Letters to my Fanny Cherry Healey,2016-04-21 How much more fun in life could I have had if I'd just stopped worrying so much and stopped beating myself up? In this book, Cherry reveals the things she wishes her mother had told her, through a series of hilarious anecdotes and excruciating confessions. Each chapter opens with a letter to a different body part: 'Letters to my Fanny' covers sex, orgasms and periods; 'Letters to my Brain' covers education, memory and media; 'Letters to my Tummy' covers crop-tops, pregnancy and sit-ups. This wonderfully warm, funny and candid book is a collection of hopeful dispatches from the frontline of girlhood - an impassioned plea to stop piling pressure on girls and young women and allow them to get on with their lives without having to mind the thigh gap . . .

Down Syndrome Mark Selikowitz,1997 Dr. Mark Selikowitz, a consultant paediatrician, has drawn on his extensive experience with children with Down syndrome to write this sympathetic and authoritative book, widely regarded as the definitive guide for parents. In this new edition, he looks at the many new opportunities that have appeared over the past few years in the educational, social, and employment spheres for people with Down syndrome. These have been accompanied by favorable changes in community attitudes. A particularly encouraging development is the greater attention paid to the wishes of people with Down syndrome. The book offers advice and reassurance to these people and provides an essential guide to

their parents and the many health workers who come in contact with Down syndrome children and adults.

Cross-Cultural Pragmatics Anna Wierzbicka, 2009-09-04 This book, which can be seen as both a research monograph and a text book, challenges the approaches to human interaction based on supposedly universal maxims of conversation and principles of politeness, which fly in the face of reality as experienced by millions of people - refugees, immigrants, crosscultural families, and so on. By contrast to such approaches, which can be of no use in crosscultural communication and education, this book is both theoretical and practical: it shows that in different societies, norms of human interaction are different and reflect different cultural attitudes and values; and it offers a framework within which different cultural norms and different ways of speaking can be effectively explored, explained, and taught. The book discusses data from a wide range of languages, including English, Italian, Russian, Polish, Yiddish, Hebrew, Japanese, Korean, and Walmatjari (an Australian Aboriginal language), and it shows that the meanings expressed in human interaction and the different cultural scripts prevailing in different speech communities can be described and compared in a way that is clear, simple, rigorous, and free of ethnocentric bias by using a natural semantic metalanguage, based on empirically established universal human concepts. As the book shows, this metalanguage can be used as a basis for teaching successful cross-cultural communication and education, including the teaching of languages in a cultural context.

One Body: A Retrospective Catherine Simpson, 2022-04-07 Shortlisted in Scotland's National Book Awards By the time she reached her fifties, Catherine had experienced period pain, childbirth, and early menopause, alongside love and laughter, a career in journalism, and raising two daughters. Like many of her peers, along the way she'd dieted, jogged, sweated, tanned, permed, and plucked—always attempting to conform to prevailing standards of acceptable womanhood. But when a medical crisis comes along, she can no longer pummel her body into submission and is forced to take stock. From growing up on a farm where veterinarians were more common than doctors, and where illness was “a nuisance,” she now faces the nuisance of a lifetime. *One Body* is the demystifying, relatable, often hilarious, and sometimes hair-raising story of how Catherine navigates her treatment and the emotions and reflections it provokes. And how she comes to drop the unattainable standards imposed on her body, and simply appreciate the skin she is in.
