Touch the Top of the World Erik Weihenmayer, 2002-03-26 The incredible bestselling book from the author of *No Barriers* and *The Adversity Advantage* Erik Weihenmayer was born with retinoscheses, a degenerative eye disorder that would leave him blind by the age of thirteen. But Erik was determined to rise above this devastating disability and lead a fulfilling and exciting life. In this poignant and inspiring memoir, he shares his struggle to push past the limits imposed on him by his visual impairment-and by a seeing world. He speaks movingly of the role his family played in his battle to break through the barriers of blindness: the mother who prayed for the miracle that would restore her son's sight and the father who encouraged him to strive for that distant mountaintop. And he tells the story of his dream to climb the world's Seven Summits, and how he is turning that dream into astonishing reality (something fewer than a hundred mountaineers have done). From the snow-capped summit of McKinley to the towering peaks of Aconcagua and Kilimanjaro to the ultimate challenge, Mount Everest, this is a story about daring to dream in the face of impossible odds. It is about finding the courage to reach for that ultimate summit, and transforming your life into something truly miraculous. An inspiration to other blind people and plenty of us folks who can see just fine.—Jon Krakauer, New York Times bestselling author of *Into Thin Air*

Stranded at the Top of the World Mary R. Tahan, Cornelia Lüdecke, 2024-08-29 This book provides a well-researched, well-structured, interesting, and informative narrative depicting the little-known yet successful efforts of the Captain Arve Staxrud Norwegian Arctic Rescue Expedition of 1913 that searched for and saved members of the Lieutenant Herbert Schröder-Stranz German Arctic Expedition of 1912 in Spitsbergen (Svalbard). The book portrays the cooperative and strategic endeavors of the humans and animals involved in the Staxrud expedition who worked together to save human lives on the icy fjords and glaciers of the far north during an unseasonable time of year for exploratory expeditions. It examines and analyzes the unpreparedness and lack of training that resulted in the failure of the Schröder-Stranz expedition. It compares and contrasts concurrent rescue expeditions that failed, including the Kurt Wegener expedition and the Theodor Lerner expedition. It describes the crucial role of animals in both the Norwegian and German expeditions, as well as German interest and Norwegian activity in Spitsbergen leading up to the expeditions. And it reconstructs the interaction and organization of principal officers, overwintering experts, Norwegians, Sámi, draft reindeer teams, and experienced sledge dogs who made the Staxrud rescue mission a success and who created and enabled improved search and rescue capabilities

for Spitsbergen and for the future of the Arctic archipelago.

We Keep America on Top of the World Daniel Hallin, 2005-10-25 *We Keep America on Top of the World* is a lucid exploration of contemporary American journalism, with particular emphasis on its influential and controversial component - television news. Daniel Hallin's discussion encompasses the central and most controversial issues in the study of journalism: the wars in Vietnam and Central America; US-Soviet summits; the origin of the ten-second soundbite; the differences between print and television journalism; and the tension between professionalism and populism. *We Keep America on Top of the World* offers a distinctive approach to understanding an institution torn between the imperatives of the market, political ideology and popular fashion, and journalistic professionalism. It will be essential reading for students of media, communication and journalism.

Race to the Top of the World: Richard Byrd and the First Flight to the North Pole Sheldon Bart, 2013-09-23 In the age of adventure, when dirigibles coasted through the air and vast swaths of the Earth remained untouched and unseen by man, one pack of relentless explorers competed in the race of a lifetime: to be the first aviator to fly over the North Pole. What inspired their dangerous fascination? For some, it was the romantic theory about a "lost world," a hidden continent in the Arctic Ocean. Others were seduced by new aviation technology, which they strove to push to its ultimate limit. The story of their quest is breathtaking and inspiring; the heroes are still a matter of debate. It was the 1920s. The main players in this high stakes game were Richard Byrd, a dashing Navy officer and early aviation pioneer; and Roald Amundsen, a Viking in the sky, bitter rival of Byrd's and a hardened veteran of polar expeditions. Each man was determined to be the first aviator to fly over the North Pole, despite brutal weather conditions, financial disasters, world wars, and their own personal demons. Byrd and Amundsen's epic struggle for air primacy ended in a Homeric episode, in which one man had to fly to the rescue of his downed nemesis, and left behind an enduring mystery: who was the first man to fly over the North Pole? *Race to the Top of the World: Richard Byrd and the First Flight to the North Pole* is a fast-paced, larger-than-life adventure story from Sheldon Bart, the only historian with unprecedented access to Richard Byrd's personal archives. With powerful, never-before-seen evidence of the race to pioneer one of Earth's last true frontiers, *Race to the Top of the World* is a story of a day when men were heroes and the wild was untamed.

