**Black Friday** Peter Aitchison, 2018-04-12 The true story of a small fishing village in 19th century Scotland and the deadly storm that left tragedy in its wake is recounted in this “gripping read” (Scotsman, UK). On October 14th, 1881, a severe windstorm struck the southeastern coast of Scotland, devastating fishing communities throughout the region. In all, 189 fishermen were lost in a single afternoon. 129 of them hailed from the village of Eyemouth. In *Black Friday*, Scottish historian Peter Aitchison recounts the astonishing story of that storm and its tragic aftermath. Aitchison combines larger historical context with personal accounts of fishermen caught in the maelstrom and their families waiting anxiously for news. It is a story of a poor community driven to desperate measures by an onerous tithe system, and a time when Eyemouth was the center of a massive smuggling ring. As a direct descendent of the community, Aitchison does more than simply spin a good yarn. He offers rare insight into how these fishermen plied their trade, led their lives and met their fate. *Black Friday* was previously published as *Children of the Sea*.

**Black Friday** William W. Johnstone, J.A. Johnstone, 2016-08-30 From the New York Times-bestselling authors: the explosive story of a terrorist attack on American soil—on the biggest shopping day of the year. On Black Friday, the American Way Mall is packed with holiday shoppers and bargain hunters. Suddenly, machine-gun fire rings out, and within minutes hundreds are dead or dying. Others are taken hostage by an army of fanatical Middle Eastern terrorists ready to blast the American Way Mall into a pile of rubble. But one man—Iraq War vet Tobey Lanning—refuses to go down without a fight. Separated from his soon-to-be fiancée, Lanning finds himself on the frontlines of a new war against terror. With thousands of innocent lives at stake, Lanning assembles a makeshift platoon of Black Friday shoppers: a teenage security guard; a retired Chicago cop; a teacher who’s never fired a gun; a young ex-con who has; a soccer mom; a priest; and a wheelchair-bound

WWII vet . . . These brave Americans will stand up and meet the enemy face to face. They will defend their land—and if necessary pay the ultimate price for freedom.

**Operation Breadbasket** Martin L. Deppe, 2017 Operation Breadbasket is a narrative of the Southern Christian Leadership Conference's Operation Breadbasket, 1966-1971, an economic empowerment project that Martin Luther King Jr brought to Chicago as part of the Chicago Freedom Movement. Rev. Martin L. Deppe was a founding and active member of Breadbasket's steering committee throughout the life of this program. Using the power of the pulpit to galvanize consumer support including occasional economic withdrawal (Don't Buy) efforts, the participating ministers, the project negotiated for a fair share of jobs in the African American community of Chicago, and in time added products and services originating from that community. By the end of six years, Breadbasket's fifteen covenants with milk, soft drink, chain store and other consumer-oriented industries, brought approximately \$57 million dollars of new income into the black community annually. The program ended when the project's national director, Rev. Jesse Jackson, resigned in December 1971, and essentially took the program out of SCLC into his own Operation PUSH, later Rainbow PUSH. This book is both a history of Operation Breadbasket, and a memoir of life in it as written by one of Breadbasket's most active participants. Deppe uses his extensive

files--steering committee minutes, memoranda, brochures, letters, sermonic material, Chicago Defender archives, colleagues' files--along with extensive new research, including interviews with several surviving participants.--Provided by publisher.

*Routledge German Dictionary of Business, Commerce and Finance Worterbuch Fur Wirtschaft, Handel und Finanzen* Sinda Lopez,2019-07-12 First published in 2002. The German Dictionary of Business, Commerce and Finance is the second dictionary to be published in Routledge's programme of bilingual business dictionaries. The series was launched in December 1995 with the French Dictionary of Business, Commerce and Finance. It would not have been possible to compile this dictionary within a relatively short timescale, and to the standard achieved, without the use of a highly sophisticated, custom-designed database. The database's most significant feature is that it is designed as a relational database: term records for each language are held in separate files, with further files consisting only of link records. Links between terms in different language files represent translations, enabling us to handle various types of one-to-many and many-to-one equivalences. Links between terms within a single language file represent crossreferences between geographical variants and abbreviations. The content of the database for this dictionary was created in three principal phases. A considerable proportion of the English term list was already available following the publication of the French Dictionary of Business, Commerce and Finance. The term list was then sent out to specialist translators - with current practical experience of business translation - who supplied German equivalences and expanded the English and German term lists to include the main relevant terminology in their particular spheres of work.

