MALAYSIA ISLAMIC FINANCE EDUCATION REPORT (MIFER) ATLAS 2021 AND BEYOND ,2021-05-02 is based on Revealed Knowledge demarcates itself from the other disciplines which are based on Acquired Knowledge. Thus, the educators for Islamic Finance have the added responsibility and Amanah to uphold the sanctity, nobility and the purity of this knowledge which must be incorporated and reflected in the programmes offered, researches conducted as well as the practices propagated based on the Quran and Sunnah. The International Council of Islamic Finance Educators (ICIFE) therefore, takes its stride in terms of fore-fronting the Islamic Finance educators in the mission to play a bigger role in charting the future growth of sustainable Maqasid-based Islamic Finance Education. Towards attaining this objective, coupled with the recognition of Malaysia as the International Islamic Finance Hub, Malaysia Islamic Finance Education Report Atlas 2021 and Beyond seeks to present the current landscape for Islamic Finance Education as offered by both public and private institutions of higher learning from the year 2017-2020. This MIFER Atlas 2021 and Beyond focuses on three (3) main areas namely, the programmes offered, the talent development, as well as graduate employability. It is hoped that by understanding the current landscape and identifying challenges and issues associated with each area, charting future growth for Islamic Finance Education both at the national and international fronts within a dynamic environment will be more impactful to benefit the ummah as a whole.

Handbook of Research on Theory and Practice of Global Islamic Finance Rafay, Abdul,2019-12-27 As an emerging global phenomenon, Islamic economics and the financial system has expanded exponentially in recent decades. Many components of the industry are still unknown, but hopefully, the lack of awareness will soon be stilled. The Handbook of Research on Theory and Practice of Global Islamic Finance provides emerging research on the latest global Islamic economic practices. The content within this publication examines risk management, economic justice, and stock market analysis. It is designed for financiers, banking professionals, economists, policymakers, researchers, academicians, and students interested in ideas centered on the development and practice of Islamic finance.

Handbook of Islamic Banking Kabir Hassan, Mervyn Lewis, 2009-01-01 The Handbook of Islamic Banking comprises 25 studies by leading international experts on Islamic banking and finance specially commissioned to analyse the various debates and the current state of play in the field. From its origins thirty years ago, Islamic banking has expanded rapidly to become a distinctive and fast growing segment of the international banking and capital markets. Despite this expansion, Islamic banking still remains poorly understood in many parts of the Muslim world and continues to be a mystery in much of the West. This comprehensive Handbook provides a succinct analysis of the workings of Islamic banking and finance, accessible to a wide range of readers. At the same time, it seeks to bring the current research agenda and the main issues on Islamic banking before a wider audience. Islamic banking offers, as an alternative to conventional interest-based financing methods, a wide variety of financial instruments and investment vehicles based on profit-and-loss sharing arrangements. These are all explored in detail along with other subjects such as governance and risk management, securities and investment, structured financing, accounting and regulation, economic development and globalization. M. Kabir Hassan, Mervyn Lewis and the other contributors have created an authoritative and original reference work, which will contribute to a wider understanding of Islamic banking as well as provoking further discussion and research. It will be invaluable to all scholars, researchers and policymakers with an interest in this subject.

Waqf Development and Innovation Syed Nazim Ali, Umar A. Oseni, 2021-11-29 Waqf is one of the most potent socio-economic tools for reducing public sector deficit and breaking the chain of intergenerational poverty. Providing a high-level discussion on waqf development and innovation within the context of modern socio-economic and legal developments, this book examines the importance and potentials of waqf and the issues relating to its legal and regulatory framework. The research delivers future directions for countries that plan to explore this socio-economic institution. Readers and policymakers will be able to replicate successful experiments and learn from some failed initiatives to seek alternative funding platforms to support the fiscal policies of developing countries. The volume discusses the relevance and novel application of waqf in the modern economic system and social development, it reviews applicable laws and regulations pertaining to waqf and trust laws and examines critical, cross-country case studies and experiences. Setting an agenda for further researchers in the field of waqf, this comprehensive high-level analysis, with case studies from leading jurisdictions across the world, is a key resource for researchers, policymakers and institutions interested in charitable endowments, Islamic finance, and social finance.

