**The New Domestic Automakers in the United States and Canada** A.J. Jacobs,2015-12-16 Over the past forty years, state/provincial and local governments in the United States and Canada have provided foreign automakers with approximately \$4.80 billion in incentives in order to lure light vehicles assembly plants to their areas. This has included tax abatements, infrastructure construction, land giveaways, job training programs, and other subsidies. As of early 2015, ten foreign vehicle makers operated 20 light vehicles in developed North America. Despite the fact that all ten of these automakers have pursued a similar pattern—first exporting vehicles into the United States and Canada before launching vehicle plants in developed North America—each has followed its own specific historical development path and has created its own unique growth trajectory.This book provides a unique historical and qualitative review of these ten vehicle makers, from their early beginnings to their export entry into the United States and/or Canada through early 2015. In addition, it chronicles the histories of more than a dozen former automakers and potential future foreign light motor vehicle assembly plants in the United States and Canada. This includes the first foreign automaker to build its cars in the United States, De Dion-Bouton of France in July 1900, the early 20th Century endeavors of Fiat, Mercedes, and Rolls Royce, and the present day hopes of Chinese and Indian automakers. In the process, the text also provides an assessment of the top competing states and sites for any future plants, the possible incentives packages governments may offer to attract such facilities, and an estimated incentive value for each automaker. Overall, the goal of this book is to expand the knowledge of policymakers at all tiers of government in the United States and Canada and to help them take a more holistic look at the pros and cons of

attracting Automobile Manufacturing FDI. It is hoped that this will enable them to make more informed decisions when pursuing a new foreign motor vehicle assembly plant. Its findings should also prove informative to urban and regional planning, political science, sociology, economics, labor, and international development scholars and students in North America and worldwide.

*Automotive Global Value Chain* Wilson Kia Onn Wong, 2017-08-09 Today, some suppliers have grown increasingly powerful and in certain cases, earn revenues that rival or even exceed that of their automaker clients. In the pre-globalisation period, automakers wielded absolute power over their significantly smaller suppliers. This book reveals the upending of this relationship, with the gradual shift in the balance of power from automakers to their suppliers in this era of globalisation. The book examines how suppliers in the global tyres, seats, constant velocity joints (hereafter 'CVJs'), braking systems and automotive semiconductor industries have evolved into powerful oligopolies through a mix of acquisition and organic growth strategies. It also highlights how joint ventures could be strategically deployed as springboards to acquisition, as they enable firms to familiarise themselves with their partners' markets and operations. Moreover, the book analyses the disruption stirred by the entry of well-resourced technology titans into this industry and their inevitable clash with the traditional incumbents. This book is an invaluable reference for anyone interested in learning more about the automakers' and now their suppliers' relentless quest to create market-dominating intelligent driving systems.

*Asian Trade and Investment in Europe* Prana Krishna Biswas, Robert Dygas, 2022-04-28 This book provides deep insight into the flow of foreign direct investment from Asia to Europe. It assesses the topic of trade and investment from the reverse direction, considering Asian countries as the capital investors in the EU countries. Each chapter analyses either the international trade or investment of one or more Asian countries in correlation with one or more European states. The book analyses a significant number of countries, which are included in various economic associations, such as the Visegrad Group, the Three Seas Initiative, the European Free Trade Association, or are states from the same geopolitical region – for instance, the Iberian Peninsula, Baltic States, and Nordic countries. It examines Indian outward foreign direct investment trends in the UK before and after Brexit, based on select case studies, to emphasize the impact of Brexit, as well as to encourage trade and investment among Asian and European countries before and during COVID-19, to highlight the influence of the pandemic on the target country's economy. The authors use a variety of analytical methods in the book, such as numerical presentations, econometric analysis, descriptive statistical analysis, an examination of time-series dynamics, the modelling of functions, and semi-structured interviews with company executives. The regional perspectives bring new and useful insights to the topic, and the case study approach allows for a wider exploration of the research questions as well as their theoretical evolution. The book provides a big picture for economists, researchers, business analysts, and PhD students of economics, international trade, and business.

