**David Herd**

*Black Skin, White Masks* Frantz Fanon, 2008 Fanon, born in Martinique and educated in France, is generally regarded as the leading anti-colonial thinker of the 20th century. His first book is an analysis of the impact of colonial subjugation on the black psyche. It is a very personal account of Fanon's experience being black: as a man, an intellectual, and a party to a French education.--Adapted from wikipedia.org.

**Black Skin, White Masks** Frantz Fanon, 1986 In this study, Fanon uses psychoanalysis and psychological theory to explain the feelings of dependency and inadequacy that black people experience in a white world. Originally formulated to combat the oppression of black people, Fanon's insights are now being taken up by other oppressed groups - including feminists - and used in their struggle for cultural and political autonomy. Like Marx, Fanon wanted to change the world as well as to describe it. The sustained influence of his writings realizes this ambition.

*Black Skin, White Masks* Frantz Fanon, 2008 The explosion will not happen today. It is too soon ... or too late. First published in English in 1968, Frantz Fanon's seminal text was immediately acclaimed as a classic of black liberationist writing. Fanon's descriptions of the feelings of inadequacy and dependence experienced by people of colour in a white world are as salient and as compelling as ever. Fanon identifies a devastating pathology at the heart of Western culture, a denial of difference, that persists to this day. His writings speak to all who continue the struggle for political and cultural liberation in our troubled times.

Frantz Fanon's 'Black Skin, White Masks' Max Silverman, 2017-10-03 First published in 1952, Frantz Fanon's 'Black Skin, White Masks' is one of the most important anti-colonial works of the post-war period. It is both a profound critique of the conscious and unconscious ways in which colonialism brutalises the colonised and a passionate cry from deep within a black body alienated by the colonial system and in search of liberation from it. This volume is the first collection of essays specifically devoted to Fanon's text. It offers a wide range of interpretations of the text by leading scholars in a number of disciplines. Chapters deal with Fanon's Martinican heritage, Fanon and Creolism, ideas of race and racism and new humanism, Fanon and Sartre, representations of Blacks and Jews, and the psychoanalysis of race, gender and violence. Contributors offer new ways of reading the text and the volume as a whole constitutes an important contribution to the growing field of Fanon studies.

*An Analysis of Frantz Fanon's Black Skin, White Masks* Rachele Dini, 2017-07-05 Frantz Fanon's explosive *Black Skin, White Masks* is a merciless exposé of the psychological damage done by colonial rule across the world. Using Fanon's incisive analytical abilities to expose the consequences of colonialism on the psyches of colonized peoples, it is both a crucial text in post-colonial theory, and a lesson in the power of analytical skills to reveal the realities that hide beneath the surface of things. Fanon was himself part of a colonized nation – Martinique – and grew up with the values and beliefs of French culture imposed upon him, while remaining relegated to an inferior status in society. Qualifying as a psychiatrist in France before working in Algeria (a French colony subject to brutal repression), his own experiences granted him a sharp insight into the psychological problems associated with colonial rule. Like any good analytical thinker, Fanon's particular skill was in breaking things down and joining dots. His analysis of colonial rule exposed its implicit assumptions – and how they were replicated in colonised populations – allowing Fanon to unpick the hidden reasons behind his own conflicted psychological make up, and those of his patients. Unflinchingly clear-sighted in doing so, *Black Skin White Masks* remains a shocking read today.

Revealing Whiteness Shannon Sullivan, 2006-03-28 [A] lucid discussion of race that does not sell out the black experience. -- Tommy Lott, author of *The Invention of Race* *Revealing Whiteness* explores how white privilege operates as an unseen, invisible, and unquestioned norm in society today. In this personal and selfsearching book, Shannon Sullivan interrogates her own whiteness and how being white has affected her. By looking closely at the subtleties of white domination, she issues a call for other white people to own up to their unspoken privilege and confront environments that condone or perpetuate it. Sullivan's theorizing about race and privilege draws on American pragmatism, psychology, race theory, and feminist thought. As it articulates a way to live beyond the barriers that white privilege has created, this book offers readers a clear and honest confrontation with a trenchant and vexing concern.

**The Sexual Demon of Colonial Power** Greg Thomas, 2007 Interrogates the language of body politics in the context of neo-colonialist domination

**Frantz Fanon, postcolonialism and the ethics of difference** Azzedine Haddour, 2019-07-26 Fanon, postcolonialism and the ethics of difference offers a new reading of Fanon's work challenging many of the reconstructions of Fanon in critical and postcolonial theory and in cultural studies, probing a host of crucial issues: the intersectionality of gender and colonial politics; the biopolitics of colonialism; Marxism and decolonisation; tradition, translation and humanism. It will be of particular value to advanced undergraduate and postgraduate students, as well as to academics interested in Fanon and postcolonial studies generally.