Handbook of Empirical Research on Islam and Economic Life M. Kabir Hassan, 2016-12-30 In Islamic jurisprudence, a comprehensive ethic has been formulated governing how business and commerce should be run, how accountability to God and the community is to be achieved, and how banking and finance is to be arranged. This Handbook examines how well these values are translated into actual performance. It explores whether those holding true to the system

are hindered and put at a disadvantage or whether the Islamic institutions have been able to demonstrate that faith-based activities can be rewarding, both economically and spiritually.

Digital Banking And Finance: A Handbook Christopher E C Gan, Nirosha Hewa-wellalage, Ahmed Imran Hunjra, 2025-01-24 Finance is undergoing a profound transformation. Digital technologies are reshaping payments, lending, insurance, and wealth management. Big data technology is now an integral part of the financial services industry and will continue to drive future innovation. Digital finance has fundamentally changed how we live and do business, and it has been a major disruptor of the finance industry. The advantages of digital finance have long been recognized. Rapidly growing digital technologies also have the potential to deliver financial services at significantly reduced costs, thereby increasing financial inclusion and generating significant efficiency improvements across the economy. To build inclusive societies and address rising inequalities, global and national leaders must bridge the digital divide across and within countries to reap the benefits of digital financial services and build appropriate regulatory frameworks for ensuring trusted transactions in a digitalized economy. This means finding the right balance between enabling financial innovation and addressing risks, including insufficient consumer protection, a lack of financial and digital literacy, unequal access to digital infrastructure, and data biases that need action at the national level. This book focuses on financial technology, with a particular emphasis on the impact of digital finance on the finance and banking industries. Chapters address topics such as FinTech, big data, Bitcoin, corporate governance, and economic policy, while also considering current global issues like climate change and the COVID-19 pandemic. Supported by the most recent research and illuminating case studies, this handbook offers an insightful overview of how the finance and banking sectors are changing under the influence of the digital age.

Shari'ah and Common Law Adnan Trakic, 2022-10-24 Harmonisation of law, a term that refers to the bringing together of two different legal traditions, has developed a negative connotation when considered in the context of Shari'ah and

common law. Harmonisation began to be looked at as an attempt by one legal system to impose its values on the other. A major reason for that is the lack of understanding of the scope to which these two legal traditions converge. One of the principal findings of this book is that Shari'ah and common law have many more commonalities than differences. As a result, the need for harmonisation between the two might have been exaggerated. The similarities do not need to be harmonised. Rather, they need to be acknowledged and appreciated. If the differences between Shari'ah and common law, which undoubtedly exist as evidenced in this book, are viewed with an appreciation of the commonalities, the ambiance to reconcile the differences would be more conducive to the harmonisation process. This book is intended to help readers better understand Shari'ah and common law and aid harmonisation efforts when the need arises.

Understanding the Higher Education Market in Africa Emmanuel Mogaji, Felix Maringe, Robert Ebo Hinson, 2020-03-06 This book offers theoretical and practical insights into the marketing of higher education in Africa. It explores the key players, challenges and policies affecting higher education across the continent; their marketing strategies and the students' selection process. While acknowledging the vast size of the continent, this book aims to provide an understanding of the dynamics of higher education in Africa. This book recognises the private and government involvement in higher education provision and students and staff as stakeholders in the marketisation process. Strategic efforts are directed by universities to attract prospective students. This book further addresses issues such as the responses of higher education sectors to the notion of markets and marketing; consumerism and competition in higher education in Africa; conceptions of the commodification of higher education in Africa; and the dominance of Western epistemologies and their influence in transforming higher education sectors. Students as consumers in increasingly marketised higher education sectors in Africa are also discussed. Though primarily for marketing students and academic researchers, the book's feature of blended theoretical and practical knowledge means that it will also be of interest to marketing practitioners and university managers.

