The Cambridge Review, 1887

Law and Popular Culture Michael Asimow, Shannon Mader, 2004 This book explores the interface between law and popular culture, two subjects of enormous current importance and influence. Exploring how they affect each other, each chapter discusses a legally themed film or television show, such as Philadelphia or Dead Man Walking, and treats it as both a cultural and a legal text, illustrating how popular culture both constructs our perceptions of law, and changes the way that players in the legal system behave. Written without theoretical jargon, Law and Popular Culture: A Course Book is intended for use in undergraduate or graduate courses and can be taught by anyone who enjoys pop culture and is interested in law.

Recollections of the Kabul Campaign Joshua Duke,1883 Recollections of the Kabul Campaign, 1879 & 1880 is a firsthand account of the Second Anglo-Afghan War (1878-80). The author, Joshua Duke, was a British officer in the Bengal Medical Service, attached to our native army in India. The war began in November 1878 when Great Britain, fearful of what it saw as growing Russian influence in Afghanistan, invaded the country from British India. The first phase of the conflict ended in May 1879 with the Treaty of Gandamak, which permitted the Afghans to maintain internal sovereignty but forced them to cede control over their foreign policy to the British. Fighting resumed in September 1879 after an anti-British uprising in Kabul that resulted in the death of Sir Louis Cavagnari, the British resident in Kabul and a negotiator of the Treaty of Gandamak, and of nearly all the British soldiers at the residency. The Kabul Field Force, commanded by General Sir Frederick Roberts and composed of British and Indian army regiments, was sent to Kabul to restore order and take revenge. Recollections of the Kabul Campaign offers a vivid eye-witness account of the main incidents of the war, including the bloody siege of the Sherpur Cantonment of December 1879, in which Afghan forces mounted a nearly successful attack on the Anglo-Indian forces, the relief march from Kabul to Kandahar in August 1880, and the climactic Battle of Kandahar in September 1880 that ended the war. In addition to his account of the military operations, Duke provides insights from his perspective as a medical officer, for example, on the treatment of wounds by traditional methods by the Afghan forces. The book is illustrated with a frontispiece photograph of Roberts and maps and drawings of important battles and fortresses. The appendix contains a summary explanation of the causes of both Anglo-Afghan wars, the full text of the Treaty of Gandamak, and copies of correspondence between Russian and Afghan authorities that were found by the British when they occupied Kabul.

Research Methods in Law Dawn Watkins, Mandy Burton, 2025-07-31 Explaining in clear terms some of the main methodological approaches to legal research, *Research Methods in Law* is written by specialists in their fields, researching in a variety of jurisdictions. Covering a range of topics, including feminist approaches, economic analysis of the law and socio-legal studies, each contributor addresses the topic of 'lay decision makers in the legal system' from their particular methodological perspective. This focus on one main topic allows the reader to draw comparisons between methods with relative ease. This third edition has been fully updated, and includes bullet point summaries at the start of each chapter. There are also two new chapters covering biographical approaches and creative approaches. The broad range of contributors makes *Research Methods in Law* well suited to an international audience, and it is ideal reading for PhD students in law, undergraduate dissertation students in law, LL.M Research students and early year researchers.

Miscarriages of Justice in Canada Kathryn M. Campbell, 2018-06-12 Innocent people are regularly convicted of crimes they did not commit. A number of systemic factors have been found to contribute to wrongful convictions, including eyewitness misidentification, false confessions, informant testimony, official misconduct, and faulty forensic evidence. In *Miscarriages of Justice in Canada*, Kathryn M. Campbell offers an extensive overview of wrongful convictions, bringing together current sociological, criminological, and legal research, as well as current case-law examples. For the first time, information on all known and suspected cases of wrongful conviction in Canada is included and interspersed with discussions of how wrongful convictions happen, how existing remedies to rectify them are inadequate, and how those who have been victimized by these errors are rarely compensated. Campbell reveals that the causes of wrongful convictions are, in fact, avoidable, and that those in the criminal justice system must exercise greater vigilance and openness to the possibility of error if the problem of wrongful conviction is to be resolved.

Courts Cassia Spohn, Craig Hemmens, 2011-11-09 Authored text sections and carefully selected accompanying readings that illustrate the questions and controversies legal scholars and court researchers are investigating in the 21st century. Edited readings introduce students to classic studies of the criminal court system and to cutting edge research on decision making by court actors. An introduction to each reading gives students an overview of the purpose, main points, and conclusion of each article and evaluates their policy implications. *How to Read a Research Article*- tied to the first reading in the book-guides students in understanding and learning from the research articles. Mini-chapters precede the selection of readings and offer clear and concise explanations of key terms and concepts in each section, coupled with boxes with special interest topics and review materials that enhance student comprehension.