Trust and Brand Management Hanna Górska-Warsewicz,2024-12-23 Trust and Brand Management covers the main topics of heritage-based corporate brand management and its relationship to external factors and performance. The benefits for readers of this book lie in several aspects: knowledge of corporate brand management, brand heritage and related concepts, theoretical and practical foundations of brand management and brand heritage, and empirically supported research on the relationship among brand heritage, brand management practices, antecedents, and outcomes of heritage-based corporate brand management. This book consists of two parts. The first part provides a literature review and theoretical and practical background on brand heritage, its antecedents and outcomes, brand management approaches, and heritage-based corporate brand management. The second part presents the results of an empirical study as structural equation modeling to establish the relationship among brand heritage, corporate brand management practices, antecedents (brand history, culture, identity, and authenticity), and outcomes of heritage-based corporate brand management (brand trust, brand equity, and performance). In addition, the book includes 31 case studies of well-known heritage brands presenting their history, marketing communications, development, and positioning strategies. The benefit for managers is the presentation of terms and specific tools related to corporate brand management in the market and customer outcomes.

Administração: Organização, direção e controle da atividade organizacional 4 Elói Martins Senhoras,2021-07-21 Os estudos organizacionais compõem uma área de destaque no contemporâneo campo científico da Administração em razão da sua importância para explicar, descrever e prescrever como os indivíduos desenvolvem estruturas, processos e práticas organizacionais e como são afetados pelas organizações em suas estruturas de comando, subordinação e controle, razão pela qual a temática organizacional é objeto deste livro. A presente obra, “Administração: Organização, Direção e Controle da Atividade Organizacional 4” tem o objetivo de discutir o estado da arte no campo dos estudos administrativos, por meio da apresentação de uma coletânea diversificada de estudos teóricos e empíricos, os quais refletem uma riqueza de temáticas estratégicas, bem como a própria realidade organizacional no Brasil e no mundo. A organização desta obra se materializou em 17 capítulos, os quais foram escritos por meio de uma linguagem fácil e amplamente acessível a um público leigo ou especializado. Ao buscar uma via didática para apresentar as explicações, descrições e debates para um amplo público, a obra manteve a preocupação científica de se estruturar fundamentada em um rigor teórico-metodológico. A proposta implícita neste livro tem no paradigma eclético o fundamento para a valorização da pluralidade teórica e metodológica, sendo este livro construído por meio de um trabalho coletivo de pesquisadoras e pesquisadores oriundos de diferentes estados brasileiros, o que repercutiu em uma rica oportunidade para o compartilhamento de experiências no campo epistemológico da Administração. A natureza exploratória, descritiva e explicativa quanto aos fins e a abordagem quali-quantitativa

caracterizam o perfilamento metodológico desta obra, sendo o método teórico-dedutivo o fundamento para a utilização, tanto, de revisões bibliográficas e estudos de caso como procedimentos de levantamento de dados, quanto, de hermenêutica administrativa na análise de dados. Estruturados em 2 macroeixos temáticos que combinam teoria e prática administrativa, os 17 capítulos do presente livro apresentam discussões relacionadas, tanto, a tendências, instrumentos e ferramentas administrativas, quanto, a estudos de casos diversos, incluindo focos sobre gestão das cadeias de suprimentos e compras, bem como responsabilidade social e ambiental. Conclui-se com base nos debates teóricos e estudos de caso apresentados ao longo dos capítulos deste livro que os estudos organizacionais possuem uma abertura plural e absorvente de temas e discussões nas relações de comando, subordinação e controle, possibilitando aos leitores uma instigante imersão que vai desde modelos e marcos teórico-conceituais até à apreensão empírica de especificidades e complexidades organizacionais no mundo real.

**Variety of Development** Qiushi Feng, 2017-09-22 This book examines China, the world's largest auto market since 2008 and the story of how Chinese auto-makers developed is the story of the Chinese economy in microcosm. It focuses on China's systemically important automobile sector, this book reveals how local institutions have moderated structural changes at national and global levels, and consequently generated significant organizational diversity in the production sphere. This book begins with the intriguing observation that individual Chinese car makers have been evolving in different directions despite a shared context; what factors led to these diverse choices and positioning? It is the central aim of this book to explain the variety of institutional forms used by Chinese car manufacturers in navigating the market transition and answering the challenges posed by globalization.

The Challenge of BRIC Multinationals Rob van Tulder, Alain Verbeke, Jorge Carneiro, Maria Alejandra Gonzalez-Perez, 2016-11-23 This PIBR volume examines a number of idiosyncratic elements in the internationalization strategies of BRIC MNEs and, in particular, in their relationship with home country policies.

