Social Rights Jurisprudence Malcolm Langford,2009-01-19 In the space of two decades, social rights have emerged from the shadows and margins of human rights jurisprudence. The authors in this book provide a critical analysis of almost two thousand judgments and decisions from twenty-nine national and international jurisdictions. The breadth of the decisions is vast, from the resettlement of evictees to the regulation of private medical plans to the development of state programs to address poverty and illiteracy. The jurisprudence not only implicates our understanding of economic, social, and cultural rights, but also challenges the philosophical debates that question whether these rights can and should be justiciable.

Transformative Constitutionalism in Latin America Armin von Bogdandy,Eduardo Ferrer Mac-Gregor,Mariela Morales Antoniazzi,Flávia Piovesan,Ximena Soley,2017-07-21 This ground-breaking collection of essays outlines and explains the unique development of Latin American jurisprudence. It introduces the idea of the Ius Constitutionale Commune en América Latina (ICCAL), an original Latin American path of transformative constitutionalism, to an Anglophone audience for the first time. It charts the key developments that have transformed the region and assesses the success of the constitutional projects that followed a period of authoritarian regimes in Latin America. Coined by scholars who have been documenting, conceptualizing, and comparing the development of Latin American public law for more than a decade, the term ICCAL encompasses themes that cross national borders and legal fields, taking in constitutional law, administrative law, general public international law, regional integration law, human rights, and investment law. Not only does this volume map the legal landscape, it also suggests measures to improve society via due legal process and a rights-based, supranational and regionally rooted constitutionalism. The editors contend that with the strengthening of democracy, the rule of law, and human rights, common problems such as the exclusion of wide sectors of the population from having a say in government, as well as corruption, hyper-presidentialism, and the weak normativity of the law can be combatted more effectively in future.

La (i)legitimidad democrática del control judicial de las leyes Linares, Sebastián,2008-06-15 En el desarrollo de la democracia inevitablemente surgen dilemas constitucionales acerca de quién debe tener la última palabra institucional en el

proceso político de toma de decisiones, y de acuerdo con qué criterios. Dentro de estos dilemas entra en juego el lugar que deben ocupar los jueces en las estructuras de decisión política desde la justicia constitucional. El libro representa, pues, un ensayo que intenta abordar el problema de la autoridad final en una democracia, y para ello navega entre los diversos dilemas morales, normativos e institucionales que presenta el control judicial de las leyes en las democracias modernas. En este sentido, el libro nos alerta de los peligros de sobredimensionar el papel político de los jueces en detrimento del principio democrático, y lo hace a partir de un rico diálogo interdisciplinario entre la ciencia política, la teoría política, la filosofía del derecho y el derecho constitucional. Según el autor, el problema de la autoridad final en una democracia debe resolverse apelando a argumentos generales, relacionados con la igualdad, dignidad y autonomía de las personas y con el valor epistémico de los procedimientos de toma de decisiones. Luego de hacer un repaso minucioso del debate sobre los fundamentos del control judicial de las leyes, y decantarse por la corriente que defiende la supremacía del Poder Legislativo, el autor explora distintos modelos débiles de justicia constitucional, en los cuales la autoridad final recae en el Congreso, y propone un diseño alternativo con miras a promover el diálogo entre ramas de gobierno. ÍNDICE (Resumen): La legitimidad democrática de las decisiones políticas. El constitucionalismo en la encrucijada. Los méritos democráticos de las decisiones constitucionales. Modelos de justicia constitucional y deferencia al poder legislativo. Las posibilidades del diálogo interorgánico. La intensidad de la dificultad contramayoritaria; una aproximación gradual

Same-sex Marriage in Latin America Jason Pierceson,Adriana Piatti-Crocker,Shawn Schulenberg,2013-01-01 This volume sheds light on regional, national, and individual-level factors that have led to major developments for same-sex relationship equality in Latin America and explores institutional, political, and social barriers for same-sex couples in the region. It analyzes cross-national patterns of same-sex relationship policies in Latin America and examines country-cases of recent policies for same sex-couples in the region.

Punishment in Latin America Luiz Dal Santo,Máximo Sozzo,2024-11-21 Challenging the Northern-centric approach that has dominated the literature on punishment-and-society, this collection draws on innovative theoretical perspectives to make sense of punishment, penal trends, institutions and practices in peripheral settings, taking Latin American countries as its case studies.

