxy. Each chapter provides a survey of feminist critical approaches to its subject and highlights the inherent problems. The book frees the way forward for critics who have found much that is stimulating and revealing in feminist approaches to literature, but who find its proscriptiveness potentially reductive. It shows how literature may have the flexibility to absorb and benefit from new critical approaches, whilst still retaining its own

life, never quite to be contained in criticism's theories and methodologies.

**Approaches to Literature** Gilbert Vaughan, 2005

**Feminist Approaches to the Body in Medieval Literature** Linda Lomperis, Sarah Stanbury, 1993 Feminist Approaches to the Body in Medieval Literature forges a new link between contemporary feminist and cultural theory and medieval history and literature. The essays establish crucial historical connections between feminist theorizing about the body and specific accounts of gendered bodies in medieval texts.

Feminist Literary History Janet Todd, 2018-03-08 In this timely book Janet Todd offers an analysis and defence of the feminist literary history practised by Elaine Showalter and other contemporary American literary critics. She argues that this approach rightly links the political concerns of feminist criticism to the uncovering of female voices embedded in history. Todd reconstructs the development of feminist literary history from the 1960s through to the present day, highlighting the central themes as well as the strengths and weaknesses. She then examines the debate between American feminist critics, on the one hand, and feminist critics inspired by the work of French theorists such as Kristeva, Irigaray and Cixous, on the other. She defends feminist literary history against its critics and casts doubt on some of the uses of psychoanalysis in feminism. Todd also considers the debate with men and assesses the relevance of academic analyses of gender, masculinity and homosexuality. Feminist Literary History is a forceful and committed work, which addresses some of the most important issues in contemporary feminist theory and literary criticism. It will be widely read as an introductory text by students in English literature, modern languages, women's studies and cultural studies.

Literature and the Development of Feminist Theory Robin Truth Goodman, 2015-12 This book offers an insightful look at the development of feminist theory through a literary lens. Stressing the significance of feminism's origins in the European Enlightenment, it traces the literary careers of feminism's major thinkers in order to elucidate the connection of feminist theoretical production to literary work.

**The Resisting Reader** Judith Fetterley, 1978 Fetterley's questions are often so crucial, her observations repeatedly so acute, that they force us to ask how we avoided them in the past. -- Women's Studies International Quarterly ... thoughtful, informed, and well written. -- Choice

**Feminist Criticism and Social Change (RLE Feminist Theory)** Deborah Rosenfelt, Judith Newton, 2013-05-20 This lively and controversial collection of essays sets out to theorize and practice a 'materialist-feminist' criticism of literature and culture. Such a criticism is based on the view that the material conditions in which men and women live are central to an understanding of culture and society. It emphasises the relation of gender to other categories of analysis, such as class and race, and considers the connection between ideology and cultural practice, and the ways in which all relations of power change with changing social and economic conditions. By presenting a wide range of work by major feminist scholars, this

anthology in effect defines as well as illustrates the materialist-feminist tendency in current literary criticism. The essays in the first part of the book examine race, ideology, and the literary canon and explore the ways in which other critical discourse, such as those of deconstruction and French feminism, might be useful to a feminist and materialist criticism. The second part of the book contains examples of such criticism in practice, with studies of individual works, writers and ideas. An introduction by the editors situates the collected essays in relation both to one another and to a shared materialist/feminist project. *Feminist Criticism and Social Change* demonstrates the important contribution of materialist-feminist criticism to our understanding of literature and society, and fulfils a crucial need among those concerned with gender and its relation to criticism.

Making a Difference Gayle Green, Coppélia Kahn, 2003-09-02 First published in 2002. Feminist scholarship employs gender as a fundamental organizing category of human experience, holding two related premises: men and women have different perceptions or experiences in the same contexts, the male perspective having been dominant in fields of knowledge; and that gender is not a natural fact but a social construct, a subject to study in any humanistic discipline. This challenging collection of essays by prominent feminist literary critics offers a comprehensive introduction to modes of critical practice being used to trace the construction of gender in literature. The collection provides an invaluable overview of current feminist critical thinking. Its essays address a wide range of topics: the relevance of gender scholarship in the social sciences to literary criticism; the tradition of women's literature and its relation to the canon; the politics of language; French theories of the feminine; psychoanalysis and feminism; feminist criticism of writing by lesbians and black women; the relationship between female subjectivity, class, and sexuality; feminist readings of the canon.
