El Mapa Conceptual y el Diagrama Uve Fermín Ma González García, 2023-05-29 Los Mapas Conceptuales, el programa CMap Tools y los Diagramas V tienen un gran potencial para mejorar los procesos de enseñanza-aprendizaje, el diseño adecuado de materiales curriculares e instruccionales y para una evaluación, entendida como motor real de los procesos de mejora continua de la calidad docente. El libro hace operativos estos planteamientos presentando una diagnosis de la situación actual a la luz de las exigencias educativas del nuevo siglo: describe estas herramientas de aprendizaje, así como su utilidad y aplicaciones, dedicando un estudio exhaustivo al software informático CMap Tools para la elaboración creativa de Mapas Conceptuales. Finalmente, enfatiza la utilidad de los Mapas Conceptuales y de los Diagramas V en la docencia, presentando modelos de conocimiento realizados por alumnos de Magisterio en este contexto teórico-práctico.

La construcción global de una enseñanza de los problemas sociales desde el Geoforo Iberoamericano Nancy Palacios Mena, Liliana Angélica Rodríguez Pizzinato, Xosé Manuel Souto González, 2020-01-15 El objetivo de la publicación es ambicioso. Queremos colocar en el contexto global de la educación geográfica de los problemas sociales las voces y argumentos de los participantes en los foros y otras secciones del Geoforo Iberoamericano. Sin duda es una aportación singular y con poco parangón en otros lugares. Con este evento se ha reforzado la comunicación educativa del alumnado y profesorado sobre problemas que preocupan: la incidencia de las Tecnologías de la Información y Comunicación (TIC), el rol del sistema escolar en la construcción de la ciudadanía, la incidencia de las prácticas escolares en la formación del profesorado, la importancia de los estudios locales o los trabajos de campo, el valor de la problematización de lo local en la búsqueda de soluciones globales a los mismo, o bien la importancia del medio rural en la educación geográfica. Una parte importante del Coloquio del X Aniversario del Geoforo residió en la celebración de itinerarios didácticos para conocer diferentes lugares de Bogotá desde una perspectiva geográfica. Frente a una concepción clásica de las salidas didácticas, en las cuales un educador informa sobre las características de los lugares -en modo coloquial se conoce como método cicerone-, se plantea una orientación por parte de docentes en formación inicial, pertenecientes a los semilleros de investigación de las universidades organizadoras, la definición de problemas locales, para ser debatidos y proponer soluciones a estos. Al mismo tiempo, se generó un ambiente de conocimiento mutuo con las personas que realizamos el itinerario. El título que hemos escogido para esta publicación: La construcción global de una enseñanza de los problemas sociales desde el Geoforo

Iberoamericano, responde a nuestras finalidades. Por una parte, queremos abordar desde una perspectiva global los problemas locales, que una vez analizados queremos difundir entre los colegas escolares de Iberoamérica. Por otra, queremos crear redes de personas y colectivos que muestren una manera de explicar los fenómenos sociales desde la educación escolar. Todas estas cuestiones y descripciones de situaciones escolares pretenden generar un espacio público educativo que facilite la innovación de la didáctica de los problemas sociales desde las áreas escolares de geografía e historia. Una pretensión que se está formalizando en un proyecto internacional y en una renovación de la página web del geoforo. En un caso esperamos contar con el apoyo de la Organización de Estados Iberoamericanos (OEI), en el otro ya está en marcha el proceso de mejora de la estructura on-line bajo el auspicio de la Universidad Nacional Autónoma de México (UNAM).

Geografía Yahir Gerardo García López, 2000 Este libro pertenece a la nueva Serie Integral por Competencias, que el Grupo Editorial Patria lanza en reconocimiento al gran avance educativo que representarán para el país, los nuevos programas de la Dirección General de Bachillerato (DGB) y cubre el 100% de los planes de la reforma y el “Marco Curricular Común” propuesto por la Secretaría de Educación Pública (SEP). Sabemos que estos nuevos programas constituirán un gran reto para alumnos y docentes y por eso hemos reunido, en esta nueva serie, a un equipo de expertos en el enfoque metodológico, en la autoría de cada asignatura y en los procesos de la edición, logrando de esta manera aportar una herramienta óptima y acertada, que garantiza el éxito en este reto.

EVALUACIÓN AMBIENTAL BORDERÍAS URIBEONDO M^a Pilar, MUGURUZA CAÑAS Carmen, 2014-09-24 La evaluación ambiental es un proceso que, aunque se ha llevado a cabo desde hace varias décadas, ha adquirido un especial significado en los últimos años, a partir del auge de las tendencias de sostenibilidad y de su imposición a través de las normativas ambientales de la Unión Europea. Por ello, su conocimiento es fundamental en una licenciatura de Ciencias Ambientales. La obligación de realizar una evaluación del impacto ambiental afecta a muy diversos proyectos, con distintas escalas de actuación, y en su realización intervienen muchos campos del conocimiento científico debido a la complejidad de interrelaciones ambientales. Todo ello subyace en este texto, aunque en él está siempre presente un matiz geográfico. Este texto constituye la primera parte de la asignatura Evaluación de Impacto Ambiental I, por lo que tiene un carácter general e introductorio. Su contenido, adaptado a la Ley 21/2013 de evaluación ambiental, se desarrolla en cinco temas, en los que el alumno conocerá la estructura, legislación y procedimiento de una evaluación de impacto ambiental, finalizando con un sencillo ejemplo recopilatorio de todo el proceso.