Islamic Green Finance Mohd Ma'Sum Billah, Rusni Hassan, Razali Haron, Romzie Rosman, Akhtarun Naba' Billah, 2024-09-16 This book argues that focusing on the green economy and green finance is essential to counteract the catastrophic, socio-economic effects of the COVID-19 pandemic. Further, while numerous research initiatives in the context of the green economy and/or finance have been observed in different parts of the world, to date, no comprehensive work has been published on the topic of green finance in relation to the discipline of Shari'ah. This timely book provides a comprehensive guide and offers practical solutions to the core issues of green finance within the principles of Maqasid al-Shari'ah. It contends that Islamic green finance serves to promote global financial stability and mitigate the financial risks associated with climate change and environmental degradation: by integrating Islamic finance principles with sustainable and environmentally friendly practices; by encouraging ethical investments and prioritising long-term social and environmental benefits; and by redirecting capital towards sustainable projects and fostering a more sustainable and

inclusive financial system. Islamic green finance's emphasis on transparency, governance, risk-sharing, and responsible investing helps lessen systemic risks and supports the transition towards a more stable and sustainable global financial landscape. The book's holistic approach to green finance in Maqasid al-Shari'ah aims to ensure that financial actions align with Islamic principles and help create a more sustainable and responsible economic system. The book is a detailed reference, which sheds light on the pressing issues of our time. It encompasses various aspects of Islamic economics and serves as a guide to implementing green financing in accordance with Islamic principles and ethics, and as such, it will appeal to academics, researchers, students and policymakers alike.

Energy Justice Adnan Trakic, Ridoan Karim, Pervaiz K. Ahmed, 2024-10-31 This book delves into the pressing issue of energy justice as it relates to SDG 7 and its far-reaching implications for society. With a comprehensive exploration of various aspects, from reducing energy burdens to political considerations, environmental justice, and human rights, this thought-provoking collection of chapters offers a profound understanding of the challenges and potential solutions surrounding energy justice. Starting with an introduction to the concept of energy justice and its significance, the editors lay the groundwork for an engaging discourse. The book then delves into the disproportionate energy burdens faced by low-income communities, shedding light on the difficult choices they must make to meet their basic needs. It further examines the intricate interplay between energy justice, politics, and environmental concerns, striving to find a harmonious balance. Drawing from a diverse range of perspectives, the chapters explore the intersection of energy justice with human rights, analyzing its implications for countries worldwide. The book also investigates the influence of disruptive events on renewable energy programs, presents an Islamic perspective on energy justice, and highlights the roles of the financial sector, fossil fuel industry, nuclear energy sector, and energy technology innovation in mitigating energy injustice. Chapter 'The Role of the Financial Sector in Energy Justice' is available open access under a Creative Commons Attribution 4.0 International License via link.springer.com.

Awqaf-led Islamic Social Finance Mohd Ma'Sum Billah, 2020-09-14 This book provides an authoritative and comprehensive overview of Waqf (endowment), addressing specific issues, models, solutions, structures and practices. As Islamic finance has gained in significance, so too has the institution of Waqf, working towards creating an enterprising and an entrepreneurial community across the globe, in order to meet the underlying objectives of the sustainable development goals (SDGs) by targeting the low-income group in particular. The book analyses the historical context of Waqf as well as its revival in the digital era. It addresses the laws and policies affecting the management of Waqf, such as Maqasid al-Shari'ah, law and policies, law and fiscal reform, regulations applied within Muslim countries, judicial procedures and dispute resolutions and covers the core issues concerning the formalities of Waqf, its management and corporate governance questions. The book includes a series of specialised chapters focusing on the products and services of Waqf, covering product

innovation, product development, and then assesses the risk factors in Waqf and Waqf Takaful. Finally, it focuses on the challenges of Waqf and offers recommendations for the way forward. A timely and practical guide, comprising a literature review and future research directions, as well as a number of international case studies, this will be a key reference for academics, students, researchers, practitioners and policy makers.