**Black Friday** S Hussain Zaidi, 2014-11-15 On the afternoon of 12 March 1993, a series of explosions cut a swathe of terror and destruction through Bombay. The toll: 257 killed or missing, 713 injured, and a city in a shambles. In Black Friday, S. Hussain Zaidi takes us into the heart of the conspiracy which spanned several countries and the massive investigation that ensued. A product of four years of meticulous research, the book gives chilling insights into the criminal mind, through interviews with close associates of Dawood Ibrahim and Tiger Memon, among others. **Historical Dictionary of Burma (Myanmar)** Donald M. Seekins, 2017-03-27 Burma (Myanmar) is a Southeast Asian country that is emerging from crisis after more than a half century of hard-line military rule and cultural, diplomatic and economic isolation. With the dissolution of its military regime, the State Peace and Development Council, in 2011, a formally civilian but military-dominated constitutional government was inaugurated. By 2012, Burma's president, retired General Thein Sein, had established a working relationship with Daw Aung San Suu Kyi, the leader of the country's pro-democracy movement since 1988, and after a 2012 by-election she and members of her opposition party, the National League for Democracy (NLD), entered the new Union Parliament as legislators. However, even with the election victory of Daw Suu Kyi and the NLD in the General Election of November 2015, Burma faces daunting challenges: it is still one of the poorest countries in Southeast, fissured by longstanding ethnic conflicts that have made a nationwide peace agreement elusive and its people's security and the environment are threatened by foreign economic exploitation. Religious discord is also widely evident, as Buddhist militants instigate violence against the country's religious minorities, especially Muslims. Today Burma's prospects are the most hopeful they have been for over half a century, as the country takes steps along the road to a more open society and economy. This edition of the **Historical Dictionary of Burma (Myanmar)** encompasses not only current developments, but also Burma's over 1,500 years-old recorded history and the most important features of its cultures,

ethnicity, religions, society and economy. This is done through achronology, an introduction, and an extensive bibliography. The dictionary section has over 700 cross-referenced entries on important personalities, politics, economy, foreign relations, religion, and culture.

Mr. Lederer is no linguistic sheriff organizing posses to hunt down and string up language offenders. Instead, join him In Praise of English, and discover why the tongue described in Shakespeare's day as of small reatch has become the most widely spoken language in history: English never rejects a word because of race, creed, or national origin. Did you know that jukebox comes from Gullah and canoe from Haitian Creole? Many of our greatest writers have invented words and bequeathed new expressions to our everyday conversations. Can you imagine making up almost ten percent of our written vocabulary? Scholars now know that William Shakespeare did just that! He also points out the pitfalls and pratfalls of English. If a man mans a station, what does

a woman do? In the The Department of Redundancy Department, Is English Prejudiced? and other essays, Richard Lederer urges us not to abandon that which makes us human: the capacity to distinguish, discriminate, compare, and evaluate.

**One Nation Under Gold: How One Precious Metal Has Dominated the American Imagination for Four Centuries** James Ledbetter, 2017-06-13 One Nation Under Gold examines the countervailing forces that have long since divided America—whether gold should be a repository of hope, or a damaging delusion that has long since derailed the rational investor. Worshipped by Tea Party politicians but loathed by sane economists, gold has historically influenced American monetary policy and has exerted an often outsized influence on the national psyche for centuries. Now, acclaimed business writer James Ledbetter explores the tumultuous history and larger-than-life personalities—from George Washington to Richard Nixon—behind America’s volatile relationship to this hallowed metal and investigates what this enduring obsession reveals about the American identity. Exhaustively researched and expertly woven, One Nation Under Gold begins with the nation’s founding in the 1770s, when the new republic erupted with bitter debates over the implementation of paper currency in lieu of metal coins. Concerned that the colonies’ thirteen separate currencies would only lead to confusion and chaos, some Founding Fathers believed that a national currency would not only unify the fledgling nation but provide a perfect solution for a country that was believed to be lacking in natural silver and gold resources. Animating the Wild West economy of the nineteenth century with searing insights, Ledbetter brings to vivid life the actions of Whig president Andrew Jackson, one of gold’s most passionate advocates, whose vehement protest against a standardized national currency would precipitate the nation’s first feverish gold rush. Even after the establishment of a national paper currency, the virulent political divisions continued, reaching unprecedented heights at the Democratic National Convention in 1896, when presidential aspirant William Jennings Bryan delivered the legendary Cross of Gold speech that electrified an entire convention floor, stoking the fears of his agrarian supporters. While Bryan never amassed a wide-enough constituency to propel his cause into the White House, America’s stubborn attachment to gold persisted, wreaking so much havoc that FDR, in order to help rescue the moribund Depression economy, ordered a ban on private ownership of gold in 1933. In fact, so entrenched was the belief that gold should uphold the almighty dollar, it was not until 1973 that Richard Nixon ordered that the dollar be delinked from any relation to gold—completely overhauling international economic policy and cementing the dollar’s global significance. More intriguing is the fact that America’s exuberant fascination with gold has continued long after Nixon’s historic decree, as in the profusion of late-night television ads that appeal to goldbug speculators that proliferate even into the present. One Nation Under Gold reveals as much about American economic history as it does about the sectional divisions that continue to cleave our nation, ultimately becoming a unique history about economic irrationality and its influence on the American psyche.