Innovación Digital Educativa Enrique Ruiz-Velasco Sánchez & Josefina Bárcenas-López, 2022-01-01 Innovar es poner en práctica la creatividad. La innovación consiste en introducir creatividad en el trabajo y hacer cambios en las cosas y en los sistemas para volver realizable una idea, fruto de la creatividad. La innovación se puede ponderar y se vuelve factible gracias a la puesta en práctica de ideas creativas, a pesar de que la creatividad es subjetiva y resulta difícil de cuantificar.

ESTUDIOS SOCIALES 9 F PRIMA GRUPO EDITORIAL, El libro de noveno de los Estudios Sociales de la Editorial F Prima, retoma de forma literal lo tipificado en el programa de Estudios Sociales vigente en el MEP, e incorpora las diversas perspectivas y temáticas por nivel y periodo, por lo que esta editorial se ha convertido en vanguardia para la producción de materiales didácticos, cuya población meta es el profesorado y el estudiantado de la educación secundaria en Costa Rica. Desde el enfoque privado, coadyuvamos al gobierno costarricense en su empeño de formar ciudadanos informados, con un espíritu crítico, propositivo y colaborativo, para que enfrenten los desafíos sociales, económicos, políticos y culturales que plantea el sistema mundializado, de ahí la importancia de este texto para el estudiante. Este documento no es un simple libro de contenidos, sino que va más allá de la transmisión de los conocimientos a través de la memoria, es decir, por medio del desarrollo de las actividades de mediación tipo taller, se proporciona la construcción del conocimiento y el desarrollo de habilidades disciplinarias -propias de la historia y la geografía-, así como las de tipo social y personal, donde se cuestiona el presente, a partir de una valoración del pasado de cara al futuro de la sociedad costarricense.

Didácticas específicas en la docencia universitaria Londoño Orozco, Guillermo, 2013-03-25 Autorreflexión, autoanálisis e investigación de docentes universitarios constituyen los pilares de este libro, que permite ubicar una importante fuente de riqueza en cuanto a las actividades didácticas en la educación superior, presentadas no como un conjunto de recetas para un buen hacer, sino como posibilidades de comprensión de las actividades de enseñanza en este nivel de educación. Con recorrer sus páginas será posible descubrir algunas ideas respecto al sentido de práctica pedagógica, pedagogía y didáctica, y sobre algunas perspectivas didácticas de los profesores universitarios caracterizadas por el contacto con el objeto de formación; por el relieve puesto en la relación con los estudiantes, su valoración y empoderamiento, y por la incorporación de ciertas estrategias de formación válidas y conocidas en el ámbito educativo en general.

Evaluación de resultados y lecciones aprendidas del "Programa Mesoamérica sin Hambre: Marcos institucionales más efectivos para mejorar la agricultura familiar y la seguridad alimentaria y nutricional" Organización de las Naciones Unidas para la Agricultura y la Alimentación, 2022-09-29 El Programa Mesoamérica Sin Hambre (MSH) es una iniciativa de cooperación regional, con un presupuesto total de 15 millones de dólares y un ciclo de duración de ocho años (2015-2022), financiada por la Agencia Mexicana de Cooperación Internacional para el Desarrollo (AMEXCID) y ejecutada por la FAO en nueve países de Mesoamérica: Belice, Costa Rica, Colombia, El Salvador, Honduras, Guatemala, Nicaragua, Panamá y República Dominicana. El Programa ha logrado alcanzar los dos resultados planificados, con distintos niveles de avances en los países participantes. En particular todos los países disponen de un marco habilitante inicial para mejorar el apoyo del Estado a los productores de la agricultura familiar y a la seguridad alimentaria nutricional y se han fortalecido capacidades de instituciones sectoriales y de gobiernos locales para la gestión de servicios de apoyo a la seguridad alimentaria y la agricultura familiar. La evaluación identifica numerosas experiencias con potenciales de aprendizaje, entre las cuales destacan la complementariedad con otras intervenciones de FAO y de otros cooperantes, el modelaje regional de instrumentos de política sectorial, experiencias de CSS-Triangular entre los países participantes. La evaluación recomienda la continuidad del apoyo financiero para la implementación de una siguiente fase del programa MSH para el período 2023-2028 dando particular atención al diseño de instrumentos para incrementar la sostenibilidad de las capacidades institucionales y la elaboración de modelo conceptual de intervención que considere todos los factores causales del problema y su interacción.
