## Anodea Judith

**Eastern Body, Western Mind** Anodea Judith, 2016-08-10 In EASTERN BODY, WESTERN MIND, chakra authority Anodea Judith brought a fresh approach to the yoga-based Eastern chakra system, adapting it to the Western framework of Jungian psychology, somatic therapy, childhood developmental theory, and metaphysics. This groundbreaking work in transpersonal psychology has been revised and redesigned for a more accessible presentation. Arranged schematically, the book uses the inherent structure of the chakra system as a map upon which to chart our Western understanding of individual development. Each chapter focuses on a single chakra, starting with a description of its characteristics, then exploring its particular childhood developmental patterns, traumas and abuses, and how to heal and maintain balance. Illuminated with personal anecdotes and case studies, EASTERN BODY, WESTERN MIND seamlessly merges the East and West, science and philosophy, and psychology and spirituality into a compelling interpretation of the chakra system and its relevance for Westerners today.

Arranged schematically, the book uses the inherent structure of the chakra system as a map upon which to chart our Western understanding of individual development. Summary of Anodea Judith's Eastern Body, Western Mind Everest Media,2022-03-09T22:59:00Z Please note: This is a companion version & not the original book. Sample Book Insights: #1 The body is the only place you are guaranteed to have, and it is the source of your aliveness. If you are disconnected from your body, you are disconnected from your aliveness, from the natural world, and from your most basic inner truth. #2 The body is the testing ground for truth, and when we lose that, we lose our sense of aliveness. We become easily manipulated, and we lose our testing ground for truth. #3 The first chakra, located at the base of the spine, is the foundation for the entire chakra system. It is here we build the foundation for the temple of the body, which anchors the Rainbow Bridge. #4 The first chakra is the foundation of consciousness, and it is the underlying element of the instinct to survive. When threats are frequent, then consciousness becomes fixated at this level. This keeps the body in a state of hyperstimulated readiness, flooded with stress hormones that promote the fight-or-flight response.