*Edouard Glissant and Postcolonial Theory* Celia Britton, 1999 Edouard Glissant has written extensively in French about

the colonial experience in the Caribbean. Since he is known primarily as a novelist and poet, his theoretical essays have so far remained largely unread by the English-language theorists in this field. This book situates Glissant within ongoing debates in postcolonial theory, making illuminating connections between his work and that of Frantz Fanon, Gayatri Spivak, Homi Bhabha, and Henry Louis Gates Jr. Focusing on language and subjectivity, Edouard Glissant and Postcolonial Theory moves between an analysis of Glissant's theoretical work and detailed readings of his novels to elucidate a network of related issues. Celia Britton addresses the major themes central to his writing—the reappropriation of history, standard and vernacular language, hybridity, subalternity, the problematizing of identity, and the colonial construction of the Other—and asks provocative questions relating to each. How does the colonized subject relate to a language initially imposed by the colonizer but subsequently, to some extent, subverted and reappropriated? How does this strategic use of language come to function as a crucial mode of cultural resistance? What role can fictional representation play in this process? This book represents the first presentation of Glissant's incisive theoretical work and analysis of his immensely powerful and subtle novels in the context of postcolonial studies. By juxtaposing them, Britton illuminates the significant contribution Glissant has made to this theoretical endeavor.

Anxiety and the Contradictions of Culture Stephen Felder, 2024-09-20 Anxiety as not only a feeling of dread, but a feeling that we dread is widely considered by both philosophical and psychoanalytic thinkers as an important signal related to our experience of the cultural and intersubjective world. Stephen Felder explores the experience of anxiety through the writings of the existentialist, phenomenological, and psychoanalytic traditions, especially Jacques Lacan, to make sense out of this dreadful experience. Working from Lacan's claim that the structure of anxiety and fantasy are the same, Felder shows that anxiety is a signal of the Lacanian Real and thus provides us with a point of view from which to critique the cultural world by clarifying how we experience ourselves and others. The chapters examine the implications of this insight for how we think about the visual field, sex, race, consumerism, and what Stuart Hall called the “contradictions of culture” in our attempts to live more vibrant lives and create more emancipatory practices in the twenty-first century.

French Civilization and Its Discontents Tyler Stovall, Georges Van Den Abbeele, 2003-10-22 What happens when the study of French is no longer coterminous with the study of France? French Civilization and Its Discontents explores the ways in which considerations of difference, especially colonialism, postcolonialism, and race, have shaped French culture and French studies in the modern era. Rejecting traditional assimilationist notions of French national identity, contributors to this groundbreaking volume demonstrate how literature, history, and other aspects of what is considered French civilization have been shaped by global processes of creolization and differentiation. This book ably demonstrates the necessity of studying France and the Francophone world together, and of recognizing not only the presence of France in the Francophone world but also the central place occupied by the Francophone world in world literature and history.

*Space, Gender, Knowledge: Feminist Readings* Linda McDowell, Joanne Sharp, 2016-04-29 'Space Gender Knowledge' is an innovative and comprehensive introduction to the geographies of gender and the gendered nature of spatial relations. It examines the major issues raised by women's movements and academic feminism, and outlines the main shifts in feminist geographical work, from the geography of women to the impact of post-structuralism. In making their selection, the editors have drawn on a wide range of interdisciplinary material, ranging across spatial scales from the body to the globe. The book presents influential arguments for the importance of the intersection between space and gender. Looking both at geography and beyond the discipline, it explores the gendered construction of space and the spatial construction of gender. Divided into a number of conceptual sections, each prefaced by an editorial introduction, this reader includes extracts from both landmark texts and less well-known works, making it an indispensable introduction to this dynamic field of study.

**The No-State Solution** Daniel Boyarin, 2023-01-31 A provocative manifesto, arguing for a new understanding of the Jews' peoplehood "A self-consciously radical statement that is both astute and joyous."—Kirkus Reviews Today there are two seemingly mutually exclusive notions of what "the Jews" are: either a religion or a nation/ethnicity. The widespread conception is that the Jews were formerly either a religious community in exile or a nation based on Jewish ethnicity. The latter position is commonly known as Zionism, and all articulations of a political theory of Zionism are taken to be variations of that view. In this provocative book, based on his decades of study of the history of the Jews, Daniel Boyarin lays out the problematic aspects of this binary opposition and offers the outlines of a different—and very old—answer to the question of the identity of a diaspora nation. He aims to drive a wedge between the "nation" and the "state," only very recently conjoined, and recover a robust sense of nationalism that does not involve sovereignty.

**Critical Philosophy of Race** Robert Bernasconi, 2023 The fifteen essays by distinguished philosopher of race Robert Bernasconi that are collected here demonstrate why the critical philosophy of race needs to take a historical turn. Genealogies of the concepts of both race and racism clarify why some of the dominant strategies for combatting racism tend to be ineffective. For example, the Boasian/UNESCO strategy that highlights biology's rejection of race neglects cultural racism. Drawing on the work of Frantz Fanon, the late Sartre, and Michel Foucault, Robert Bernasconi argues for a holistic approach that integrates the concrete experience of racism faced by individuals into the study of institutional, structural, and systemic racism. His philosophical studies of such Black philosophers as Ottobah Cugoana, Anténor Firmin, and W. E. B. Du Bois, contribute to challenging the dominant philosophical canon. This volume will be an essential resource for scholars and students interested in this resurgent topic.

