The Dental Diet Steven Lin, 2019-02-05 A unique exploration of how dental health connects to holistic health, with a 40-day meal plan and long-lasting dietary guidelines that are easily integrable into everyday life Throughout the years, dental health has often been characterized as a reflection of our overall health, where bad oral health results from issues with other parts of our body. But what if we flipped the paradigm? What if we thought about dental health as the foundation for our physical health as a whole? Dr. Steven Lin, an experienced dentist and the world's first dental nutritionist, has analyzed our ancestral traditions, epigenetics, gut health, and the microbiome in order to develop food-based principles for a literal top-down holistic health approach. Merging dental and nutritional science, Dr. Lin lays out the dietary program that can help ensure you won't need dental fillings or cholesterol medications —and give you the resources to raise kids who develop naturally straight teeth. With our mouth as the gatekeeper of our gut, keeping our oral microbiome balanced will create a healthy body through a healthy mouth. Dr. Lin arms you with a 40-day meal plan, complete with the Dental Diet food pyramid, exercises for the mouth, recipes, and cooking techniques to help you easily and successfully implement his techniques into your everyday life. The tools to improve overall wellness levels and reverse disease are closer than we think—in our markets, in our pantries, and, most frequently, in our mouths.

now and then 2 Bob Maddison, 2012-09-05 Lost civilizations? Origins of mankind? Why does mankind seem to need religion? Why is there so much confusion and mental indigestion manifest among not only rank and file mankind, but also actively demonstrated by the academics? After all, does it really matter who built the pyramids of Egypt? Or when they were built? Does it matter that there are so many confusing and conflicting claims by the proponents of the many religions? So who, or what, is god? Is it Jehovah, Allah, Krishna, or Enlil? Or perchance it is a fiction. And what does it matter or avail if we understand the true origins of man or not? If we cannot correctly understand who and what mankind is, how can we ever know and understand what angels, demons, gods, God, or aliens are? Is it that we are the aliens and this was not our earth?
