Into the Woods and Out Again Dina Glouberman,2018-06-01 1971 was the year Dina Glouberman went mad. Now, for the first time, Dr Dina Glouberman, renowned psychotherapist and author, co-founder of the world-famous Skyros Holidays, creator of Imagework therapy, and author of *The Joy of Burnout*, writes with candour and humour about a spell in a psychiatric ward. Indeed, she describes it as enlivening and enlightening, a catalyst for her rich and creative life. This memoir traces the journey from those wild and intense weeks in the Middlesex Hospital through five years of normal life and then on to twelve years of extraordinary creativity, when she had two babies, co-founded Skyros Holidays on a Greek island, pioneered her Imagework approach to therapy and personal development, had a life-changing spiritual experience, faced the loss of her father and brother, and wrote her first book. At the end of this book, a new cycle is just beginning, as she burns out, dismantles her marriage and her life, and discovers what is next. This remarkable memoir is a revealing meditation on the behind-the-scenes world of therapy and psychoanalysis in the 1960s, as well as on marriage, mothering, madness, imagination, aloneness, community and spirituality. *Into the Woods and Out Again* captures the inner life of a woman who has played a major role in the contemporary holistic and therapeutic world.

Serving & Giving John-Roger, DSS,Paul Kaye,2009-11-01 Looking at the act of giving as a way to bring greater happiness into the life of the giver as well as the receiver, this insightful exploration challenges contemporary concepts of service. Offering simple and practical techniques for open-minded volunteering, a wealth of quotes, narratives, and reflective pieces seek to motivate and inspire. Encouraging an attitude of selflessness with positive and timely action, this thought-provoking guide posits that serving is a gateway to higher consciousness. Comprised of brief, clear chapters, this perceptive meditation is easy to reference while attending the needs of others.

Producing Green Knowledge and Innovation Shantha Indrajith Hikkaduwa Liyanage,2022-04-13 The knowledge and innovation meant for knowledge-based economies (KBEs) are branded as green knowledge and innovation/ethical human

capital, blended with the natural system as modeled by the Quintuple Helix Model of Innovation. However, due to bureaucratic challenges and myths, conventional universities produce knowledge and innovation in the sense of traditional disciplinary knowledge, which are not adequate to meet the goals of sustainable development. This book provides a model for greening a university which in turn can produce green knowledge and innovation in the mainstream knowledge production process. This model, which is based on research, can be adopted by the conventional universities in other regions. Such a process results in providing benefits to stakeholders of the university at the micro-level. At the macro-level, it blends with the other knowledge systems—namely, the natural environment of society, economic system, media-based and culture-based public and civil society, and political system—to create a sustainable knowledge economy.

The Pursuit of Unhappiness Daniel M. Haybron, 2008-09-25 The pursuit of happiness is a defining theme of the modern era. But what if people aren't very good at it? This and related questions are explored in this book, the first comprehensive philosophical treatment of happiness in the contemporary psychological sense. In these pages, Dan Haybron argues that people are probably less effective at judging, and promoting, their own welfare than common belief has it. For the psychological dimensions of well-being, particularly our emotional lives, are far richer and more complex than we tend to realize. Knowing one's own interests is no trivial matter. As well, we tend to make a variety of systematic errors in the pursuit of happiness. We may need, then, to rethink traditional assumptions about human nature, the good life, and the good society. Thoroughly engaged with both philosophical and scientific work on happiness and well-being, this book will be a definitive resource for philosophers, social scientists, policy makers, and other students of human well-being.
