British Warships of the Second World War John Roberts,2017-02-28 This volume reproduces a representative selection of official plans depicting the main types of warship with which the Royal Navy fought the Second World War. Carefully chosen from the incomparable collection at the National Maritime Museum, these range from battleships and fleet aircraft carriers, through cruisers, destroyers and submarines, to examples of the vast array of specialist vessels built during the war. Concentrating on as fitted drawings which show the warships as they first entered service, this collection offers an unprecedented wealth of detail on the equipment and fittings of some of the Royal Navys most famous ships. It also

documents how their appearance changed over time, since many of the plans include alterations and additions made in different shades of ink and wash, and here printed in full colour for instant understanding of the modifications. With an accompanying text and detailed individual captions by one of the leading experts in the field, this book provides an insight into the warship design process itself, and explains for the benefit of ship modellers and technical historians which types of plan contain the most valuable information. For anyone with more than a passing interest in warship design and construction, this book will be a revelation.

The Doomed Chris McDowall, 2023-08-03 A quick-playing, rules-light skirmish wargame of Horror hunting set in a bleak sci-fi world on the brink of impending doom. Hunger, Hatred, Domination, Oblivion, and Ruin. The world is dying, poised on the brink of falling to one of these great dooms. Factions pursue their own interests, as likely to be the heralds of the world's

destruction as they are its saviours. Horrors - monstrous abominations that defy logic, science, and nature - roam the land. Bands of hunters follow bold leaders, seeking out and destroying Horrors, gaining fame as word of their deeds spreads amongst the desperate survivors. Rival bands compete for prestige, clash over ideology, and pose as much of a threat to each other as the Horrors they hunt. The Doomed is a quick-playing, rules-light skirmish wargame in which small warbands of hunters compete to hunt unique Horrors in a bleak sci-fi world. Scenarios are defined by the Horror being hunted and by the Conflict in which the hunt takes place. Each Horror has its own strengths, weaknesses, and tactics, often breaking the rules in unique ways, and must be approached carefully - stealth, cunning, and brute force will all have a role to play. Each Conflict, meanwhile, provides a distinct set-up for the scenario and a secondary objective that pits the warbands against each other as well as against the Horror. Campaigns build towards a climax, with hunters gaining prestige and renown, offering access to new, unique options for their warband. In the background, the five dooms also grow in power, threatening to deliver their own climax to the campaign if the hunters are not successful enough.