Across the Top of the World David E. Fisher, 1992 A fascinating story of polar exploration--then and now--by a scientist who traveled from Murmansk to Siberia aboard the first ship ever to cross directly over the North Pole. Fisher re-creates the epic 1991 voyage aboard the Russian nuclear-powered ice-breaker *Sovetsky Soyuz* as he chronicles what befell previous expeditions from Pytheas of Massaliato Peary, Cook, and Richard Byrd. Photographs. Frontispiece map.

Quotes from the Edge of Nowhere Gary Lewis LeRoy, MD, 2020-12-03 *Quotes from the Edge of Nowhere: The Art of Noticing Unnoticed Wisdom* By: Gary Lewis LeRoy, MD. This book is about a twenty- to forty-year life journey. It recounts ten

randomly selected personal quotes, saved in a cookie jar, and creates a life-learning narrative using the origin of the quote. Each story evolves by looking back at the signposts and hints of wisdom sprinkled along the author's life path. Many of these events whispered subtle quotes of wisdom to his conscience. It was up to the author to make sense of them or proceed on life's path, having missed an opportunity to obtain wisdom. All of us are on a similar journey cluttered with obstacles of the human condition. It is the author's desire that this little book of hope and inspiration will serve as a torchlight to illuminate the way on the reader's journey toward a more joyful life—one filled with knowledge, truth, and wisdom.

The World's Fearlessness Teachings R. Michael Fisher, 2010 *The World's Fearlessness Teachings* addresses the human fear problem in a truly unique and insightful way, summarizing the teaching on fearlessness from around the world and throughout history. The author then utilizes critical integral theory (a la Wilber) as an approach to categorize the developmental and evolutionary spectrum of fear management systems known thus far. The author has spent twenty years researching the timely topic of fear and how to best manage and transform it. From this experience, he offers an educational healing vision to address the challenges of a dangerous 21st century. Fear's empire has taken rule. It is time to resist it using the best intelligence from both sacred and secular traditions, as well as the transformational theories humanity has to offer. R. Michael Fisher maps out ten fear management systems that will benefit future-positive leaders everywhere. Book jacket.

Women Leadership in Emerging Markets Shireen Chengadu, Caren Scheepers, 2017-07-06 This book focuses on the increase in female leadership over the last fifty years, and the concrete benefits and challenges this leads to in organizations. It moves beyond the typical focus on developed, Western contexts and answers the call for research on how women in emerging markets rise above the proverbial "glass ceiling". The authors integrate two underdeveloped topics that are highly relevant to modern business: women in leadership roles, and women in emerging markets. They examine how women leaders in a range of professional services—including accounting, consulting, law, engineering and medicine—have managed to navigate their careers while considering the role emerging markets play in their work. Based on cutting-edge research, the topics are brought to life through examples and profiles of leading women across Africa, the Middle East and the Far East. These narratives, told in the leaders' own words, are key to understanding women's achievements and the barriers they face. Students of leadership, diversity, gender studies, and human resource management will learn much from this insightful book.

At the Top of the Lighthouse James C. Kingsmill, 2023-05-31 Scott Taylor and Jeff Fahlman live on a small barrier island on the Texas Gulf Coast and have been best friends since early childhood. Scott's family owns the local bait and tackle shop and lives in the house right next door. Just a mile across the way, Jeff is in the fourth generation of the Fahlman family to live in the old keepers' quarters on the property of the Karankawa Point Lighthouse. The top of the old lighthouse is a special place for the boys. As kids, they would meet and play, and as teens, they would hang out and escape the pressures of school, family, and life. The lighthouse stands on the west end of the island in the small community of Karankawa Point,

which is just across the bay, and a twenty-minute ferry ride from the mainland. While the physical distance between the island and the mainland is only three miles, the bay is a chasm between the lifestyles of the islanders and the mainlanders. When tragedy forces Scott's family to move to the mainland right before his first year of high school, the friends' lives are forever changed. As Scott tries to adapt to his new life on the mainland and Jeff remains on the island, they struggle to keep their friendship together. Throughout the triumphs and tragedies of their lives, the battle to keep their friendship alive always seems to find them back together at the top of the lighthouse.

