El Libro Escolar, Reflejo de Intenciones Políticas E Influencias Pedagógicas Alejandro TIANA FERRER,2008-10-13 Esta obra recoge una selección de los trabajos presentados en el I Simposio MANES, celebrado en Madrid en el año 1996. En esa primera reunión científica organizada por el proyecto se presentaron diversos trabajos centrados en el estudio histórico de los manuales escolares. En este volumen se recogen veintitrés de dichos trabajos, una vez revisados por sus autores a la luz de los debates mantenidos en el encuentro. La obra se organiza en tres partes, dedicada cada una de ellas a un ámbito de investigación de especial relevancia. Con este volumen se abre una nueva línea dentro de la colección, tendente a ofrecer a los investigadores y estudiosos los resultados que va arrojando el Proyecto MANES.

Science Education Research in Latin America ,2020-01-20 This volume of the World of Science Education gathers contributions from Latin American science education researchers covering a variety of topics that will be of interest to educators and researchers all around the world. The volume provides an overview of research in Latin America, and most of the chapters report findings from studies seldom available for Anglophone readers. They bring new perspectives, thus, to

topics such as science teaching and learning; discourse analysis and argumentation in science education; history, philosophy and sociology of science in science teaching; and science education in non-formal settings. As the Latin American academic communities devoted to science education have been thriving for the last four decades, the volume brings an opportunity for researchers from other regions to get acquainted with the developments of their educational research. This will bring contributions to scholarly production in science education as well as to teacher education and teaching proposals to be implemented in the classroom.

Religión, género y sexualidad: entre movimientos e instituciones Karina Bárcenas Barajas,Cecilia Delgado-

Molina,2023-06-22 Para la historiadora feminista Joan Wallach Scott el término género sólo es útil como una interrogación, como una invitación para dilucidar cómo son producidos, desplegados y cambiados los significados de los cuerpos sexuados. Este libro hace resonar su perspectiva para comprender las maneras como las religiones y las espiritualidades intervienen en la construcción de género tanto de mujeres como de hombres, quienes configuran sus identidades entre movimientos e instituciones. De esta manera, los feminismos latinoamericanos que parten de matrices religiosas y espirituales, muestran que algunas formas de creer y de pertenecer no están disociadas de las agendas feministas, sino que éstas se emplazan en otros espacios, mientras que los feminismos seculares, desde frentes como el que representa la denominada ideología de género, manifiestan su potencia para problematizar los binarismos que estructuran el género y la sexualidad, con los que se pretende obstaculizar los derechos sexuales y reproductivos, así como los de las disidencias sexuales. Asimismo, con estas páginas se busca contribuir a los denominados estudios críticos de los hombres en la religión, por medio de aproximaciones que develan las estructuras y los imaginarios religiosos en la construcción de las masculinidades.
