New worlds for old words / Mundos nuevos para viejas palabras Christopher J. Pountain, Bozena Wislocka

Breit, 2021-09-07 New worlds for old words / Mundos nuevos para viejas palabras is a collection of chapters on the theme of lexical borrowing in the languages of Western Europe with particular focus on borrowing from Latin, or from Greek via Latin, into Spanish. Such cultured, or "learnèd" borrowing—as it has sometimes been designated—, is an especially intriguing feature of the Romance languages, since they also derive from Latin. It is also of particular interest to historical linguists since it is an example of what has been called "change from above": innovation first evidenced in the written usage of the culturally élite which then diffuses into more general acceptance, with the result that some cultured borrowings (e.g. problem/problema, social, program(me)/programa) are now amongst the most common words in the modern languages. Despite their enormous influence on such major languages as English, Spanish, Portuguese, French, and Italian, the mechanisms by which these borrowings become established in their host languages have to date been relatively little studied. This book seeks to make a contribution to this question and revive interest in what has become a neglected area of historical linguistics and contains contributions both by internationally respected scholars and new researchers in the field. This bilingual collection will appeal to academics, scholars, and postgraduate students of Hispanic Studies, Cultural History, and particularly Historical Linguistics and Romance Linguistics. New worlds for old words / Mundos nuevos para viejas palabras es una colección sobre los préstamos léxicos en los idiomas de Europa occidental, centrándose sobre todo en los préstamos del latín, o del griego a través del latín, al español. Los cultismos son un rasgo especialmente interesante de las lenguas romances, ya que ellos mismos proceden del latín. También es de gran interés para la lingüística histórica dado que es un ejemplo de lo que se conoce como "cambio desde arriba": cambios atestiguados primero en la lengua escrita de la élite cultural que luego comienza a tener un uso más generalizado, y cuyo resultado es que algunos de estos cultismos (por ejemplo "problema", "social", "programa") se encuentran entre las palabras más comunes en los idiomas modernos. A pesar de su enorme influencia en lenguas tan importantes como el inglés, el español, el portugués, el francés o el italiano, los mecanismos por los que estos préstamos se establecen en los idiomas de acogida se han estudiado relativamente poco hasta ahora. Este volumen es una contribución a esta cuestión y su objetivo es reavivar el interés en lo que se ha convertido en un área olvidada de la lingüística diacrónica. Se incluyen capítulos de académicos conocidos internacionalmente y de

investigadores noveles. Esta colección bilingüe será de gran utilidad para académicos, investigadores y alumnos de posgrado en estudios hispánicos, estudios culturales, y particularmente lingüística histórica y lingüística de las lenguas romances.

Del blockbuster al autorretrato Ricardo Bedoya, 2024-08-15 En este volumen, Ricardo Bedoya ofrece una visión panorámica de ciertos motivos, tendencias estilísticas y tratamientos rastreables en el cine internacional desde el inicio del siglo XXI. El volumen recoge apuntes sobre centenares de filmes, sopesados desde la perspectiva de un cinéfilo que no

reconoce placeres culposos ni jerarquías entre las películas consideradas de arte y ensayo y aquellas que no abrigan tales pretensiones. El volumen se organiza a partir de algunas de las líneas recurrentes en el cine producido desde el año 2000. Comienza con una mirada a los títulos finales o póstumos de cineastas que cerraron sus carreras a inicios del siglo y sigue con un repaso por las distintas modalidades narrativas del cine de no ficción. El repaso continúa con una revisión de los diálogos que se establecen con los géneros cinematográficos, desde el western hasta el terror, siempre vigentes, pero releídos a la luz de las sensibilidades contemporáneas, y presta atención también a las franquicias que abundan en secuelas, precuelas, reboots y spin offs. Otras líneas de aproximación incluyen los modos de imaginar cuerpos y mentes en el nuevo siglo, así como las miradas a la historia y a los conflictos de la actualidad o a la construcción de identidades e intimidades de individuos y grupos, entre otras tendencias del cine del nuevo siglo. Un libro imprescindible para quien quiera orientarse en la diversidad y riqueza de la cinematografía contemporánea.

Historia natural de los objetos insignificantes Cardona Echeverri, Jacobo,2015-09-01 Esto es un ensayo. Escritura que habla de objetos, otra forma de grafía. Objetos que sirven para contar historias, para revelarnos como historia. La reflexión surge de una evidencia: la desaparición. Hablo de un mundo virtual, pero también de una instalación material constantemente modificada. Los objetos cotidianos ya no son heredados, sino desecharos, olvidados, ignorados. En este trámite, aparentemente falaz, nuestros recuerdos son desplazados. Creo percibir en ese fenómeno una variante antropológica fundamental. Intento hablar de objetos insignificantes como seres que también pueblan la Tierra, como el roble, los sueños o las montañas. Por eso este material narrativo es una mezcla de recuerdos personales, análisis antropológicos, reflexiones filosóficas, evocaciones cinematográficas, datos biológicos y aproximaciones literarias. En este sentido, la figura de Tarkovski y su cine son guías de la exposición. Las afinidades estéticas y metafísicas compartidas son evidentes: el tiempo, la memoria y el desprecio a los valores modernos.