The Top 10 As We Hit Bottom Jim Parry, 2020-02-18 From best-selling author and illustrator Ron Barrett, who forecasted the weather in the classic picture book, *Cloudy With a Chance of Meatballs*, now predicts how—thanks to climate change and other unpleasantries—the world will end! With research and really scary text by Jim Parry, *The Top Ten As We Hit Bottom* is a darkly humorous collection of "Top Ten" lists that highlights the predicament global warming and other impending catastrophes have put us into. Though some might call these lists "fake news" (we're looking at you, Donald), these lists are compiled and culled from the world's most credible authorities like NASA, the UN, and the Union of Concerned Scientists. But coupled with darkly humorous illustrations, you'll be laughing your way all the way down in our race toward the bottom! Here are some Top 10 lists to whet your appetite for Earth's impending doom: "Top 10 species we'll lose to climate change" "Top 10 avalanches mostly caused by global warming" "Top 10 climate change deniers" "Top 10 times we almost had a nuclear war," "Top 10 things that will happen when the Yellowstone Supervolcano erupts," "Top 10 ways to try to stop an asteroid," "Top 10 signs that the earth is about to be swallowed by a black hole," "Top 10 ways a particle accelerator mishap could destroy the world," "Top 10 end-of-world cults you can join now." And many more!

Giants Peter Phillips, 2018-08-28 A look at the top 300 most powerful players in world capitalism, who are at the controls of our economic future. Who holds the purse strings to the majority of the world's wealth? There is a new global elite at the controls of our economic future, and here former Project Censored director and media monitoring sociologist Peter Phillips unveils for the general reader just who these players are. The book includes such power players as Mark Zuckerberg, Bill

Gates, Jeff Bezos, Jamie Dimon, and Warren Buffett. As the number of men with as much wealth as half the world fell from sixty-two to just eight between January 2016 and January 2017, according to Oxfam International, fewer than 200 super-connected asset managers at only 17 asset management firms—each with well over a trillion dollars in assets under management—now represent the financial core of the world's transnational capitalist class. Members of the global power elite are the management—the facilitators—of world capitalism, the firewall protecting the capital investment, growth, and debt collection that keeps the status quo from changing. Each chapter in *Giants* identifies by name the members of this international club of multi-millionaires, their 17 global financial companies—and including NGOs such as the Group of Thirty and the Trilateral Commission—and their transnational military protectors, so the reader, for the first time anywhere, can identify who constitutes this network of influence, where the wealth is concentrated, how it suppresses social movements, and how it can be redistributed for maximum systemic change.

Awake, Emerging, and Connected Victoria Turner, 2024-07-31 Millennials and Gen Zers have been characterized as individualistic capitalist consumers, as politically unengaged and spiritually selfish, or only interested in identity politics. This edited collection, by bringing together younger generations of theologians, activists, campaigners, artists, and those working in politics, academia, the church, economics, or community work, offers a new narrative of justice- one that is globally aware and actively intersectional. Bringing together powerful young voices with a wealth of contextually grounded experiences of faith and justice, spreading over Mexico, India, Nagaland, Germany, Wales, Ecuador, South Africa, Palestine, Brazil, Canada, Indonesia, Scotland, England and the Pacific, the chapters in this book imagine daring new possibilities. Together the chapters reveal a generation who face a burning, politically and religiously right-leaning, egotistical world, and who know clearly that the legacies of Empire, which continue white hegemony, patriarchy, heterosexuality, normalized cisgender identities, the class war, colonial debts, Western epistemology, and ecological extraction, must be overcome and replaced by a transnational solidarity of resistance and reimagination.