Research Handbook on Law and Courts Susan M. Sterett, Lee Demetrius Walker,2019 The Research Handbook on Law and Courts provides a systematic analysis of new work on courts as governing institutions. Authors consider how courts have taken on regulating fundamental categories of inclusion and exclusion, including citizenship rights. Courts' centrality to governance is addressed in sections on judicial processes, sub-national courts, and political accountability, all analyzed in

multiple legal/political systems. Other chapters turn to analyzing the worldwide push for diversity in staffing courts. Finally, the digitization of records changes both court processes and studying courts. Authors included in the Handbook discuss theoretical, empirical and methodological approaches to studying courts as governing institutions. They also identify promising areas of future research.

Disabled People and the Right to Life Luke Clements,Janet Read,2008-01-18 The most basic of human rights, the right to life, is the focus of this book. 'Human rights' has increasingly come to be seen as a significant framework, both to aid understanding of the experiences of those who face oppression, and to underpin social, legal and political measures to counter it. Disabled People and the Right to Life uses this framework to explore how disabled people's right to life is understood in different national contexts and the ways in which they are - or are not - afforded protection under the law, emphasizing the social, cultural and historical forces and circumstances which have promoted disabled people's right to life or legitimated its violation. Written by an international panel of contributors including individuals holding public office, academics from the fields of law, social policy, disability studies and bioethics as well as practitioners and activists attempting to further disabled people's human rights, this truly interdisciplinary book will be of interest to students and researchers of disability, law, social policy and human rights.

Justicia constitucional. Allan R. Brewer Carias,2023-11-22 La justicia constitucional, es decir, la posibilidad de control judicial de la constitucionalidad de las leyes y demás actos estatales, deriva de la idea misma de la Constitución como norma fundamental y suprema, que debe prevalecer sobre toda otra norma o acto estatal. La justicia constitucional, por tanto, como lo visualizó Hans Kelsen hace más de cien años, es la garantía del principio de la supremacía constitucional, de donde emana el poder de los jueces o de ciertos órganos constitucionales en ejercicio de funciones jurisdiccionales de controlar la constitucionalidad de los actos estatales, incluidas las leyes, pudiendo incluso declararlos nulos cuando sean contrarios a la Constitución. Ello fue, en realidad, uno de los grandes aportes de la Revolución Norteamericana al constitucionalismo moderno, y su desarrollo progresivo ha sido el fundamento de los sistemas de justicia constitucional en el mundo contemporáneo, bajo la premisa de que el sometimiento de todos los órganos del Estado a la Constitución se refiere no solo a lo dispuesto expresamente en las normas de su texto que son de obligatoria y directa aplicación, sino de todos los principios y valores fundamen-tales que están a su base, y que, al mismo tiempo, pueden inferirse de dichas normas. Por ello, precisamente, uno de los roles fundamentales del juez constitucional es la identificación y aplicación de los dichos principios y valores, en su contexto histórico y en su adaptación a través de los tiempos. Sobre el tema de la justicia constitucional me

he ocupado extensa-mente en muchas obras y durante muchos años, estando conformada mi obra en la materia por varios miles de páginas, de las cuales he seleccionado aquí algunos estudios con el objeto de dar un panorama breve del tema. Allan R. Brewer-Carías.

La tutela judicial frente al daño ambiental colectivo Gastón Mé dici Colombo,2019-04-15 En La tutela judicial frente al daño ambiental colectivo el autor se propone someter a prueba la aptitud de los ordenamientos jurídicos de Argentina y España para abordar una pretensión de tutela ambiental colectiva. Realiza entonces un análisis comparativo partiendo de la siguiente premisa: la inadecuación de las normas procesales afecta no sólo al acceso a la jurisdicción sino también a la justicia ambiental misma, considerada desde una visión multidimensional (Schlosberg, 2009). Con este cometido, el texto repasa la normativa supranacional dedicada al derecho de acceso a la justicia ambiental —incluyendo el recientemente adoptado Acuerdo de Escazú— y revisa los sistemas de tutela desde la normativa, la doctrina y la jurisprudencia. El autor concluye su obra con consideraciones críticas y propuestas de modificación legislativa, las que entiende necesarias para una adecuada tutela del ambiente, y de los intereses difusos en general, en un contexto de conflictividad global creciente.

Yeah, reviewing a book **Recurso De Amparo Argentina** could be credited with your close connections listings. This is just one of the solutions for you to be successful. As understood, exploit does not suggest that you have extraordinary points.