*Trauma and Transcendence* Eric Boynton, Peter Capretto, 2018-08-07 Trauma theory has become a burgeoning site of research in recent decades, often demanding interdisciplinary reflections on trauma as a phenomenon that defies disciplinary ownership. While this research has always been challenged by the temporal, affective, and corporeal dimensions of trauma

itself, trauma theory now faces theoretical and methodological obstacles given its growing interdisciplinarity. Trauma and Transcendence gathers scholars in philosophy, theology, psychoanalysis, and social theory to engage the limits and prospects of trauma's transcendence. This volume draws attention to the increasing challenge of deciding whether trauma's unassimilable quality can be wielded as a defense of traumatic experience against reductionism, or whether it succumbs to a form of obscurantism. Contributors: Eric Boynton, Peter Capretto, Tina Chanter, Vincenzo Di Nicola, Ronald Eyerman, Donna Orange, Shelly Rambo, Mary-Jane Rubenstein, Hilary Jerome Scarsella, Eric Severson, Marcia Mount Shoop, Robert D. Stolorow, George Yancy.

**Whither Fanon?** David Marriott, 2018-06-05 Frantz Fanon may be most known for his more obviously political writings, but in the first instance, he was a clinician, a black Caribbean psychiatrist who had the improbable task of treating disturbed and traumatized North African patients during the wars of decolonization. Investigating and foregrounding the clinical system that Fanon devised in an attempt to intervene against negrophobia and anti-blackness, this book rereads his clinical and political work together, arguing that the two are mutually imbricated. For the first time, Fanon's therapeutic innovations are considered along with his more overtly political and cultural writings to ask how the crises of war affected his practice, informed his politics, and shaped his subsequent ideas. As David Marriott suggests, this combination of the clinical and political involves a psychopolitics that is, by definition, complex, difficult, and perpetually challenging. He details this psychopolitics from two points of view, focusing first on Fanon's sociotherapy, its diagnostic methods and concepts, and second, on Fanon's cultural theory more generally. In our present climate of fear and terror over black presence and the violence to which it gives rise, *Whither Fanon?* reminds us of Fanon's scandalous actuality and of the continued urgency of his message.

**The Universal Machine** Fred Moten, 2018-07-26 Taken as a trilogy, *consent not to be a single being* is a monumental accomplishment: a brilliant theoretical intervention that might be best described as a powerful case for blackness as a category of analysis.—Brent Hayes Edwards, author of *Epistrophies: Jazz and the Literary Imagination* In *The Universal Machine*—the concluding volume to his landmark trilogy *consent not to be a single being*—Fred Moten presents a suite of three essays on Emmanuel Levinas, Hannah Arendt, and Frantz Fanon, in which he explores questions of freedom, capture, and selfhood. In trademark style, Moten considers these thinkers alongside artists and musicians such as William Kentridge and Curtis Mayfield while interrogating the relation between blackness and phenomenology. Whether using Levinas's idea of escape in unintended ways, examining Arendt's antiblackness through Mayfield's virtuosic falsetto and Anthony Braxton's musical language, or showing how Fanon's form of phenomenology enables black social life, Moten formulates blackness as a way of being in the world that evades regulation. Throughout *The Universal Machine*—and the trilogy as a whole—Moten's theorizations of blackness will have a lasting and profound impact.

Writing Against Expulsion in the Post-War World David Herd, 2023 Herd tells a pre-history of the Hostile Environment, returning to a period, following the Second World War, when the brutal consequences of a politics of expulsion were visible. The book is a deep defence of human rights at a moment when such rights are under attack. It shows how we can resist and think beyond the politics of border and nation.

**The Sexual/Political** Lorenzo Bernini, 2023-06-28 The Sexual/Political engages with contemporary political issues in sexuality through a survey of modern philosophy, psychoanalytic thought, 20th-century political theory, and more recent queer philosophies. The book investigates how the sexual has perturbed philosophical, political, and psychoanalytic thought and how this has fed into discrimination against the LGBTQI community. It analyses the social stigmas applied to public and private sexual acts and the psychopolitical processes leading to the prevalence of neo-fascist populism in Italy and the world. Tracing the history of sexuality through Freud, Marx, Fanon, and Foucault, among many others, Bernini considers why the sexual has always been an exceptionally difficult object to consider in political theory. This book will be of key interest to scholars in queer theory; antisocial theory; psychoanalysis and politics; drive theory; political philosophy; critical theory; LGBTQIA+ issues; gender and sexuality studies; and Italian studies.
