c - What mean file with extension "h.in"? - Stack Overflow

Typically, a .h.in file is a header template that is filled in to become the actual header by a configure script based on the outcome of several tests for features present on the target platform.

*.h or *.hpp for your C++ headers / class definitions

For other headers in .h, either there is a corresponding .cpp file as implementation, or it is a non-C++ header. The latter is trivial to differentiate through the contents of the header by humans ...