Genocide in Gaza Ahmet Davutoglu, Richard Falk, 2025-05-01 The December 2023 issuance of a Declaration of Conscience and Concern of Global Intellectuals to Stop Gaza Genocide to leading civil society activists and former governmental and UN officials throughout the world recorded 127 invited signatories and over 1500 endorsers. On this basis, the Declaration's originators, Ahmet Davutoglu and Richard Falk, invited a select number of signatories to an emergency conference in London to lend their authority to a further expression of the international community's deepest concerns in light of the continuation of the genocidal assault on the peoples of Gaza. This book brings together the most valuable of the presentations delivered by conference participants. It provides a coherent perspective on the extreme human catastrophe that was exposed as it unfolded in real time, arousing intense responses of outrage from the peoples of the world, which failed to alter the shameless and shocking levels of active complicity on the part of several leading Western liberal democracies. The latter constituted a cynical embrace of moral hypocrisy and double standards, paralyzing the UN and ignoring the most flagrant violations of international law on Israel's part. The book assesses the Israeli response to the Hamas attack of October 7 from the perspective of international law and morality, as well as providing informed accounts of the inability of the UN to implement the demands of a permanent and unconditional ceasefire in Gaza. It also provides accounts of the implementation of forced evacuation, induced starvation and disease, efforts calculated to destroy the civilian population in whole or in part, Israel's defiance of the UN, the ICJ Interim Order, and international humanitarian law in the course of transparent violations of the Genocide Convention. At a time when neither governments nor international institutions are demonstrating either the will or the capability to act in accord with the rule of law or the popular will of the majority of the peoples of the world who have demonstrated against the genocide in their millions, these substantial essays give an overview of the extraordinary damage wrought and what can and should be done to protect Palestinian rights and construct a future that empowers Palestinians to give content to their right of self-determination rather than victimized by yet another effort to impose a solution from without or enable Israel to control the day after developments when the violence stops.

Perspectives on the Transition Toward Green and Climate Neutral Economies in Asia Ordóñez de Pablos, Patricia, Almunawar, Mohammad Nabil, Anshari, Muhammad, 2023-07-24 Knowledge management and advanced information technologies such as AI, IoT, machine learning, and more can create digital tools and solutions to build more resilient, climate neutral, and green economies and societies. These digital tools and solutions and knowledge management can have a heavy impact on the achievement of sustainable development goals (SDGs) in Asia. Perspectives on the Transition Toward

Green and Climate Neutral Economies in Asia offers innovative conceptual frameworks and theories, case studies, and empirical studies to understand how knowledge management and digital innovation can foster the transition towards more circular and climate neutral economies as well as greener economies in Asia. This book discusses how key and enabling digital tools and solutions and knowledge management can support the achievement of SDGs by 2030. Covering topics such as climate neutral economies, image recognition, and usability evaluation, this premier reference source is an excellent resource for deans, heads of departments, directors, politicians, policymakers, corporate heads, senior general managers, managing directors, librarians, students and educators of higher education, academicians, and researchers.

Digitalization of Islamic Finance Ab. Aziz, Muhammad Ridhwan, Johari, Fuadah, Rafiki, Ahmad, 2024-11-29 The integration of technology into Islamic finance is a topic of growing interest, with a focus on promoting inclusive and progressive financial systems. The use of technology, such as blockchain, is being considered to enhance the inclusivity and progressiveness of Islamic finance. However, the transition from conventional to Islamic banking systems presents operational challenges, and the industry is still working on standardizing Islamic financial instruments. Despite the rapid expansion of Islamic finance, there are ongoing debates about its efficiency and the need for further progress in all areas of Islamic finance. Digitalization of Islamic Finance provides theoretical frameworks and the latest empirical research findings in the area of Islamic finance to promote inclusive and sustainable financial systems aligned with Islamic principles and to support the achievement of the Sustainable Development Goals (SDGs). This involves enhancing the efficiency, accessibility, and impact of Islamic finance through the integration of technology, standardizing Islamic financial instruments, and increasing awareness among various stakeholders. Covering topics such as blockchain technology, financial technologies (FinTech), and public perceptions, this book is an excellent resource for professionals, researchers, practitioners, academicians, businessmen, entrepreneurs, policymakers, and graduate and postgraduate students.