*The Global Rise of Asian Transformation* P. Hoontrakul, C. Balding, R. Marwah, 2014-12-17 Asian countries are catching up with the West by transforming their primarily agrarian societies into industrial powerhouses. Manufacturing is driving innovation, productivity growth, and higher standards of living for billions of Asians. In the colonial past, the Asian production and supply chains served Western consumers. The world is now poised to evolve, led by a unified Asian business landscape capable of driving sustainable global growth within industries and markets. The Global Rise of Asian Transformation provides insights into the complex process of macro-political and economic dynamics reshaping the business landscape throughout Asia. This edited collection lays bare the megatrends that are challenging the region, including emerging consumers, urbanization, infrastructure, climate change, and energy megatrends that will further bolster the region's world standing if governments and businesses handle them adeptly. Case studies of major international companies,

such as Sony, Lenovo, and Tata Motors, are also included.

**Marketing Luxury Services** Miguel Angelo Hemzo, 2023-04-26 This textbook discusses luxury marketing management, considering the broader range of decisions related to the complexities of offering luxury as services. Placing a strong emphasis on strategy as well as positioning and the market, it focuses on the challenges in luxury related to the traditional 4 Ps (Products, Place, Promotion and Price), in addition applying the service-dominant logic to luxury management in relation to the other 4 Ps in marketing decisions (People, Process, Panorama, and Productivity). The text opens with an exploration the history and evolution of the concept and definition of luxury and the effect upon the practice of luxury marketing today, concluding with an overview of the contemporary luxury market, description of the main players, and relevant industry trends. It then discusses marketing strategies as applied to the luxury market, including market identification, brand communication, product positioning, pricing, flow of goods, foreign market entry, and more. With contributions from luxury marketing practitioners to offer practical knowledge as well as real world cases studies, this textbook will equip students with a comprehensive understanding of marketing in the luxury industry and the tools necessary to be successful in the management of luxury brands.

**History of the British Empire from Asian Perspectives** Shigeru Akita, 2025-03-07 This book presents the history of the British Empire as the “Bridge” for creating a Global History, especially emphasizing its connections with Asian regions. The United Kingdom ruled most of the world in the nineteenth century. Its influence spread around the globe in various forms – in the white settlements such as those in Canada, Australia, and New Zealand (Dominions), in Asian and African regions represented by present-day India, in colonies acquired by military force (Dependencies), and in other regions under its economic influence through trade and investment (the informal empire). Thus, the British Empire played a key role in nineteenth-century globalization. There are many books on the British Empire in English. However, no books from Asian perspectives have interpreted it as “the means used by Asian countries for their own economic development” (and as providers of “international public goods”). Along with the East Asian economic resurgence, the weight of the global system and the world economy has now largely shifted from the Atlantic world to the Asia-Pacific region, encompassing India, as well as the Pacific coast of the United States. The global depression in 2008 accelerated this trend. We now face the task of building a new interpretation of world history with a clearer understanding of this upheaval. Redrawing world history is not an easy task but a good starting point would be to analyze the mutual relationship between the British Empire and the Asian regions, and this can be done by interpreting the historical significance of the British Empire.

*Understanding Financial Reporting Standards: A Non-technical Guide* Roger Hussey, Audra Ong, 2023-10-25 If you want to understand the regulations and practices of financial accounting and reporting, this is the book for you! The authors of this book have developed a unique set of material on corporate financial reporting based on their collective years of teaching experience. In this book, they explain, in non-technical language, the financial information that companies are required to provide. What are companies? Why are they formed? Companies are not charities but are formed to provide a good income to their shareholders by selling us goods and services. Large companies in the UK are mostly known as Public Limited Companies (PLCs). There are about 2,000 PLCs in the London Stock Exchange. But do we understand these companies' objectives and activities? We can do so by examining the financial information they provide publicly in their annual financial reports. To be able to examine the financial statements issued by companies, you need to understand the regulations issued by the International Accounting Standards Board (IASB). This book explains the requirements of Financial Reporting Standards. Guidance on the disclosure requirements and examples from companies' financial reports are also provided and explained. Many of these company names are synonymous with our everyday lives. Think about Cadbury Chocolate, Unilever, Diageo, Shell, Boots. It is difficult to conceive our lives without their products and services. The explanation and guidance provided in this book will allow you to understand fully the operations of such companies. This is vital knowledge if you intend to do business with the companies, buy their products and services or find employment with them.