Andar... sin zapatos Yehosua Mikaela Arcas De La Varga,2024-07-11 “—¿Es usted Yehosua Mikaela? —me dijeron. Contesté que sí, mientras volvía a la cocina para terminar de preparar mi comida. Todos entraron detrás de mí: mi madre, su pareja y los dos agentes. Los policías me informaron que mi madre me había denunciado, que debía acompañarlos. Se me nubló la vista, se me aceleró el corazón; sólo tenía claro que no me daría el tiempo para comer. Mi cara de «¡¿O sea, hello?!» lo decía todo. No lo podía creer... mi propia madre me había denunciado por un asunto tan irrelevante. Me quedaría sin comer... ¡encima un viernes! Fui volando al baño, intenté ganar tiempo de cualquier manera para pensar rápido en una forma de escapar o de evitar irme con ellos, pero no había nada que pudiera hacer estando en un séptimo piso... Por la ventana, impensable saltar. No tenía más opciones. Así que tuve que irme con los agentes a 'la Grumer', que es como llaman en Madrid a los calabozos de menores.” Fue así como esta jovencita comenzó una nueva vida sin ni si quiera saberlo, en un

escenario al que jamás se había asomado, adonde nunca, ni en sus peores pesadillas, habría imaginado poner pie. Y era sólo el principio... En esta historia biográfica no hay espacio para la superficialidad ni para los lugares comunes. Cada frase está cargada de significado, como en los trazados de las pinturas de un mundo surreal. La niña que se va convirtiendo en mujer con una voluntad de acero, levantándose tras cada derrumbe, se yergue para ir construyendo su propio destino. Aquí, con una sonrisa en sus ojos, nos comparte con generosidad su secreto para vivir con plenitud cada día.

"El umbral de las brujas" contiene trece relatos de suspense y terror que suman seis de los principales premios mexicanos de literatura y han sido recomendados por todos los lectores. «Los mejores cuentos del año, de muchos años hacia atrás, y quizás hacia adelante». Emmanuel Carballo. «Escalofriantes. Divertidos. No puedes dejar de leerlos». El Universal.

A por mas, Un viaje exclusivo por la intrahistoria de 29 deportistas (hombres y mujeres) de élite que luchan por una nueva medalla en los próximos Juegos Olímpicos de Río de Janeiro. Cada capítulo contiene el esfuerzo, la resiliencia y la superación de cada personaje contada de manera cercana y en muchos casos con anécdotas nunca jamás escuchadas ni vistas. Entre ellos están Pau Gasol, Garbiñe Muguruza, Carolina Marín, Raúl Entrerríos, Mireia Belmonte, Ona Carbonell...

Réquiem por Teresa Liano, Dante, 2019-11-25 Un retrato de una Guatemala en la que los estratos sociales, el tinte político y la cultura machista normalizada enmarcan una historia de familia. El narrador va contando su relato en el transcurso de una tarde de copas, en un bar en el que canta un imitador de Elvis: cada entrada de este artista con las canciones clásicas del ídolo del rock, se entremezclan con la terrible historia de Teresa, la hermana del protagonista, casada con un militar y cuya desgracia se va suscitando ante los ojos de todos los que la rodean sin que nadie sea capaz de intervenir.

Por qué mata el hombre Teresa Waisman, 2015-12-21 ¿Por qué mata el hombre? es una pregunta que tiene vastas respuestas llegadas desde enfoques científicos hasta artísticos y de la jerga popular. ¿Es una cuestión de esencia o de cultura?, la respuesta es difícil, pero no por ello inabarcable. En estos tiempos de grave violencia en México es, más que necesario, obligado preguntarnos como sociedad qué es lo que motiva a todos esos sicarios, miembros del crimen organizado y personas que se les unen, a matar con tremenda saña a sus semejantes, a sus prójimos. Es en esta época cuando las dudas son más intensas y, por lo mismo, cuando las respuestas se vuelven vitales. Este ensayo nos da luces sobre el tema y nos muestra cómo la muerte es un aspecto presente en la humanidad, mismo que ya antes ha sido abordado y reflejado en la literatura. En el caso específico de la muerte propinada por el otro, hay una suerte de enigma: ¿Por qué el hombre,

paradójicamente, en la conservación de su vida mata al otro, es decir, extermina eso que considera un gran valor para sí mismo? Es fundamental conocer los orígenes de la violencia tomando en cuenta los genes y el ambiente. No es suficiente el castigo a los culpables como tampoco marchas, demostraciones, denuncias y crítica que no pasan de ser paliativos o calmantes. Son de gran importancia, por el contrario, el control de las tendencias de la naturaleza humana y la creación de medios sociales propicios para la convivencia pacífica; ejes sobre los cuales se desenvuelve el presente ensayo.
